THE REAL STORY OF THE TWO WOLVES

What we were not told however is that the modern version going around on the internet is not the original story that is passed down through Native American tribes.

The original story is MUCH different, fundamentally so, even in the lessons it teaches. This is the internet version you may have heard

An old Cherokee is teaching his grandson about life. \"A fight is going on inside me,\" he said to the boy. It is a terrible fight and it is between two wolves.

The same fight is going on inside of you, and inside of every other person too.

For the black wolf has many qualities: tenacity, courage, fearlessness, strong will and great strategic thinking that I have need of at times and that the white wolf lacks.

But the white wolf has compassion, caring, strength and the ability to recognize what is in the best interests of all.

How you choose to interact with the opposing forces within you will determine your life.
