

IS IT A SCAM

The Book of Scams

These days fraudsters operate on a massive scale that was previously unimaginable. Thousands of people from all walks of life are relieved of billions of pounds each year. No-one knows the full scale of fraud because embarrassed victims often fail to report it. Despite all the press coverage, people keep falling for old tricks that often re-emerge in new guises. Scammers are ingenious, utterly ruthless and without conscience. Rodney Hobson, author of the best-selling beginners guide to stock market investing *Shares Made Simple*, has produced the first definitive guide to scams, categorising the different types, listing tell-tale signs and advising how to spot a fraudster and avoid becoming the next victim. This makes the basic principles behind each type of scam more recognisable and it shows how scams have evolved and re-emerged over time. Danger lurks for those unwary souls who part only too readily with their hard-earned cash and this book will help you be alert to the risks. It is also meant to entertain, as we learn to grudgingly admire as well as despise the ingenious crooks who lurk in the shadows.

Scam Me If You Can

Are you at risk of being scammed? Former con artist and bestselling author of *Catch Me If You Can* Frank Abagnale shows you how to stop scammers in their tracks. Maybe you're wondering how to make the scam phone calls stop. Perhaps someone has stolen your credit card number. Or you've been a victim of identity theft. Even if you haven't yet been the target of a crime, con artists are always out there, waiting for the right moment to steal your information, your money, and your life. As one of the world's most respected authorities on the subjects of fraud, forgery, and cyber security, Frank Abagnale knows how scammers work. In *Scam Me If You Can*, he reveals the latest tricks that today's scammers, hackers, and con artists use to steal your money and personal information--often online and over the phone. Using plain language and vivid examples, Abagnale reveals hundreds of tips, including: The best way to protect your phone from being hacked The only time you should ever use a debit card The one type of photo you should never post on social media The only conditions under which you should use WiFi networks at the airport The safest way to use an ATM With his simple but counterintuitive rules, Abagnale also makes use of his insider intel to paint a picture of cybercrimes that haven't become widespread yet.

We Are A Scam

You are born of scam; shall die in scam. Everyone is scamming others. What better expected of the most depraved-dangerous half animal-half human, 7.5-billion strong species? Fear, anger, attitude, denial, deception as proceeds of the scam are the pandemics this species loves. Scared of death, yet trades it most. Reality can de-scam lives. But, who cares? Ignorance is bliss, perfect; till death! Biggest Scam on earth is humanity itself. Every consciousness of every human being is a scam. It had to be as evolution, which designed consciousness, is itself a huge scam. Almost 99.9 percent humans are trapped in the scam. Evolution gifted this exclusivity of complex consciousness in humans but the scammed design made it ride on the brute animalistic body-mind mechanism and processes. A species, born not human but only with potentials as human; positioned over a largely animal system, is the worst scam of cosmos. As half-animal half-human, we are the most split and most conflicted creatures and therefore qualify as the most corrupt and monstrous species in universe. That is why the human world is full of pain, grief, sufferings, devastations et al. The animal instincts of fear, anger, attitude, denial and deception surely cannot create anything better. The only purely human element of compassion is negligible as only a handful out of 7.5 billion people qualifies as humans. The singular solution of scammed humanity is in being human. Only knowledge of reality, in its

entirety and holism, can de-scam consciousness and lead the embedded potentials to evolve us as humans. The human world shall always remain a theatre of absurd and insanity if this scam is allowed to not only continue but prosper. The best possible way for an individual to come out of this scam is to understand the scam in details, the fear and denial elements of scammed consciousness, and the core and critical elements of Reality. This eBook shall detail all these. The eBook deconstructs fear, especially the all-pervasive fear of death and unravel the scam of humanity in details so that an individual can de-scam his consciousness and life to construct his or her personal model of lasting peace, sanity, wellness and excellence. The larger humanity is too busy and hugely blissful, enjoying sex, food, moneys, games, commerce, scamming, et al. An individual alone has the possibility to come out of the scam. Welcome!

