A masterpiece of boss design - A masterpiece of boss design 3 minutes, 5 seconds - Playing through The Old Hunters for the first time was a profound experience, I already loved **Bloodborne**, and the DLC really put it ...

The Old Hunters DLC for Bloodborne introduced Ludwig as a boss, first appearing in a wretched bestial state.

One of his eyes remains somewhat clear, but the other is cloudy, blinded by the scourge of beasts.

His transformed state resembles a horse, but some semblance of his human features remain.

And the tattered vestments of a church hunter are still draped over his shoulders.

Although unsettling, Ludwig's humanity persevering even in this monstrous form distinguishes him from other beasts.

A significant number of which are found in his multiple different legs, two of which still have semi-human digits.

The other Ludwig can be found here, below the map acting as the total healthbar of the fight and the 2nd phase.

cinematic moments From Software has ever produced.

The cutscene hides the transition, and is also one of the most

This is the moment where Ludwig's design truly shines, the reason for his human features becoming apparent.

From usually deals largely in the decline of majesty, and Bloodborne especially is focused on the fragility of humanity.

In a triumphant display, Ludwig the Accursed, the most horrific beast of all, claws his way back to his former glory.

Accompanied by one of Bloodborne's most powerful scores, we see strength of resolve overcoming unimaginable forces.

the groundwork, establishing Ludwig's importance.

This restoration is a culmination of Bloodborne's themes, and makes Ludwig all the more technically impressive.

Despite taking on a completely different pose and demeanor, this Ludwig uses the same model skeleton as the original.

It seems like it's always the DLC bosses, doesn't it?
