

Chandrayaan 3

Shaping India: Key Decisions

In the vast cosmic expanse, the Indian Space Research Organization (ISRO) shines as a beacon of human ingenuity and determination. Join author Anand Shinde on a celestial journey through the captivating history of ISRO, India's pioneering space agency. From its modest beginnings to the groundbreaking triumph of Chandrayaan-3, this book chronicles ISRO's evolution, technological breakthroughs, and remarkable missions that have left an indelible mark on the world. Explore the challenges and triumphs that define ISRO's journey, from launching its first satellite to conquering lunar and interplanetary missions Mangalyaan. Uncover how ISRO's contributions transcend the boundaries of Earth, revolutionising communication, weather forecasting, agriculture, and disaster management, benefiting millions. As you traverse these pages, discover the tales of brilliance, dedication, and scientific curiosity that have made ISRO a source of immense pride for every Indian. Experience the celestial odyssey that reshaped India's destiny among the stars, inspiring generations to dream beyond the horizon and explore the wonders of the cosmos.

ISRO's History

70th BPSC Mains Exam (Bihar Public Service Commission) Solved Papers 1&2 Years Wise & Topic Wise Detailed Solution 69th To 48th Combined Competitive & CDPO Exams is a comprehensive guide for candidates preparing for the BPSC (Bihar Public Service Commission) exams. The book provides solutions and analysis of the previous years' question papers, which is critical for exam preparation. Key Features of the Book - Solved Papers for 70th BPSC: The book includes solved question papers for the 70th BPSC Mains Exam. These solutions are arranged in a clear, systematic manner, which helps students understand the correct approach to answering each type of question. Years-wise Solutions: The book covers question papers from the 69th BPSC exam to the 48th BPSC exam. This chronological approach allows candidates to track trends in the types of questions asked, the level of difficulty, and recurring themes. Topic-wise Breakdown: The solutions are categorized according to the topics, which is helpful for candidates to focus on specific sections of the syllabus. This breakdown ensures that candidates can study the relevant portions in detail, especially those topics that have been asked frequently. Detailed Explanations: Each solution is accompanied by detailed explanations to help candidates understand the reasoning behind the correct answer. This ensures that candidates not only learn the answers but also grasp the concepts and logic involved in answering the questions. Covers Combined Competitive & CDPO Exams: The book also includes solved papers for the Combined Competitive Exam (CCE) and Child Development Project Officer (CDPO) Exam. This provides additional insight into the structure of these exams, which can be useful for candidates preparing for both the BPSC Mains and the CDPO exams. Comprehensive Exam Preparation: Since the book includes both general studies and subject-specific questions from various previous BPSC exams, it helps candidates prepare in a holistic manner. This preparation strategy increases the chances of performing well in the actual exam.

Know Your World: Trending & Emerging Facts

This book takes you on a journey of path breaking technological transformations that are shaping up to form New Nations. There are massive developments happening in Infrastructure, Law, Agriculture, Retail and Space exploration. Along with this, the Central Bank Digital currencies, Cryptocurrencies, NFT's, Metaverse's, Drones, 5G Technology and Xenobots are also making considerable progress. Bringing them all together could help transform nations to New Nations. This book has plenty of case studies, references, and examples to take you on an exciting journey of technological advances and what it means for us as a society.

Explore lunar mysteries with All You Want To Know About The Moon (Q & A), where questions and answers illuminate the fascinating world of Earth's celestial companion. The origin of the Moon is still a mystery. Some scientists believe that the Moon was formed before the Earth. The Earth emerged about 1,000 years after the Moon. • The Moon is shrinking. It has shrunk by around 200 meters across its diameter in the last billion years. The Moon is slowly moving away from the Earth at a rate of 3.8 cm (1.5 inches) per year. Scientists believe that the Moon was about 24,000 Km (15,000 miles) from Earth, now it is 384,400 km (238,855 miles). The Moon's days and nights are longer than the Earth's. One \"Moon Day\" is about 14 Earth days, same for the \"Moon Nights.\" • The Moon is home to some massive mountains. The highest mountain is about 5,500 meters (18,045 feet) high, more than half the height of Mount Everest. • The Moon is an excellent source of building materials, water, fuel, oxygen, and other useful resources that are significant for modern electronics and batteries. The Moon has over 1 million tons of Helium-3, a non-polluting nuclear fuel. At the current rate of energy consumption, this will take care of 10,000 years of worldwide demand.