Scam: Who Won, Who Lost, Who Got Away?

BBC Scam Interceptors presenter Nick Stapleton guides the reader through all the ways they can safeguard themselves, their families and their loved ones from becoming victims of scamming, whether by phone, email, phishing or any other known avenues. Take the power back with this, the ultimate defence tool.

How to Beat Scammers

How do you quit being a victim to every slick telemarketer out there? Is there anyway to see a scam and get out of their way? I've been there and done that. There are reasons people have been trained into being dupes. And all these reasons can be un-trained as well - if you know how. I wrote this book based on the research I did to dig myself out of the hole I had been scammed into. I decided not to get mad or get even - just get my money back somehow, write up what I had encountered, and then move on. And writing this book is part of moving on. While I've put the bulk of this data into several blogs, ebooks, presentations, papers, and so on, I've decided to cobble it all together into a single book so that people can get this data without having to go through what I did. Our job here is not just getting our own lives free from scammers and rip off artists, but it's making this planet we live on a bit safer place for everyone else. Buy this book today and get more freedom!

Get Your Self Scam Free

A comprehensive guide to buying a home while avoiding pitfalls in India. Home buying is a thrilling experience often overwhelmed by its complex process. Many home buyers take the plunge without any knowledge of the real estate industry and the underlying processes. The consequences range from buying the wrong property to losing one's life savings.. As new-age buyers enter India's thriving real estate market as well as varied voices educating them, the need for one trusted voice has only grown.. Mayank Agarwal, a first-generation real estate entrepreneur and educator, addresses this need in his book 'How to Buy a Scam Free Home' to provide the right information backed by the real experience to help avoid most pitfalls and scams. It equips you with all the knowledge you need to buy your dream home without getting into trouble. It breaks down the infamously opaque and intimidating industry and bridges the massive gap that has long plagued the customer.

How To Buy A Scam Free Home

From viral comedy sensation James Veitch (as seen on TED, Conan, and The Tonight Show with Jimmy Fallon) comes a collection of laugh-out-loud funny exchanges with email scammers. The Nigerian prince eager to fork over his inheritance, the family friend stranded unexpectedly in Norway, the lonely Russian beauty looking for love . . . they spam our inboxes with their hapless pleas for help, money, and your social security number. In Dot Con, Veitch finally answers the question: what would happen if you replied? Suspicious emails pop up in our inboxes and our first instinct is to delete unopened. But what if you responded to the deposed princess begging for money in your Gmail? Veitch dives into the underbelly of our absurd email scam culture, playing the scammers at their own game, and these are the surprising, bizarre, and

hilarious results.

Dot Con

A small town in Italy is facing bankruptcy when its casino is closed down. After a chance remark by one of the unemployed dealers, the local Mayor embarks on a plan to transform the young dealers into the most skillful roulette cheats the world has ever seen. With the help of his errant brother, Calm Capone and his ageing cheat colleagues, the dealers hit casinos around the world en masse and are in and out before Surveillance even know they are being fleeced. So starts a massive International man hunt as casino boss Sam Morris attempts to put a stop to the Blitzkrieg Scam.

The Blitzkrieg Casino Scam

Purchasing scams are largely overlooked but can cost companies thousands of pounds - this practical book provides details of common scams and what to do about them.

