

Linux Rapid Embedded Programming

Yocto Project (redirect from Yocto linux)

for embedded and IoT software that are independent of the underlying architecture of the embedded hardware. The project was announced by the Linux Foundation...

Linux

management in general. Linux distributions support shell scripts, awk, sed and make. Many programs also have an embedded programming language to support...

Linux kernel

many of which are called Linux. One such Linux kernel operating system is Android which is used in many mobile and embedded devices. Most of the kernel...

Embedded system

system. It is embedded as part of a complete device often including electrical or electronic hardware and mechanical parts. Because an embedded system typically...

Linux Foundation

The Linux Foundation (LF) is a non-profit organization established in 2000 to support Linux development and open-source software projects. The Linux Foundation...

Python (programming language)

supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. Guido van Rossum...

Delphi (software) (redirect from Delphi programming language)

is a general-purpose programming language and a software product that uses the Delphi dialect of the Object Pascal programming language and provides...

Gambas (redirect from Gambas programming language)

dialect of the BASIC programming language, and an integrated development environment that accompanies it. Designed to run on Linux and other Unix-like...

Coreboot (redirect from Linux BIOS)

Ryzen Embedded or Intel Atom processor on the car computer, and adopted coreboot as the bootloader.[citation needed] Coreboot typically loads a Linux kernel...

Scripting language (redirect from Script (computer programming))

language can be a general-purpose programming language or a domain-specific language for a given environment. When embedded in an application, it may be called...

Windows CE (redirect from Windows Embedded Edition)

known as Windows Embedded CE and Windows Embedded Compact, is a discontinued operating system developed by Microsoft for mobile and embedded devices. It was...

Field-programmability

An electronic device or embedded system is said to be field-programmable or in-place programmable if its firmware (stored in non-volatile memory, such...

LiveCode (redirect from Transcript (programming language))

cross-platform rapid application development runtime system inspired by HyperCard. It features the LiveCode Script (formerly MetaTalk) programming language...

Borland Kylix (redirect from Kylix programming tool)

low-level programming, such as the development of device drivers or kernel modules.[citation needed] Though it interacts poorly with many Linux window managers...

Caldera Smallfoot (category Embedded Linux distributions)

the names Smallfoot embedded UNIX and Smallfoot embedded Linux respectively. Smallfoot is also notable in that it was a key Linux product of The SCO Group...

Linux adoption

Linux adoption is the adoption of Linux-based computer operating systems (OSes) by households, nonprofit organizations, businesses, and governments. Android...

Tcl (redirect from Tcl (programming language))

functional, and procedural styles. It is commonly used embedded into C applications, for rapid prototyping, scripted applications, GUIs, and testing....

Pascal (programming language)

and procedural programming language, designed by Niklaus Wirth as a small, efficient language intended to encourage good programming practices using...

Android 16 (section Embedded photo picker)

Google expanded the "Linux Terminal" feature, which was initially introduced in Android 15 QPR2 beta, allowing users to run Linux applications within a...

Ring (programming language)

general-purpose programming language. It can be embedded in C/C++ projects, extended using C/C++ code or used as a standalone language. The supported programming paradigms...
