Bloodhound in Blue

He was born in rural Missouri, and it was immediately clear that he was different from the rest. He caught his first criminal when he was just two years old. By his sixth birthday, he had located burglars, missing children, drug dealers, rapists, and murderers—including Utah's most wanted criminal. Known to friends as JJ, to law enforcement as Michael Serio's partner, and to captured criminals as "that damned dog," Jessie Jr., an exceptionally talented bloodhound, bayed like a sea lion that had swallowed a fog horn. Before JJ, few police departments in the West used bloodhounds, and none in Utah. But just when JJ was finally convincing naysayers, he and Officer Serio ran into something worse than resistance: the despair of failure amid high hope. JJ had been tracking Brian David Mitchell, the man who abducted Elizabeth Smart, when he was pulled off the track. Elizabeth later told investigators that on the day she was kidnapped she heard a dog baying in the woods behind her. In almost nine years of service, JJ helped apprehend nearly 300 criminal suspects in the Salt Lake City area. Here is his remarkable story, fleas and all. I Had a Black Dog

Ever since Winston Churchill popularised the phrase Black Dog to describe the bouts of depression he experienced for much of his life, it has become the shorthand for the disease that millions of people suffer from, often in shame and silence. Artist and writer Matthew Johnstone, a sufferer himself, has written and illustrated this moving and uplifting insight into what it is like to have a Black Dog as a companion. It shows that strength and support that can be found within and around us to tame it. Black Dog can be a terrible beast, but with the right steps can be brought to heel. There are many different breeds of Black Dog affecting millions of people from all walks of life. The Black Dog is an equal opportunity mongrel. Stunningly illustrated, totally inspiring, this book is a must-have for anyone who has ever had a Black Dog, or knows someone who has.

The Phantom Tollbooth

With almost 5 million copies sold 60 years after its original publication, generations of readers have now journeyed with Milo to the Lands Beyond in this beloved classic. Enriched by Jules Feiffer's splendid illustrations, the wit, wisdom, and wordplay of Norton Juster's offbeat fantasy are as beguiling as ever.

“Comes up bright and new every time I read it . . . it will continue to charm and delight for a very long time yet. And teach us some wisdom, too.” --Phillip Pullman For Milo, everything’s a bore. When a tollbooth mysteriously appears in his room, he drives through only because he’s got nothing better to do. But on the other side, things seem different. Milo visits the Island of Conclusions (you get there by jumping), learns about time from a ticking watchdog named Tock, and even embarks on a quest to rescue Rhyme and Reason. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. In fact, it’s exciting beyond his wildest dreams!

Blue

How many shades of blue are there? There’s the soft blue of a baby’s cherished blanket, the ocean blue of a romp in the waves, the chilly blue of a cold winter’s walk in the snow, and the true blue of the bond that exists between children and animals. In this simple, sumptuously illustrated companion to Caldecott Honor Book Green, award-winning artist Laura Vaccaro Seeger turns her attention to the ways in which color evokes emotion, and in doing so tells the story of one special and enduring friendship.

On God and Dogs

Many of us keep pet animals; we rely on them for companionship and unconditional love. For some people their closest relationships may be with their pets. In the wake of the animal rights movement, some ethicists have started to re-examine this relationship, and to question the rights of humans to “own” other sentient beings in this way. In this engaging and thought-provoking book, Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals, looked at through the lens of our relations with pets--especially dogs. Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general, and--against the more extreme animal liberationists--defends the intermingling of the human and animal worlds. He tries to imagine what it would be like to treat animals as a gift from God, and indeed argues that not only are animals a gift for us, but they give to us; we need to attend to their giving and return their gifts appropriately. Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans. Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity, and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace. Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively--that their relationships with their companion animals are meaningful and important, and that

their pets have value and worth in themselves in the eyes of God. His book will appeal to a broad audience of thoughtful Christians and animal lovers.

The Story in the Picture

This book provides teachers with the skills, and freedom, to design rich and open-ended art experiences for young children. The author demonstrates that using fine art reproductions in the early childhood curriculum allows children to construct their own meanings, teaches diversity, fosters thinking skills, and encourages storytelling. Based on the NAEYC and NAEA standards, this teacher-friendly resource includes lesson ideas, examples of activities, and photographs of children. “The Story in the Picture has the capacity to have a profound impact on how art is viewed by educators by changing the art experience from one of insignificance to one that contributes greatly to the cognitive growth of the child.” —Sharon Shaffer, Executive Director, Smithsonian Early Enrichment Center “Christine Mulcahey’s watchwords are freedom, creativity, and imagination. . . . One can almost feel perspectives opening on her side of the looking glass as children’s voices break through the hush, and we come in touch with the unexpected.” —From the Foreword by Maxine Greene, Teachers College, Columbia University “Early childhood teachers will find this well-written, engaging, and easy-to-read book to be a gift! It makes sense of current research on early childhood and art and speaks to many common insecurities with easy-to-implement suggestions for the classroom.” —Cathy Topal, Smith College “In the tradition of Geraldine Dimondstein and W. Lambert Brittain, Christine Mulcahey shares wise counsel gleaned from conversations with young children about the art they make and the art that they encounter in richly varied preschool programs. —Christine Marmé Thompson, Pennsylvania State University

What Color Is Your Dog?

