

English

Dictionary of the British English Spelling System

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

The Black Book of Speaking Fluent English: The Quickest Way to Improve Your Spoken English

In the world we are living in, English has become the common language that people from different countries and cultures can use to communicate with one another. There are many reasons why people would want to learn English, but for a lot of them; It is work-related. Most large companies around the world require their employees to speak English. In some cases, these companies are requiring their workers to only use English at the workplace. English has also been referred to as “the language of business”. A/AS Level English Language for AQA Student Book

How English has become a language of the people in India—one that enables the state but also empowers protests against it Against a groundswell of critiques of global English, Vernacular English argues that literary studies are yet to confront the true political import of the English language in the world today. A comparative study of three centuries of English literature and media in India, this original and provocative book tells the story of English in India as a tale not of imperial coercion, but of a people's language in a postcolonial democracy. Focusing on experiences of hearing, touching, remembering, speaking, and seeing English, Akshya Saxena delves into a previously unexplored body of texts from English and Hindi literature, law, film, visual art, and public protests. She reveals little-known debates and practices that have shaped the meanings of English in India and the Anglophone world, including the overlooked history of the legislation of English in India. She also calls attention to how low castes and minority ethnic groups have routinely used

this elite language to protest the Indian state. Challenging prevailing conceptions of English as a vernacular and global lingua franca, Vernacular English does nothing less than reimagine what a language is and the categories used to analyze it.

The Standard of Usage in English

Dennis Freeborn traces the development of the English language from Old English, through Middle and Early Middle English, to the establishment of standard English in the 18th century.

Vernacular English

In what other language, asks Lederer, do people drive on a parkway and park in a driveway, and your nose can run and your feet can smell? In **CRAZY ENGLISH**, Lederer frolics through the logic-boggling byways of our language, discovering the names for phobias you didn't know you could have, the longest words in our dictionaries, and the shortest sentence containing every letter in the alphabet. You'll take a bird's-eye view of our beastly language, feast on a banquet of mushrooming food metaphors, and meet the self-reflecting Doctor Rotcod, destined to speak only in palindromes.

From Old English to Standard English

A lively, up-to-date and compact introduction to semantics, accessible to those with no prior knowledge of linguistics.

Crazy English

Cambridge Global English (1-6) is a six-level Primary course following the Cambridge Primary English as a Second Language Curriculum Framework developed by Cambridge English Language Assessment. Activity Book 1 provides additional practice activities to consolidate language skills and content material introduced in Learner's Book 1. Nine units correspond with the topics, texts and language input of Learner's Book 1 with each lesson of the Learner's Book supported by two pages in the Activity Book. Learning is reinforced through activities clearly framed within the 'I can' objectives of the course, opportunities for personalisation and creative work and a higher level of challenge to support differentiation. Each unit in the Activity Book ends with a quiz, offering more in depth assessment for learners. CEFR Level: towards A1.

Meaning in English

Written in a detailed and fascinating manner, this book is ideal for general readers interested in the English language.

Secrets of Good English

This remarkable new dictionary represents the first attempt in some four centuries to record the state of development of English as used across the entire Caribbean region.

Dictionary of Caribbean English Usage

This revised second edition provides an introduction to the phonetics and phonology of English. It incorporates all central aspects of research in the phonology of English and involves the reader at every step, with over 80 exercises leading students to discover facts, to formulate general statements, and to apply concepts. Discusses the nature of speech and phonetic description, the principles of phonological analysis, the consonants and vowels of English and their possible sequences. Provides extensive treatment of rhythm, stress, and intonation and the role of these prosodic elements in discourse. Includes more than 80 exercises with feedback and glossary of technical terms. Incorporates developments in phonology since the first edition appeared.

Teaching Business English

These resources are aimed at first language English learners, encouraging them to actively explore, use and apply their core listening, speaking, reading and writing skills through individual, pair and group work. Engaging activities provide opportunities for differentiated learning and promote creativity and critical thinking. Lively international fiction, non-fiction and poetry texts are the basis for teaching reading and writing skills, including comprehension, grammar, punctuation, phonics, spelling and handwriting. Learners also practise their spoken English to build vocabulary and confidence through class and group discussion. Each stage contains four core components (learner's book, activity book, Digital Classroom and digital teacher's resource) which are fully integrated and offer a complete solution to teaching Cambridge Primary English. Also available are Phonics Workbooks A and B, providing an essential foundation in phonics skills.

Teaching English 3-11

The CD-ROM includes hundreds of vocabulary exercises which cover the language taught in the text. It covers 60 areas of key vocabulary, contains audio recordings for extra listening practice, a test function allowing the creation of your own tests, a progress check and a built-in dictionary.

The Pronunciation of English

MAT000000 [BISAC]; MAT008000 [BISAC]

Each unit in the Activity Book ends with revision and opportunity for self-assessment. CEFR Level: A2 towards B1.

