

2 (vol. 18)

“The” Modern London Catalogue Of Books, With Their Sizes, Prices, And Publishers

Reprint of the original, first published in 1883.

The London Catalogue of Books

Reprint of the original, first published in 1841. The Antigonos publishing house specialises in the publication of reprints of historical books. We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage.

Bulletin

Reprint of the original, first published in 1882.

Dictionary of Geography, Descriptive, Physical, Statistical, and Historical, Forming a Complete General Gazetteer of the World

The goal of Interface Science and Composites is to facilitate the manufacture of technological materials with optimized properties on the basis of a comprehensive understanding of the molecular structure of interfaces and their resulting influence on composite materials processes. From the early development of composites of various natures, the optimization of the interface has been of major importance. While there are many reference books available on composites, few deal specifically with the science and mechanics of the interface of materials and composites. Further, many recent advances in composite interfaces are scattered across the literature and are here assembled in a readily accessible form, bringing together recent developments in the field, both from the materials science and mechanics perspective, in a single convenient volume. The central theme of the book is tailoring the interface science of composites to optimize the basic physical principles rather than on the use of materials and the mechanical performance and structural integrity of composites with enhanced strength/stiffness and fracture toughness (or specific fracture resistance). It also deals mainly with interfaces in advanced composites made from high-performance fibers, such as glass, carbon, aramid, and some inorganic fibers, and matrix materials encompassing polymers, carbon, metals/alloys, and ceramics. Includes chapter on the development of a nanolevel dispersion of graphene particles in a polymer matrix Focus on tailoring the interface science of composites to optimize the basic physical principles Covers mainly interfaces in advanced composites made from high performance fibers

The modern London catalogue of books ... containing the books published in London ... since the year 1800 to October 1818 [compiled by W. Bent].

Reprint of the original, first published in 1845.

A Catalogue of Books, with their sizes and prices: containing the books that have been published ... since the London Catalogue of Books, 1814, to September, 1816. [Compiled by William Bent.]

Includes titles on all subjects, some in foreign languages, later incorporated into Memorial Library.

The London Catalogue of Books, with Their Sizes, Prices, and Publishers. Containing the Books Published in London, and Those Altered in Size, Or Price, Since the Year 1800 to October 1822

Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series.

The High Alps in Winter
