

Antigone

Antigone

Antigone is a Greek tragedy written by Sophocles in approximately 441 BC. The Greek tragedy is the third of the three Theban dramas & plays. In this ancient & classical play, two brothers leading opposite sides in Thebes' civil war die fighting each other for the throne. Creon, the new ruler of Thebes, has decided that Eteocles will be honored and Polyneices will be in public shame. The rebel brother's body will not be sanctified by holy rites, and will lie unburied on the battlefield. Antigone and Ismene are the sisters of the dead Polyneices and Eteocles. Antigone wants to bury Polyneices' body, in defiance of Creon's edict. Ismene refuses to help her, fearing execution, but she is unable to stop Antigone from going to bury her brother herself. Sophocles' Antigone is considered a literature & fiction classic in the Greek dramas & plays genre and is often required textbook reading in the following disciplines; English, literature & fiction, Ancient & Medieval Literature, ancient & classical, dramas & plays, Greek tragedy, and world literature.

Antigone

Sophocles' Antigone comes alive in this new translation that will be useful for academic study and stage production. Diane Rayor's accurate yet accessible translation reflects the play's inherent theatricality. She provides an analytical introduction and comprehensive notes, and the edition includes an essay by director Karen Libman. Antigone begins after Oedipus and Jocasta's sons have killed each other in battle over the kingship. The new king, Kreon, decrees that the brother who attacked with a foreign army remain unburied and promises death to anyone who defies him. The play centers on Antigone's refusal to obey Kreon's law and Kreon's refusal to allow her brother's burial. Each acts on principle colored by gender, personality and family history. Antigone poses a conflict between passionate characters whose extreme stances leave no room for compromise. The highly charged struggle between the individual and the state has powerful implications for ethical and political situations today.

Sophocles' Antigone

To make this quintessential Greek drama more accessible to the modern reader, this Prestwick House Literary Touchstone Edition[®] includes a glossary of difficult terms, a list of vocabulary words, and convenient sidebar notes. By providing these, it is our intention that readers will more fully enjoy the beauty, wisdom, and intent of the play. The curse placed on Oedipus lingers and haunts a younger generation in this new and brilliant translation of Sophocles' classic drama. The daughter of Oedipus and Jocasta, Antigone is an unconventional heroine who pits her beliefs against the King of Thebes in a bloody test of wills that leaves few unharmed. Emotions fly as she challenges the king for the right to bury her own brother. Determined but doomed, Antigone shows her inner strength throughout the play. Antigone raises issues of law and morality that are just as relevant today as they were more than two thousand years ago. Whether this is your first reading or your twentieth, Antigone will move you as few pieces of literature can.

Antigone

Antigone is Sophocles' masterpiece, a seminal influence on a wide range of theatrical, literary, and intellectual traditions. This volume sets the play in the contexts of its mythical background, its performance, its relation to contemporary culture and thought, and its rich reception history. But its main aim is to encourage first-hand engagement with the complexities of interpretation that make the play so enduringly thought-provoking and rewarding. Though Creon's actions prove disastrous and Antigone's are vindicated,

the *Antigone* is no simple study in the excesses of tyranny or the virtues of heroic resistance, but a more nuanced exploration of conflicting views of right and wrong and of the conditions that constrain human beings' efforts to control their destinies and secure their happiness. The book's chapters consider the extent of the original audience's acquaintance with earlier versions of the legends of *Antigone's* family, the structure of the plot as it unfolds in theatrical performance, the presentation of the characters and the motivations that drive them, the major political, social, and ethical themes that the play raises, and the resonance of those themes in the ways that the play has been interpreted, adapted, performed, and appropriated in later periods.