Purchasing Scams and how to Avoid Them

Introduction to Internet Scams and Fraud - Credit Card Theft, Work-At-Home Scams and Lottery Scams
Table of Contents Introduction to Internet Scams and Fraud Getting to Know More about Internet Scams/Identity Theft/Credit Card Theft and Internet Frauds Difference between Internet scams And Internet Fraud Tips and Techniques to Recognize Frauds and Scams Rule number one – giving personal information out Rule number two – identification documents How does Internet fraud work? How Do Banks Encourage Frauds? How Can a Bank Help in Catching a Scammer? Banking Laissez-faire attitudes Strict Ways of Tackling Credit Card Frauds Banking Secrets Unfolded Bank Update Frauds Conclusion Author Bio Publisher Introduction to Internet Scams and Frauds With the Internet becoming such an integral part of all our lives, is it a surprise that we are more vulnerable to Internet scams and Internet fraud. So for all those people who want to know about the different ways in which a person can get scammed through Internet scams and Internet fraud, here is a complete information dossier telling you all about identity thefts, credit card thefts, Internet fraud and Internet scams. Along with this, you are going to know more about how fraudsters can gain access to your bank account, thanks to emails which you demand information from you under the garb of updating your banking details and information. Ignorance is not bliss. In such cases you have to be one step ahead of all the scamsters who benefit from a credulous public who believe that if banking and financial company officials have written to you about a serious matter, it is serious. They thrive on such threatening and scare tactics, telling you that your account is going to be limited within three days or some such ultimatum. Remember that no bank or any other institution which has anything to do with money is going to ask you for your details, by asking you to update them online. Anybody with a little bit of common sense knows that any information which is sent online either through mail or through tapping on supposedly secure websites can be easily accessed by any hacker with a little bit of experience and computer know how. So apart from showing you ways and means with which you can check these Internet scamsters and credit card identity thieves, this book is going to give you information on how you can protect yourself from future financial losses.

Introduction to Internet Scams and Fraud - Credit Card Theft, Work-At-Home Scams and Lottery Scams

In this New York Times bestseller, a young and successful entrepreneur makes the case that politics has no

place in business, and sets out a new vision for the future of American capitalism. There's a new invisible force at work in our economic and cultural lives. It affects every advertisement we see and every product we buy, from our morning coffee to a new pair of shoes. "Stakeholder capitalism" makes rosy promises of a better, more diverse, environmentally-friendly world, but in reality this ideology championed by America's business and political leaders robs us of our money, our voice, and our identity. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, he became a hedge fund partner in his 20s, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, America's elites prey on our innermost insecurities about who we really are. They sell us cheap social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we as Americans lack both. This book not only rips back the curtain on the new corporatist agenda, it offers a better way forward. America's elites may want to sort us into demographic boxes, but we don't have to stay there. *Woke, Inc.* begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American today—a journey that begins with cynicism and ends with hope.

Woke, Inc.

Even though computers have been an integral part of our lives for decades, many people are still bewildered by the complexities of these incredible machines. Whether creating and saving documents, connecting it to the Internet, or navigating through various software applications, the world of computing can be overwhelming. *My New Computer: A Gentle Introduction to your Computer, the Cloud, and the Internet* is your comprehensive guide to conquering these and other challenges. Say goodbye to confusion and intimidation as you embark on a journey to grasp the fundamentals of computers and how to use these powerful tools to improve your personal and professional life.

SCAMS - and how to protect yourself from them

Your personal toolkit for critical thinking provides a power pack of resources to help you succeed in your essays and coursework - and in life!

My New Computer

Drawn from the personal experience of dozens of victims, including the author's own encounters, *Scammed* exposes the most prevalent consumer and money scams lurking in modern society. With so many people falling prey to a wide variety of frauds due to increasing vulnerability on the anonymous Internet, an exposé has never been timelier. This recounts the stories of victims of over two dozen different types of scams, and what they did to recover. These scams include: Auto repair industry scams Insurance industry scams Housing industry scams and real estate house flip scams Home repair scams Counterfeit products Phony job offers Phony publishing and film producing offers Phony investments Phony money scams from scamsters asking for help And many others The chilling tales and details of these scams are interspersed with the wisdom of how each one can be dealt with and avoided. Readers will take away from the shocking stories confidence that they have gained the knowledge and preparedness to avoid being Scammed. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often

publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Critical Thinking

-- The main target for scams are those 50 years of age or older. -- This book will expose all the latest scams, frauds, and cons -- and can be updated yearly, if necessary, to expose all the latest schemes. Fraud -- credit card fraud, telemarketing scares, Internet scares, identity theft and hundreds of other items that are geared to separate you from your money -- is a multi-billion dollar business, both in the U.S. and worldwide. From a simple three-card monte game on a street corner to sophisticated banking and Wall Street swindles, cons, frauds and scams are destined to strike one in ten Americans this year. Check kiting, ATM scares, bankruptcy fraud, real estate scams, Nigerian money offers, and even slave reparation scams -- there are hundreds, maybe thousands, of ways to get suckered by telemarketers or just plain fast-talking swindlers. Scary stuff, right? This book identifies the myriad of scams, cons, and frauds perpetrated every minute of every day in this country, and gives cutting-edge, up-to-date advice on how you can protect yourself from unscrupulous cons of every conceivable stripe. There will also be an entertaining section on con artists through history, from the infamous grifters of the Great Depression to the masterminds of the recent Enron collapse -- perhaps one of the greatest scams in America's history.

Scammed

Is It Safe? PROTECTING YOUR COMPUTER, YOUR BUSINESS, AND YOURSELF ONLINE IDENTITY THEFT. DATA THEFT. INTERNET FRAUD. ONLINE SURVEILLANCE. EMAIL SCAMS. Hacks, attacks, and viruses. The Internet is a dangerous place. In years past, you could protect your computer from malicious activity by installing an antivirus program and activating a firewall utility. Unfortunately, that's no longer good enough; the Internet has become a much darker place, plagued not only by rogue software but also by dangerous criminals and shadowy government agencies. Is It Safe? addresses the new generation of security threat. It presents information about each type of threat and then discusses ways to minimize and recover from those threats. Is It Safe? differs from other security books by focusing more on the social aspects of online security than purely the technical aspects. Yes, this book still covers topics such as antivirus programs and spam blockers, but it recognizes that today's online security issues are more behavioral in nature--phishing schemes, email scams, and the like. Are you being scammed? Learn how to spot the newest and most insidious computer security threats--fraudulent retailers, eBay scammers, online con artists, and the like. Is your identity safe? Avoid being one of the nine million Americans each year who have their identities stolen. Today's real Internet threats aren't viruses and spam. Today's real threat are thieves who steal your identity, rack up thousands on your credit card, open businesses under your name, commit crimes, and forever damage your reputation! Is Big Brother watching? Get the scoop on online tracking and surveillance. We examine just who might be tracking your online activities and why. Is your employer watching you? How to tell when you're being monitored; and how to determine what is acceptable and what isn't. Michael Miller has written more than 80 nonfiction books over the past two decades. His best-selling books include Que's YouTube 4 You, Googlepedia: The Ultimate Google Resource, iPodpedia: The Ultimate iPod and iTunes Resource, and Absolute Beginner's Guide to Computer Basics. He has established a reputation for clearly explaining technical topics to nontechnical readers and for offering useful real-world advice about complicated topics.

Innovation in Telemarketing Frauds and Scams

Hands-on guidance for professionals investigating crimes that include cryptocurrency In There's No Such Thing as Crypto Crime: An Investigators Guide, accomplished cybersecurity and forensics consultant Nick Furneaux delivers an expert discussion of the key methods used by cryptocurrency investigators, including investigations on Bitcoin and Ethereum type blockchains. The book explores the criminal opportunities available to malicious actors in the crypto universe, as well as the investigative principles common to this

realm. The author explains in detail a variety of essential topics, including how cryptocurrency is used in crime, exploiting wallets, and investigative methodologies for the primary chains, as well as digging into important areas such as tracing through contracts, coin-swaps, layer 2 chains and bridges. He also provides engaging and informative presentations of: Strategies used by investigators around the world to seize the fruits of crypto-related crime How non-fungible tokens, new alt-currency tokens, and decentralized finance factor into cryptocurrency crime The application of common investigative principles—like discovery—to the world of cryptocurrency An essential and effective playbook for combating crypto-related financial crime, There's No Such Thing as Crypto Crime will earn a place in the libraries of financial investigators, fraud and forensics professionals, and cybercrime specialists.