This exciting dog training book is based on the original techniques of Hollywood dog trainer and Animal Planet's Good Dog U host, Joel Silverman. In *What Color Is Your Dog?* Silverman presents his groundbreaking color-coding technique, developed over his thirty-year career training dogs for film, television, and commercials as well as working with killer whales in Sea World. By determining what color is an owner's dog, he is able to recognize and then enhance his dog's behavior, following the techniques outlined in the book. Silverman's advice for new puppy owners is to develop a strong, trusting relationship with their puppies in their first thirty days. He shuns traditional concepts of beginning the puppy's lessons as soon as the puppy comes home; instead he proposes that new owners spend time having fun, building trust, and enjoying the first month of the relationship. By increasing the dog's trust and "like" of his owner, the dog becomes more willing and eager to please and work with his owner/trainer. The main gist of the book comes from Silverman's color system in which five basic canine personalities or temperaments are assigned colors. With the descriptions of the five colors in hand—Blue (a fearful, rather skittish type dog), Green (a more or less bashful pooch), Yellow (the ideal, easygoing companion dog), Orange (excitable, but relatively under control dog), and Red (the hyper, high-strung dog that bounces off the walks as soon as bark)—an owner is able to determine which color best matches his dog's temperament and approach the dog's lessons accordingly. The dog owner's goal then is to move his dog as close to the middle of the color spectrum (Yellow) as possible by using the training practices outlined in the book. Silverman devotes a full chapter to each of the five colors, explaining what makes each color type tick and how owners should best handle such a dog. The second half of the book focuses on training tools and techniques and teaching specific cues (sit/stay, stay, come, and no). There is also a chapter for the puppy owner giving helpful advice on special techniques to use for puppies.

Amen to All That

Amen to All That is the final book in a trilogy written using no word longer than four letters in which Jake, with the help from his friends and the wind, makes the most of his opportunity and eventually finds both closure and a happy release from his past. I feel now, as I felt in the beginning, that in the hands of creative leaders (teachers, tutors, parents, self-motivated teens, etc.), this work has enormous potential in the development of language. For reluctant readers, beginning readers, those learning English as a second language, independent readers looking for something out of the ordinary, trivia buffs, and wordsmiths, there is something here for you all. Now all I need is for you to prove me right.

Ghost Cave

Nominated for an Edgar Award: When Marc and his friends discover an Indian grave in a long-abandoned cavern, they begin to wonder if it's haunted. It's the summer of 1954, and Marc Schaller expects to spend his days playing baseball, swimming in the river, and reading comic books. But when he hears about a fifty-dollar reward for the discovery of any local Indian graves, his summer plans suddenly get a lot more exciting. Marc gathers his best friends, Eddie and Hermie, and they decide to search for the artifacts together. The three boys soon stumble across a grave in a large abandoned grotto, and they know they've struck gold. That reward will soon be theirs! But something about the find is unsettling to Marc, and they decide to hold off on telling anyone about it for a few days. However, as the boys explore the cave further, Marc starts to suspect that they might not be the only ones in there.

This Is as Big as It Gets

This book is fiction and could fill several niches in the marketplace. Reluctant readers, those learning English as a second language, trivia buffs, and fans of Beatles spring to mind. This Is as Big as It Gets tells the story of two boys who meet and pair up with two girls. The four of them then banter as they try to put the world to rights while coping with stepparents, sexism, abused parents, sick parents, a plague of rats, death, suicide, and a terrorist attack but not necessarily in that order. Interspersed with these dramas is an offbeat modern fairy tale told by one of the boys; it is so well received that he decides to write a book. His friends try to help him with ideas, and they get sidetracked by idioms, song lyrics, jokes, palindromes, and trivia. However, the book is never penned, not in this story anyway. The entire text of the story is told using no words longer than four letters because it began life as a teaching exercise for primary school children in Australia. The language is not your average American English, and for that reason, a glossary is attached by way of a translation from the Australian and English idioms and vocabulary that the story is punctuated with. This Is as Big as It Gets will, hopefully, be followed by A Bit of This and a Bit of That and then, to complete the trilogy, Amen to All That. The pattern of using no words longer than four letters in the telling of the story will continue.