Sophocles: *Antigone*

Love and loyalty, hatred and revenge, fear, deprivation, and political ambition: these are the motives which thrust the characters portrayed in these three Sophoclean masterpieces on to their collision course with catastrophe. Recognized in his own day as perhaps the greatest of the Greek tragedians, Sophocles' reputation has remained undimmed for two and a half thousand years. His greatest innovation in the tragic medium was his development of a central tragic figure, faced with a test of will and character, risking obloquy and death rather than compromise his or her principles: it is striking that *Antigone* and *Electra* both have a woman as their intransigent 'hero'. *Antigone* dies rather neglect her duty to her family, *Oedipus'* determination to save his city results in the horrific discovery that he has committed both incest and parricide, and *Electra's* unrelenting anger at her mother and her lover keeps her in servitude and despair. These vivid translations combine elegance and modernity, and are remarkable for their lucidity and accuracy. Their sonorous diction, economy, and sensitivity to the varied metres and modes of the original musical delivery make them equally suitable for reading or theatrical performance. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Antigone; Oedipus the King; Electra

Now there's a girl who understands things, the crow thought. When two brothers, Eteocles and Polynices, die in a vicious battle over the crown of Thebes, the new ruler, King Creon, decides that Eteocles will be buried as a hero, while Polynices will be left outside as a feast for the dogs and crows. But the young *Antigone*, daughter of *Oedipus*, will defy the cruel tyrant and attempt to give her brother the burial he deserves. This simple act of love and bravery will set in motion a terrible course of events that will reverberate across the entire kingdom... Dave Eggers says, of the series: \"I couldn't be prouder to be a part of it. Ever since Alessandro conceived this idea I thought it was brilliant. The editions that they've compiled have been lushly illustrated and elegantly designed.\"

The Story of *Antigone*

A witty, inspiring reckoning with the ancient Greek and Roman myths and their legacy, from what they can illuminate about #MeToo to the radical imagery of Beyoncé. The picture of classical antiquity most of us learned in school is framed in certain ways -- glossing over misogyny while omitting the seeds of feminist resistance. Many of today's harmful practices, like school dress codes, exploitation of the environment, and rape culture, have their roots in the ancient world. But in *Antigone Rising*, classicist Helen Morales reminds us that the myths have subversive power because they are told -- and read -- in different ways. Through these stories, whether it's *Antigone's* courageous stand against tyranny or the indestructible *Caeneus*, who inspires trans and gender queer people today, Morales uncovers hidden truths about solidarity, empowerment, and catharsis. *Antigone Rising* offers a fresh understanding of the stories we take for granted, showing how we can reclaim them to challenge the status quo, spark resistance, and rail against unjust regimes.

Antigone Rising

Sophocles' *Antigone* is a touchstone in democratic, feminist and legal theory, and possibly the most commented upon play in the history of philosophy and political theory. Bonnie Honig's rereading of it therefore involves intervening in a host of literatures and unsettling many of their governing assumptions. Exploring the power of *Antigone* in a variety of political, cultural, and theoretical settings, Honig identifies the 'Antigone-effect' - which moves those who enlist *Antigone* for their politics from activism into lamentation. She argues that *Antigone*'s own lamentations can be seen not just as signs of dissidence but rather as markers of a rival world view with its own sovereignty and vitality. Honig argues that the play does not offer simply a model for resistance politics or 'equal dignity in death', but a more positive politics of counter-sovereignty and solidarity which emphasizes equality in life.

Antigone, Interrupted

The celebrated author of *Gender Trouble* here redefines *Antigone*'s legacy, recovering her revolutionary significance and liberating it for a progressive feminism and sexual politics. Butler's new interpretation does nothing less than reconceptualize the incest taboo in relation to kinship—and open up the concept of kinship to cultural change. *Antigone*, the renowned insurgent from Sophocles's *Oedipus*, has long been a feminist icon of defiance. But what has remained unclear is whether she escapes from the forms of power that she opposes. *Antigone* proves to be a more ambivalent figure for feminism than has been acknowledged, since the form of defiance she exemplifies also leads to her death. Butler argues that *Antigone* represents a form of feminist and sexual agency that is fraught with risk. Moreover, *Antigone* shows how the constraints of normative kinship unfairly decide what will and will not be a livable life. Butler explores the meaning of *Antigone*, wondering what forms of kinship might have allowed her to live. Along the way, she considers the works of such philosophers as Hegel, Lacan, and Irigaray. How, she asks, would psychoanalysis have been different if it had taken *Antigone*—the "post-oedipal" subject—rather than *Oedipus* as its point of departure? If the incest taboo is reconceived so that it does not mandate heterosexuality as its solution, what forms of sexual alliance and new kinship might be acknowledged as a result? The book relates the courageous deeds of *Antigone* to the claims made by those whose relations are still not honored as those of proper kinship, showing how a culture of normative heterosexuality obstructs our capacity to see what sexual freedom and political agency could be.

