Y Tu Mewn i Gartrefi Cymru / Inside Welsh Homes

The 200 images in this book have been selected from the extensive archive of the National Monuments Record of Wales. They take us inside the houses of Wales from prehistory to the modern day. From the simple interiors of the humblest cottages and urban terraces through to the elaborately decorated rooms of the great country houses, they provide a rare glimpse behind closed doors and give a unique insight into the ways people have lived their day-to-day lives in Wales.

The Intertext series has been specifically designed to meet the needs of contemporary English Language Studies. Working with Texts: A Core Introduction to Language Analysis (2nd edn 2000) is the foundation text, which is complemented by a range of 'satellite' titles. These provide students with hands-on practical experience of textual analysis through special topics and can be used individually or in conjunction with Working with Texts. Aimed at A-Level beginning undergraduate students, The Language of Television: * provides an extensive history of British television * explores a range of genres, from breakfast news to soap operas and 'reality TV' * analyses television scheduling and listings * includes extracts from scripts of popular television programmes: Queer as Folk and The Royle Family * includes a substantial glossary.

In this penetrating study Andrew Kennedy sets out to analyse the modern movement in drama through the theatrical language of six key figures writing in English - Shaw, Eliot, Beckett, Pinter, Osborne and Arden. Dr Kennedy argues that a study of theatrical language should be an exercise in 'practical criticism' and not merely narrowly linguistic. The whole range of theatrical expressiveness must be examined in detail from play text and performance alike and the conclusions correlated with the author's known intentions if a full evaluative judgement is to be attempted. Dr Kennedy shows how the modern movement in drama reveals a growing difficulty in creating any type of fully expressive dramatic language. He has written a work with an unusual breadth of reference, which should prove of value to all students of modern drama, modern English

and European literature and to the theatre-going public.

Martha, Jack & Shanco

With typical critical flair, Raymond Williams examines the development of the dramatic form from Henrik Ibsen to Bertolt Brecht. Taking an expansive view of drama from around the world, he offers the reader profound insights into the role of theatre in society and into the workings of dramatic language. This is seminal reading for theatre-goers and literature students alike.
