"Life itself is in these pages: in this candid, poetic style there is storytelling of real quality" - LEILA SLIMANI, author of *Lullaby* A powerful and personal account of the devastating consequences of childhood rape: a valuable voice for the #MeToo conversation. Adélaïde Bon grew up in a wealthy neighborhood in Paris, a privileged child with a loving family, lots of friends and seemingly limitless opportunity lying ahead of her. But one sunny afternoon, when she was nine years old, a strange man followed her home and raped her in the stairwell of her building. She told her parents, they took her to the police, the fact of the crime was registered ... and then a veil was quietly drawn over that part of her childhood, and life was supposed to go on. Except, of course, it didn't. Throughout her adolescence and young adulthood, Adélaïde struggles with the aftermath of the horror of that afternoon in 1990. The lingering trauma pervades all aspects of her life: family education, friendships, relationships, even her ability to eat normally. And then one day, many years

later, when she is married and has a small son, she receives a call from the police saying that they think they have finally caught the man who raped her, a man who has hidden in plain sight for decades, with many other victims ready to testify against him. The subsequent court case reveals Giovanni Costa, the stuff of nightmares and bogeymen, finally vanquished by the weight of dozens and dozens of emotional and horrifying testimonies from all the women whose lives and childhoods he stole.

The World Through Picture Books

The Animal That Therefore I Am is the long-awaited translation of the complete text of Jacques Derrida's ten-hour address to the 1997 C  risy conference entitled \"The Autobiographical Animal,\" the third of four such colloquia on his work. The book was assembled posthumously on the basis of two published sections, one written and recorded session, and one informal recorded session. The book is at once an affectionate look back over the multiple roles played by animals in Derrida's work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction--dating from Descartes--between man as thinking animal and every other living species. That starts with the very fact of the line of separation drawn between the human and the millions of other species that are reduced to a single \"the animal.\" Derrida finds that distinction, or versions of it, surfacing in thinkers as far apart as Descartes, Kant, Heidegger, Lacan, and Levinas, and he dedicates extended analyses to the question in the work of each of them. The book's autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness, staged in terms of Derrida's experience when his cat follows him into the bathroom in the morning. In a classic deconstructive reversal, Derrida asks what this animal sees and thinks when it sees this naked man. Yet the experiences of nakedness and shame also lead all the way back into the mythologies of \"man's dominion over the beasts\" and trace a history of how man has systematically displaced onto the animal his own failings or b  tises. The Animal That Therefore I Am is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the questions and definitions of \"life\" to which he returned in much of his later work.

'People love animals—a stroke here, a pat there, a quick nuzzle in that gorgeous fur ... the amount of cuddling they get can make you jealous. In Holland, dogs are caressed more than people. Not as thoroughly, though: that one spot, somewhere down below, generally remains untouched ... ' Generally, but certainly not always. Kinsey's research showed that 8 per cent of men and 3.5 per cent of women had had sex with an animal, and that in rural areas the figure for men was closer to 50 per cent. Yet bestiality is almost universally condemned. While our love for animals is extolled as noble and 'natural', all erotic elements in the relationship between humans and other species are vilified and proscribed, thus consigning them to the realm of exotic pornography or crude innuendo. Even so, something remains of physical love for animals. In different forms, sublimated or occasionally celebrated, its traces can be found throughout art and popular culture: in Leda and the Swan, Beauty and the Beast or the Lorelei; in a lubricious menagerie of satyrs and centaurs, wolfmen and vampires, all the way through to King Kong and Fritz the Cat, pony clubs and amorous dolphins, or even advertisements for luxury catfoods. Dearest Pet uncovers and explores those traces, illuminating the ambivalence of human attitudes to cross-species sexuality. Its author, the biologist and broadcaster Midas Dekkers, has analysed bestiality in all its aspects—physical, psychological and legal—and examined its representations in religion and mythology, art and literature, pornography and advertising. Beautifully—and sometimes bizarrely—illustrated, his book is neither drily academic nor pruriently trivial, but erudite, witty and challenging: the first history of the last taboo. A book for animal lovers, and for those who are just their good friends.

In this major study Rhiannon Goldthorpe takes up the challenge of Sartre's diversity in an original and provocative way. Her detailed and comprehensive exploration of the relationship between the theoretical and literary works pays due attention to their characteristic complexity. The discussion of *La Nausée*, *Les Mouches*, *Huis clos*, *Les Mains sales* and *Les Séquestrés d'Altona*, for example, does not present these literary texts as mere 'illustrations' of Sartre's theories of consciousness, imagination and emotion, but as subtle philosophical and linguistic investigations in their own right. In addition, by reference to recently published fragments from Sartre's earlier work, Goldthorpe calls into question existing views of Sartre's intellectual development and provides a new history of the crucial Sartrean concept of 'commitment'.