Antigone's Claim

This is an original and dramatic retelling of Sophocles famous Greek tragedy. Inspired by the pottery of the period, the illustrations recreate the drama of Greek theatre.

Antigone

King Oedipus/Oedipus at Colonus/Antigone Three towering works of Greek tragedy depicting the inexorable downfall of a doomed royal dynasty The legends surrounding the house of Thebes inspired Sophocles to create this powerful trilogy about humanity's struggle against fate. King Oedipus is the devastating portrayal of a ruler who brings pestilence to Thebes for crimes he does not realize he has committed and then inflicts a brutal punishment upon himself. *Oedipus at Colonus* provides a fitting conclusion to the life of the aged and blinded king, while *Antigone* depicts the fall of the next generation, through the conflict between a young woman ruled by her conscience and a king too confident of his own authority. Translated with an Introduction by E. F. WATLING

The Theban Plays

Sophocles stands as one of the greatest dramatists of all time, and one of the most influential on artists and thinkers over the centuries. His plays are deeply disturbing and unpredictable, unrelenting and open-ended,

refusing to present firm answers to the questions of human existence, or to provide a redemptive justification of the ways of gods to men-or women. These three tragedies portray the extremes of human suffering and emotion, turning the heroic myths into supreme works of poetry and dramatic action. Antigone's obsession with the dead, Creon's crushing inflexibility, Deianeira's jealous desperation, the injustice of the gods witnessed by Hyllus, Electra's obsessive vindictiveness, the threatening of insoluble dynastic contamination... Such are the pains and distortions and instabilities of Sophoclean tragedy. And yet they do not deteriorate into cacophony or disgust or incoherence or silence: they face the music, and through that the suffering is itself turned into the coherence of music and poetry. These original and distinctive verse translations convey the vitality of Sophocles' poetry and the vigour of the plays in performance, doing justice to both the sound of the poetry and the theatricality of the tragedies. Each play is accompanied by an introduction and substantial notes on topographical and mythical references and interpretation. Antigone is an icon of Greek tragedy, and Antigone is herself a tragic icon in world theatre. Sophocles' best-known and most performed play tells a story of defiance and the impossible demands of loyalty. Deianeira, also known as Women of Trachis or Trachinaian Women, wrestles with the anxieties of matrimony and motherhood, following the doomed attempt by the wife of the hero Heracles to assert her dignity. Electra portrays a vengeful daughter's journey through unflagging grief and murderous fury, ending without resolution in uncertainty and suspense.

Sophocles: Antigone and other Tragedies

This book investigates early modern women's interventions in politics and the public sphere during times of civil war in England and France. Taking this transcultural and comparative perspective, and the period designation "early modern" expansively, *Antigone's Example* identifies a canon of women's civil-war writings; it elucidates their historical specificity as well as the transhistorical context of civil war, a context which, it argues, enabled women's participation in political thought.

Antigone

This book is a detailed study of five plays of Sophocles that examines a key ethical principle.

Antigone

Sophocles' play *Antigone* is a starting point for understanding the problems of human societies, families, and individuals caught up in the aftermath of mass violence. Through comparison of Germany, Japan, Spain, Yugoslavia and Turkey, we begin to appreciate the different pathways that societies have taken when confronting their violent histories.

