The object of the game is to have the most points at the end of the game.

You receive points three ways: Every time you place trains on the board and connect two cities, by completing destination cards, and by having the longest continuous train.

Setup: layout the board and each player chooses a color.

On your turn you perform 1 of three actions: Draw 2 train cards, Claim a route, or Draw destination tickets.

If you draw train cards you may draw from the face up cards or the top of the deck, or one of each.

To claim a route you must play a colored set of train cards from your hand equal to the color and quantity of the route you wish to claim.

If there are two paths next to each other, known as a double route, a single player may only claim one side.

Destination cards give or take away points at the end of the game as indicated by the number on the card.