Success is an excellent acquired quality of a person to sustain a strong spirit which can willfully overpower the dictums of mind. Even if a person possesses good physical strength, treasures of wealth and other resources, recognition among prominent personalities, but lack of self confidence, fails to provide the desired success. Every person, belonging to any age, religion or caste has an earnest desire to seek the achievements of the topmost level to command respect in the society. Perfection in any task is difficult but it requires prolonged efforts. Winning isn't about finishing in first place. It isn't about beating the others. It is about overcoming yourself, overcoming your body, your limitations, and your fears. Winning means surpassing yourself and turning your dreams into reality. Success hugs you in private but failure slaps you in public. Better learn and determine to succeed in life.

Undoubtedly, one of the most significant achievements of the twentieth century is humanity's ability to explore outer space. While space exploration has been greatly facilitated by advancements in science and technology, it has also introduced various challenges that require legal solutions. This book focuses on the Indian Space Law, examining the scope of current space activities and their adherence to existing treaties, the impacts of current legislation, and the need for progressive development of space law in India within the framework of International Space Law. Topics covered include the history of national and international space law, legal structures governing space activities, space insurance and liability, intellectual property rights and artificial intelligence in space law, environmental issues, India's cooperation with other nations in its space sector, and future directions for space law development.

Knowledge is power and knowledge shared is knowledge multiplied. In a world that constantly evolves, being aware of what's happening around us is not just an advantage; it's a necessity. General Knowledge isn't merely a segment of information; it's the lifeblood of informed decisions, a passport to competitive exams, and the key to coming across as a knowledgeable individual in any setting. Let's explore how this book will add to your knowledge bank: 1) Updated to the Minute: Imagine having access to a reservoir of knowledge that's 100% current. Our Oswaal GK Handbook is updated with the latest current affairs. 2) Complete Coverage, No Gaps: From the realms of history to the corridors of contemporary geopolitics, we've left no stone unturned. This book is your one-stop shop for all essential information. 3) Exam Readiness Made Simple: Complex data is presented in a simplified tabular form. Whether you're preparing for competitive exams or an interview, this format ensures you're 100% exam-ready. We owe immense gratitude to our dedicated team of teachers who have worked tirelessly to compile this treasure trove of knowledge. As you embark on this enriching journey with Oswaal GK Handbook, remember that knowledge is power, and it's yours for the taking. So, without further ado, grab your copy today and simplify your learning. Knowledge is waiting; let's dive in!

GALACTIC GOVERNANCE: NAVIGATING THE LEGAL FRONTIER OF INDIAN SPACE EXPLORATION

This book emphasizes the concepts of strategic innovation and entrepreneurship, which are quite prevalent in today's organizations. Going beyond traditional approach that follows strategic analysis, choice and implementation framework, and traditional theories based on industrial organization paradigm and resource-based view, the book considers current business environment, which is volatile, uncertain, complex, chaotic, conflicting, and ambiguous (VUCA). It takes the strategic flexibility view to cope with these strategic challenges. The book introduces the subject matter of strategic management in retrospect and prospect, highlighting critical theories of strategic management. It uses a strategic learning framework rather than a purely analytical approach to dynamically learn about the external situation, internal resources, and capabilities. The evolution of strategy is given in terms of generic strategies in practice and adaptation in specific contexts. It further deals with essential topics such as strategic alliances and networks, mergers and acquisitions, and global strategy. It then provides the execution framework and models covering

restructuring, leadership, corporate governance, and change management. The strategy in specific areas such as strategic technology management, e-business and knowledge management, and functional strategies and policies are discussed to understand the implementation depth. Finally, it touches upon contemporary issues such as sustainable enterprise, stakeholder perspectives, and comparative strategies in various contexts. It then outlines future directions of strategic management. In the end, case analysis guidelines are provided with sample cases from different parts of the world. The book also used interpretive and simulation methods such as system dynamics and total interpretive structural modeling to grasp the relationships and their dynamic impact provided throughout the book. It will be an invaluable resource for researchers of business strategy as well as students studying these courses; it will also be useful for industry practitioners, corporates and business policy makers.

Mindmap Science and Technology (Sci and Tech) (Colourful Mindmap) (Arora IAS) for UPSC and State PCS Exam 2023-2024 Session

This book presents the select papers from the International Symposium on “Emerging Trends in Synthesis and Catalysis” (ETSC 2023). It covers the latest trends in novel synthesis strategies and highly efficient heterogeneous/homogeneous catalytic chemical species. Various topics covered in this book are green synthesis, reaction designs, catalyst synthesis, advanced materials for organic synthesis, polymer synthesis, stereoselective synthesis, flow chemistry, bio-catalysis, organo-catalysis, catalysis for sustainable development and industrial processes, multiphase catalysis, separation science and process development, organometallic compounds in synthesis and catalysis, computational tools for synthetic processes and processes for environment sustainability. The book is useful for researchers, academicians, and industrialists working in material science and industrial chemistry.
