Books representing other cultures are included to help celebrate diversity as well as cultural connection. Genre chapters include poetry, fantasy, and realistic and historical fiction. A chapter on informational books demonstrates how young children can be introduced to, and learn to enjoy, nonfiction.

Sharing the Journey

Life isn't easy when you don't fit the mould. Maisy Fowler knows all about not fitting in – it's happened all her life. She can't hold down a job, she feels inadequate socialising, and she's constantly saying and doing things that come across as rude and selfish. So when, after being fired again, someone defecates on the roof of her ex-boss's car, she immediately gets the blame. Maisy cannot believe people would think so low of her and in a desperate need to change her image, she applies for a volunteer position in the Scottish Highlands, helping people in pain. Maisy envisions doing yoga, meditating and really being at one with nature. What she doesn't imagine is, living in a cowshed in the middle of a field, where she's pretty certain a cross between a frog and a lion is outside her unlocked door at night, waiting to eat her. Can sexy farmer Davie Marshall help her through the cold, hard nights? Two minor details though; he hates everything she stands for, and she

loves everything he is not.

The Publishers Weekly

Robert Smith's first book entitled *My Bunny Rabbit Adventures* features his father's repertoire of 1960s bedtime stories about the bunnies who lived in the woods next door. One of the bunnies from those original stories called Hector is featured in this subsequent book, which is a novel about Hector's life and times from the age of two when he first met Robert, the storyteller, to when his first child reaches this impressionable age. It therefore covers Hector's circle of life. You will discover how Hector grew up, what happened to him,

what he became, how he coped with the good and bad things that came his way, what he learned from his experiences and from those of others, and finally, how he matured into a grown-up rabbit with a family of his own. The reader will learn about, and gain a better understanding of both their and other peoples' feelings, challenges, and fears and how to deal with them and how to respect and treat others. The novel includes some interesting true stories and facts as part of the story line, which you may find interesting and useful and, hopefully, just utterly amazing too! This book is therefore an ideal first novel for children.

Standing Fast

As seen on Tucker Carlson Tonight! USA Today and Wall Street Journal Bestseller! The inside story of the laptop that exposed the president's dirtiest secret. When a drug-addled Hunter Biden abandoned his waterlogged computer at a Mac repair shop in Delaware in the spring of 2019, just six days before his father announced his candidacy for the United States presidency, it became the ticking time bomb in the shadows of Joe Biden's campaign. The dirty secrets contained in Hunter's laptop almost derailed his father's presidential campaign and ignited one of the greatest media coverups in American history. This is the unvarnished story of what's really inside the laptop and what China knows about the Bidens, by the New York Post journalist who brought it into the open. It exposes the coordinated censorship operation by Big Tech, the media establishment, and former intelligence operatives to stifle the New York Post's coverage, in a chilling exercise of raw political power three weeks before the 2020 election. A treasure trove of corporate documents, emails, text messages, photographs, and voice recordings, spanning a decade, the laptop provided the first evidence that President Joe Biden was involved in his son's ventures in China, Ukraine, and beyond, despite his repeated denials. This intimate insight into Hunter's dissolute lifestyle shows he was incapable of holding down a job, let alone being paid tens of millions of dollars in high-powered international business deals by foreign interests, unless he had something else of value to sell—which of course he did. He was the son of the vice president who would go on to become the leader of the free world.
