Soviet T-10 Heavy Tank and Variants

A highly illustrated study of the T-10 Heavy Tank that served from the 1950s through to the end of the Soviet Union. When it was introduced into service in 1953, the T-10 represented a return to the "classic" Soviet heavy tank. Although considered a major threat to NATO tank forces, it also represented the end of an era. All gun heavy tanks like the T-10 would eventually be made effectively redundant by later models like the T-62 which had powerful next generation armament and new ammunition types. The tank was gradually withdrawn from service in the 1970s, though the last tanks would only leave Russian service, by decree of the President of the Russian Federation, in 1997. As such the T-10 outlived the Soviet state that had created it. Never exported outside of the Soviet Union and rarely used in combat, the T-10 has remained a mysterious tank, with many of its variants unknown in the West until very recently. This study, written from original Russian and Ukrainian primary source documents that have only recently been made available, uncovers the history of this enigmatic tank using 130 stunning contemporary and modern photographs of the T-10 as well as full colour side-view artwork.

"Mama, something terrible is wrong with me. There is blood in my panties!" Those were the words of seven-year-old Sarah. Mama told her she must have fallen or something and not to worry. Sarah went away feeling sad; her chance for help was gone! It was Sarah's alter, Susie, who had been sticking pencils and other items in her private place. Susie had come when Sarah was only four years old. Susie had become Daddy's 'special' little girl by sitting on his lap. In return he gave her a dollar for any change she had. Daddy played with Susie's pee pee and it was Susie that slept in the upstairs bedroom with her fourteen-year-old brother. Later in life, two other alters would appear. "You Love Your Daddy, Don't You?" is told through the memories of Sarah. It reveals a child's determination to survive despite profound emotional, physical, and sexual abuse. This was compounded by constant neglect from both parents. About the Author: Sarah Harrison has written several articles for the Women's Institute for Incorporation Therapy's monthly newsletter as well as articles for spiritual magazines. She also volunteers as a mentor in a local school system, helps with special group activities in an assisted living home, and provides guidance to troubled parents and teens on www.experts.com. There are many ways to tell a story. And there are many ways to read a story. Much like reality, the stories told through poetry can only be understood as fragments- put together piece by piece like a puzzle. "If You Came For Tea And I Didn't Have A Kettle" is a story of this kind. More specifically, it is a collection of around 50 poems, written over the course of a few years. These are poems written through the last of youth as it fades into the bitter potential of adulthood. These are poems written through the all-encompassing hope, grandeur and delusion at the start of first love, to the end of second love and the calm disappointment it brings. These are poems about one life. These are pieces of a life; and these pieces can be put together however you wish to line them up. Maybe you can even find a glimpse of your own life within their cracked surface.
