The emphasis on organizational change in the corporate life of recent years—including job redesign, autonomous groups, high performance work systems, and the redesign of control systems—owes a great deal to the pioneering work of Chris Argyris. This book examines how individuals in organizations can become more effective, in turn making organizations more effective. It explores the conventional pyramidal structure of organizations, in which there is top-down control by managers over workers, and examines their negative consequences. These include organizational injustice and eventually irrational decision-making. Argyris also discusses the characteristic learning system of the modern organization, which he describes as "single-loop" in character. This system, he argues, is only adequate enough to permit the organization to implement existing policies. It does not permit the more difficult and comprehensive task of questioning underlying goals and assumptions, which he terms "doubt loop" learning. In this kind of learning, the organization is able to confront the more difficult problems that affect organizations in a time of transition. In his new introduction, Argyris reviews the strengths and limitations of the argument advanced in "Integrating the Individual and the Organization." He describes why the pyramidal structure endures, and why creating a self-learning organization is an even more challenging task than he has imagined. The book will be of interest to professionals with a long-standing interest in organizational development as well as those just entering the field, managers confronting the challenge of organization change, and researchers in organizational behavior and theory.

The "International Labour Law Reports (ILLR) is a series of annual publications of labour law judgments by the highest courts in a number of jurisdictions. "ILLR is a particularly useful resource for judges, labour law practitioners, industrial relations specialists, and students who seek ready access to authoritative information of a comparative nature on problems arising in the field of labour law and industrial relations. "ILLR accompanies each reprinted judgement with Headnotes and, in practically all cases, an Annotation which sets forth, among other things, -the legal issues involved, - the basic facts of the case (if not included in the judgment itself), - the relevant statutory provisions and judicial precedents, - the labour law and industrial relations context in which the case arose, and - the significance of the judgment in the development of the law. "ILLR" provides the reader with factual information not coloured by the personal views of the annotators. As a rule, judgments are printed in extenso; the editors summarize or cut portions of judgments that are purely technical or only of marginal interest. "ILLR" also provides a list of cases both by jurisdiction and by subject matter. As a result, this work offers the reader a concise, readily-accessed statement of law. Volume 16 covers the period 1 October 1995 to 30 September 1996. (Volume 15 covers the period 1 October 1994 to 30 September 1995 and is also available, as are all earlier volumes.)