A Universal Critical and Pronouncing Dictionary of the English Language: Including Scientific Terms

A folk-taxonomy is a semantic field that represents the particular way in which a language imposes structure and order upon the myriad impressions of human experience and perception. Thus, for example, the experience of color in modern English is structured around an inventory of twelve \"basic\" color terms; but languages vary in the number of basic color terms used, from thirteen or fourteen terms to as few as two or three. Anthropological linguists have been interested in the comparative study of folk-taxonomies across contemporary languages, and in their studies they have sometimes proposed evolutionary models for the development and elaboration of these taxonomies. The evolutionary models have implications for historical linguistics, but there have been very few studies of the historical development of a folk-taxonomy within a language or within a language family. Folk-Taxonomies in Early English undertakes this task for English, and to some extent for the Germanic and Indo-European language families. The semantic fields studied are basic color terms, seasons of the year, geometric shapes, the five senses, the folk-psychology of mind and soul, and basic plant and animal life-forms. Anderson's emphasis is on folk-taxonomies in Old and Middle English, and also on the implications of semantic analysis for our reading of early English literary texts.

Everyday Vocabulary More Than 6100 Words

Millions of adults in the U.S. report that they speak limited English, and English language ability appears linked to multiple dimensions of adult life, such as civic participation and workforce participation and mobility. This report examined: (1) the trends in the need for and enrollment in federally funded adult English language programs; (2) the nature of federal support for adult English language learning, (3) ways in which states and local public providers have supported English language programs for adults; and (4) federal agencies' plans for research to identify effective approaches to adult English language learning. Cambridge Global English Stage 6 Activity Book

This wide-ranging historical survey provides an indispensable resource for those interested in exploring, teaching, or studying English spirituality. In two stand-alone volumes, it traces history from Roman times until the year 2000. The main Christian traditions and a vast range of writers and spiritual themes, from Anglo-Saxon poems to late-modern feminist spirituality, are included. These volumes present the astonishing richness and variety of responses made by English Christians to the call of the divine during the past two thousand years.

The Comic English Grammar

In line with the Key State 3 curriculum changes, these books provide full coverage of the new programme of study. Every topic within each book comprises a clear overview of all the key concepts and ideas, followed by pages of practice material to reinforce learning, test understanding and help develop skills.

English Composition

For those seeking a career using English, this title describes a number of employment areas and how to get into them. In addition, there are useful addresses for each employment field and a further reading section.

Folk-taxonomies in Early English

Grounded in linguistic research and argumentation, THE ENGLISH LANGUAGE: FROM SOUND TO SE01 General/tradeE offers readers who have little or no analytic understanding of English a thorough treatment of the various components of the language. Its goal is to help readers become independent language analysts capable of critically evaluating claims about the language and the people who use it.

English Language Learning

As \"the English Athens,\" Oxford has long been seen as central to England's intellectual life. For over six centuries the city has been lauded, slighted, and cited in the pages of English literature. While it has been hailed as the embodiment of excellence, beauty, and truth on the one hand, it has also been attacked for its elitism, insularity, and traditionalism on the other. Oxford in English Literature provides for the first time an overview of these literary representations, ranging from Chaucer's account of medieval students to modern-day detective stories set in the city. The book begins with the early university, possibly founded by an eighth-century princess named Frideswide. The volume moves on through the Middle Ages with Chaucer's clerks and Foxe's martyrs. Oxford in English Literature touches on more recent centuries with Lewis Carroll and Alice in Wonderland, Matthew Arnold, Max Beerbohm and Evelyn Waugh, and the \"Infamous St. Oscar.\" Following the rise of the colleges, the literature becomes characterized by a sense of insulation, for the closed collegiate structure led to elitism and eccentricity. The notion of the university as a paradise of youth, beauty, and intelligence led to the so-called Oxford myth and the backlash against it after World War II. The underlying argument of John Dougill's work is that the defining symbol of Oxford is not so much the dreaming spire as the college wall. In Oxford literature the college is depicted as a world of its own--secluded, conservative, and eccentric, driven by its own rituals. Idealized, it becomes a cloistered utopia, an Athenian city-state, a fantasy wonderland, or an Arcadian idyll. Exclusivity led to resentment from those on the outside, as is evident in Thomas Hardy's *Jude the Obscure*. With the advent of democratic and egalitarian values in the twentieth century, the privilege and elitism of the university has come under increasing attack,

as has the whole notion of the \"English Athens.\" Oxford in English Literature is aimed at the general reader interested in the literature and history of a very unusual town. Its familiar subject and the inclusion of numerous rare and specially commissioned illustrations and photographs make this a compelling book. John Dougill is Associate Professor of English Literature, Ryukoku University, Kyoto, Japan. He is an Oxford graduate and author of The Writers of English Literature.

The Timing of Voicing in British English Obstruents

What you say is important—but so is how you say it. If you find yourself using the same words over and over again, making embarrassing mistakes in grammar, or misspelling and mispronouncing words of average difficulty, you may be hurting your chances for success in school or on the job—without even knowing it! If you're not satisfied with what your English says about you, test your problem areas with this popular, remarkably effective handbook. Each of the thirty short chapters zeroes in on a different aspect of grammar, usage, spelling, and pronunciation, with challenging and often amusing exercises to help you monitor your daily progress. Your vital communication skills can improve dramatically, in just fifteen minutes a day, with *Thirty Days to Better English*.

English Spirituality

The Oxford Dictionary of English offers authoritative and in-depth coverage of over 350,000 words, phrases, and meanings. The foremost single-volume authority on the English language.

Year 7 English

Essays on the largest body of prose work in Old English, by Stafford, Gatch, Smetana, Goddin, HuppéLetson, Nichols, Tandy, Jurovics, Dalbey, Szarmach.