Antigone's Example

Antigone, the stuffie tiger, first found his ability to be magical when he discovered he could transform himself into a real tiger. He waited for his owner, Tam, to be away for the weekend so he could investigate the answer to a question he's always had. Are the tigers at the zoo in jail? Much magic and smiles result from his quest to answer his question as he visits the Bronx Zoo to investigate!

Antigone

In *Antigone's Sisters*, Lenart Škof explores the power of love in our world—stronger than violence and, ultimately, stronger even than death. Focusing on Antigone, Savitri, and Mary, the book offers an investigation into various goddesses and feminine figures from a variety of philosophical, mythological, theological, and literary contexts. The book also elaborates on the feminine aspects of selected concepts from modern philosophical texts, such as the Matrix in Jakob Böhme, Clara in F. W. J. Schelling, beyng in Martin Heidegger, chóra in Jacques Derrida, and breath in Luce Irigaray's thought. Drawing on Bracha M. Ettinger's

concept of matrixiality, Škof proposes a new matrixial theory of philosophy, cosmology, and theology of love. Despite its many usages and appropriations, love remains a neglected topic within Western philosophy. With its new interpretation of Antigone and related readings of Irigaray, Kristeva, and Ettinger, *Antigone's Sisters* aims to identify some of the reasons for this forgetting of love, and to show that it is only love that can bring peace to our ethically disrupted world.

Helping Friends and Harming Enemies

Antigone's Daughters presents various readings of the classical myth of Antigone as interpreted through modern feminist and psychoanalytic literary theories. Topics such as femininity, education, and establishing selfhood amidst the restrictions of the patriarchal society presented by Sophocles provide the foundation for the modern novel. This study serves as a model for the comparative interpretation of literary works of the nineteenth and twentieth centuries including the writings of George Sand (Indiana), Karolina Pavlova (A Double Life), Nikolai Chernyshevsky (What Is to Be Done?), Emile Zola (L'Assommoir and Nana), María Luisa Bombal (La amortajada) and Isabel Allende (The House of the Spirits). Each chapter isolates an aspect of Antigone's struggle within both the public and domestic spheres as she negotiates her independence and asserts her voice. A valuable tool for the study of modern literature, the universality of Antigone presented in this study prompts the investigation of many classical motifs while providing a thorough study of various national literatures within their own contemporary contexts.

Antigone's Ghosts

Antigone's Daughters? provides the first detailed discussion in English of six well-known Portuguese women writers, working across a wide range of genres: Florbela Espanca (1894-1930), Irene Lisboa (1892-1958), Agustina Bessa Luís, (1923-), Natália Correia (1923-93), Hélia Correia (1949 -) and Lídia Jorge (1946 -). Together they cover the span of the 20th century and afford historical insights into the complex gender politics of achieving institutional acceptance and validation in the Portuguese national canon at different points in the 20th century. Although a patrilinear evolutionary model visibly structures national literary history in Portugal to the present day, women writers and critics have not generally sought to replace this with a matrilinear feminist counter-history. The unifying metaphor that the authors adopt here for the purpose of discussing Portuguese women's ambivalent response to female genealogy is the classical figure of Antigone, who paradoxically sacrifices her own genealogical continuity in the name of defending family and kinship, while resisting the patriarchal pragmatics of state-building. Should women writers, faced with the absence of a female tradition, posit a woman-centred place outside the jurisdiction of male genealogy, however strategically essentialist that place may be, or should they primarily eschew fixed sexual identity to act as unnameable saboteurs, undoing the law of patriarchal tradition from within?

Antigone's Sisters

After her father's death in exile, Antigone returns to Thebes determined to set the record straight and restore her father's reputation. Tracing the histories of Oedipus and his parents Laius and Jocasta, as well as the peripheral characters of the plays who had a central role in him fulfilling his destiny, Antigone's 'biography' causes us to re-evaluate the extent to which any of us can be entirely blamed for the actions by which we will be defined. Ending with Antigone making a conscious choice to reclaim her brother's corpse from the battlefield, an act of defiance which will guarantee her own death, the book ultimately meditates on the illusion of free will, and the warning that context is everything, I, ANTIGONE will be a major contribution to the reclaimed classics.

