The nation's long-term fiscal imbalances will likely make DOD's 1.6 trillion planned investment in new weapon systems unsustainable. Thus, it is critical that DOD retains the flexibility to end programs and contracts when necessary and appropriate. Although the federal government generally has the legal right to terminate contracts for convenience, defense stakeholders have sometimes expressed concerns that it will cost more to terminate a contract than to complete it. To address this perception, GAO examined (1) how expected contract termination costs and other factors affect DOD decisions on whether to end programs and contracts; (2) the circumstances under which it would cost more to terminate a contract for convenience than to complete it; and (3) the options DOD has for retaining value or reducing costs, when DOD ends programs or contracts. To do this, GAO examined DOD data on terminated contracts over \$100 million; reviewed laws, regulations, and guidance; and met with key DOD officials. GAO recommends that DOD review, and as needed amend, guidance on terminations across the military services and DOD agencies to ensure that termination guidance identifies the conditions under which it is appropriate to end programs or contracts, and provides knowledge needed to use terminations as an investment portfolio tool. DOD agreed.

## **Critical Infrastructure Protection: Sector Plans and Sector Councils Continue to Evolve**

If we were honest, most of us have times in our lives when continuing forward seems to be the least desirable option. And this even includes people who believe in God. Perhaps one of the most difficult lessons for

people coming to a faith-based life is that believing in and accepting Jesus Christ as their personal Lord and Saviour does not mean a problem-free life. And although intellectually they may believe that he never asks more of us than we can handle, deep down it can be a difficult truth to live. In *The Power to Continue*, author Danisa Siziba reminds us that God is the answer to any question, and though life may still be difficult at times, he is there to help us through just as he did for those in the Bible. As a fellow disciple of Christ, you can find encouragement from the many biblical examples of men and women who trusted in God and followed the leading of the Spirit. *The Power to Continue* also offers practical advice for Christians today who are ready to be successful in achieving their divine purpose. In John 8:31, Jesus says, If ye continue in my word, then are ye my disciples indeed. We should therefore continue on our journey of faith and walk forward as Christian disciples of Christ. This walk may be challenging, but it is not how you start but how you finish.

## Problems Continue in the Federal Management of the Coastal Zone Management Program

The Experiment Must Continue is a beautifully articulated ethnographic history of medical experimentation in East Africa from 1940 through 2014. In it, Melissa Graboyes combines her training in public health and in history to treat her subject with the dual sensitivities of a medical ethicist and a fine historian. She breathes life into the fascinating histories of research on human subjects, elucidating the hopes of the interventionists and the experiences of the putative beneficiaries. Historical case studies highlight failed attempts to eliminate tropical diseases, while modern examples delve into ongoing malaria and HIV/AIDS research. Collectively, these show how East Africans have perceived research differently than researchers do and that the active participation of subjects led to the creation of a hybrid ethical form. By writing an ethnography of the past and a history of the present, Graboyes casts medical experimentation in a new light, and makes the resounding case that we must readjust our dominant ideas of consent, participation, and exploitation. With global implications, this lively book is as relevant for scholars as it is for anyone invested in the place of medicine in society.