Antigone's Daughters

This book argues that while current scholarship on Antigone tends to celebrate work that takes Antigone out of her classical roots and puts her into contemporary frameworks, we do not need to place her in a new context and setting to appreciate what her insights offer. We can simply listen to her whole story and learn from what she learns from her father, Oedipus. While other works boldly claim to be progressively moving beyond the scope of tragic themes of mortality, Antigone Uninterrupted demonstrates that reading the Theban Plays in the order of Antigone's biography (so to speak) expands our understanding of what Antigone could tell us about contemporary issues. This demonstration involves Hegel's discussion of Antigone in his Phenomenology of Spirit, responses to Hegel on this point, and the author's assessment that Antigone makes arguments in Sophocles' Oedipus at Colonus that ought to be illuminated in contemporary scholarship. This book examines the three Theban Plays (Oedipus Rex, Oedipus at Colonus, and Antigone) in the order by which Antigone's story is a continuous development of character and age, a unique approach for reasons the author identifies, but one she argues would be beneficial to future scholarship. Providing illuminating readings of both Sophocles' tragedies and some key modern interpretations of the plays, this book holds broad appeal for those interested in subjects such as political science, gender theory, queer theory, literary criticism, theology, and sociology, to name a few.

Plays and Fragments: Antigone. 2nd ed. 1891

In this groundbreaking book, Tina Chanter challenges the philosophical and psychoanalytic reception of Sophocles' Antigone, which has largely ignored the issue of slavery. Drawing on textual and contextual evidence, including historical sources, she argues that slavery is a structuring theme of the Oedipal cycle, but one that has been written out of the record. Chanter focuses in particular on two appropriations of Antigone: The Island, set in apartheid South Africa, and Tègònñi, set in nineteenth-century Nigeria. Both plays are inspired by the figure of Antigone, and yet they rework her significance in important ways that require us to return to Sophocles' "original" play and attend to some of the motifs that have been marginalized. Chanter explores the complex set of relations that define citizens as opposed to noncitizens, free men versus slaves, men versus women, and Greeks versus barbarians. Whose Antigone? moves beyond the narrow confines critics have inherited from German idealism to reinvigorate debates over the meaning and significance of Antigone, situating it within a wider argument that establishes the salience of slavery as a structuring theme.

Antigone's Daughters?

This book discusses the 2450 year-long journey of the evolution of human rights, beginning from their earliest manifestation through Sophocles' tragedy Antigone (442 BCE). It then moves on to look at the relationship between human rights and the likes of Cicero and Jesus, Erasmus and the intellectuals of the Enlightenment, before considering the very roots of the idea of Europe, which goes back to the liberal and federalist thought of the late eighteenth and nineteenth centuries. The book concludes with the Charter of the EU Fundamental Rights becoming legally binding for Member States in Lisbon in 2009. While inquiring into the origins of European shared values, it assesses their compatibility with a non-European culture and

religion such as Islam.

Sophocles: The Antigone. 2d. ed. 1891

In this book, Peter Ahrensdorf examines Sophocles' powerful analysis of a central question of political philosophy and a perennial question of political life: should citizens and leaders govern political society by the light of unaided human reason or religious faith? Through an examination of Sophocles' timeless masterpieces - Oedipus the Tyrant, Oedipus at Colonus and Antigone - Ahrensdorf offers a sustained challenge to the prevailing view, championed by Nietzsche in his attack on Socratic rationalism, that Sophocles is an opponent of rationalism. Ahrensdorf argues that Sophocles is a genuinely philosophical thinker and a rationalist, albeit one who advocates a cautious political rationalism. Ahrensdorf concludes with an incisive analysis of Nietzsche, Socrates and Aristotle on tragedy and philosophy. He argues, against Nietzsche, that the rationalism of Socrates and Aristotle incorporates a profound awareness of the tragic dimension of human existence and therefore resembles in fundamental ways the somber and humane rationalism of Sophocles.

Sophocles: The Antigone. 3rd ed. 1900

Feminist Readings of Antigone collects the most interesting and provocative feminist work on the figure of Antigone, in particular looking at how she can figure into contemporary debates on the role of women in society. Contributors focus on female subjectivity and sexuality, feminist ethics and politics, questions of race and gender, psychoanalytic theory, kinship, embodiment, and tensions between the private and the public. This collection seeks to explore and spark debate about why Antigone has become such an important figure for feminist thinkers of our time, what we can learn from her, whether a feminist politics turning to this ancient heroine can be progressive or is bound to idealize the past, and why Antigone keeps entering the stage in times of political crisis and struggle in all corners of the world. Fanny Söderbäck has gathered classic work in this field alongside newly written pieces by some of the most important voices in contemporary feminist philosophy. The volume includes essays by Judith Butler, Adriana Cavarero, Tina Chanter, Luce Irigaray, and Julia Kristeva.

The Subject of Sophocles' Antigone

According to Greek legend, Antigone, the daughter of Oedipus, secretly buried her brother in defiance of the order of Creon, king of Thebes. Sentenced to death by Creon, she forestalled him by committing suicide. The theme of the conflict between Antigone and Creon--between the state and the individual, between man and woman, between young and old--has captured the Western imagination for more than 2000 years. George Steiner here examines the far-reaching legacy of this great classical myth. He considers its treatment in Western art, literature, and thought--in drama, poetry, prose, philosophic discourse, political tracts, opera, ballet, film, and even the plastic arts. A study in poetics and in the philosophy of reading, Antigones leads us to look again at the influence the Greek myths exercise on twentieth-century culture. \

"A remarkable feat of intellectual agility."--Washington Post Book World \

"[An] intellectually demanding but rewarding book. . . consistently stimulating and sometimes disturbing."--The New Republic \

An. . . account of the various treatments of the Antigone theme in European languages. . . Penetrating and novel."--The New York Times Book Review \

"A tradition of intelligence and style lives in this prolific man."--Los Angeles Times \

"Antigones triumphantly demonstrates that Antigone could fill several volumes of study without becoming tedious or exhausted."--The New York Review of Books

The Antigone of Sophocles

\

"The tyrant is a child of PrideWho drinks from his sickening cup Recklessness and vanity,Until from his high crest headlongHe plummets to the dust of hope.\

"Theses heroic Greek dramas have moved theatergoers and readers since the fifth century B.C. They tower above other tragedies and have a place on the College

Tragic Ambiguity

Sophocles' *Antigone* comes alive in this new translation that will be useful for both academic study and stage production. Diane Rayor's accurate yet accessible translation reflects the play's inherent theatricality. She provides an analytical introduction and comprehensive notes, and the edition includes an essay by director Karen Libman. *Antigone* begins after Oedipus and Jocasta's sons have killed each other in a battle over the kingship. The new king, Kreon, decrees that the brother who attacked with a foreign army remain unburied and promises death to anyone who defies him. The play centers on Antigone's refusal to obey Kreon's law and Kreon's refusal to allow her brother's burial. Each acts on principle colored by gender, personality, and family history. Antigone poses a conflict between passionate characters whose extreme stances leave no room for compromise. The highly charged struggle between the individual and the state has powerful implications for ethical and political situations today.

The *Antigone* of Sophocles, ed. with an intr. and notes by G.H. Wells

"After Oedipus' self-exile his sons Eteocles and Polynices went on a civil war for the Theban throne, which resulted in both brothers dying fighting each other. Oedipus' brother-in-law and new Theban ruler Creon ordered the public honor of Eteocles and the public shame of Thebes' traitor Polynices. The story follows the attempts of Antigone to bury the body of her brother going against the decision of her uncle and placing her relationship with her brother above human laws"--