EARN MORE FASTER: A Pay Per Click Earnings Guide

The information security arena is often vague and confusing for internet users, both young and old. New traps are being devised daily, and falling into them can take legal, ethical, financial, physical, and mental tolls on individuals. With increasing cases of fake news, identity theft, piracy, spying, and scams surfacing, this book explains the risks of the internet and how they can be mitigated from a personal and professional perspective. *Surviving the Wild Wild Web: A User's Playbook to Navigating the Internet's Trickiest Terrains* is a readable guide addressing the malicious behaviors within internet cultures. Written in simple and jargon-free language, the book describes ten pillars of information security risks faced by all internet users. Each pillar will be detailed as a story, starting with the roots of the problem and branching out into tangential related issues and topics. Each chapter ends by detailing ways a user can avoid falling victim to cyber threats. It uses a combination of news articles, topical current events, and previously published academic research to underpin the ideas and navigates how users interact with the World Wide Web. The book aims to create a generation of internet-literate readers who can spot the pitfalls of the internet in their personal and professional lives to surf the web safely. This guide will appeal to any individual interested in internet safety, with a potential readership extending to students and professionals in the fields of computer science, information systems, cybersecurity, business, management, human resources, psychology, medicine, education, law, and policy.

The Complete Idiot's Guide to Frauds, Scams, and Cons

BECOME ONE. BECOME FREE. Religion destroyed the Old World. No one questions that. From the ashes rose The High One, an all-knowing quantum computer powerful enough to read human thoughts. Beneath its tight control, humanity is healing... What other God could be needed? But when a computer technician named Anton and an intervenor named Evelyn wake up with no memory of their recent past, they soon become soulfully dissatisfied with their world and embark upon a dangerous quest for answers. With nothing to guide them but an enigmatic locket and vague references to a \"Greater Creator,\" they must carefully navigate their way through an intricate maze of deception-and temptation-to discover the true nature of the Grand Intelligence and free themselves before it's too late. But how do you escape from an entity that knows your every move, your every word... and even your every thought?

Contextualizing Interviews to Detect Verbal Cues to Truths and Deceit

Crime is undergoing a metamorphosis. The online technological revolution has created new opportunities for a wide variety of crimes which can be perpetrated on an industrial scale, and crimes traditionally committed in an offline environment are increasingly being transitioned to an online environment. This book takes a case study-based approach to exploring the types, perpetrators and victims of cyber frauds. Topics covered include: An in-depth breakdown of the most common types of cyber fraud and scams. The victim selection techniques and perpetration strategies of fraudsters. An exploration of the impact of fraud upon victims and best practice examples of support systems for victims. Current approaches for policing, punishing and preventing cyber frauds and scams. This book argues for a greater need to understand and respond to cyber fraud and scams in a more effective and victim-centred manner. It explores the victim-blaming discourse, before moving on to examine the structures of support in place to assist victims, noting some of the interesting initiatives from around the world and the emerging strategies to counter this problem. This book is essential reading for students and researchers engaged in cyber crime, victimology and international fraud.

There's No Such Thing as Crypto Crime

The Falstaff Principle is a fast moving trans-national thriller which asks \"When is discretion the better part of valour?\" It questions many of the values we take for granted and gives a glimpse into the workings of the establishment in modern Britain.

Enforcement of the Criminal Laws Against Medicare and Medicaid Fraud

He is obsessed with her innocence. He will be destroyed by her guilt... John Lescroart writes a gripping courtroom thriller delving deep into the life and mind of the suspect in *The Thirteenth Juror*, the fourth novel in the Dismas Hardy series. Perfect for fans of J.J. Miller and John Sandford. 'I double-dare you to begin reading John T. Lescroart's new suspense trial novel and put it down... This one is on the money' - Larry King, USA Today Dismas Hardy, lawyer/investigator, undertakes the defence of Jennifer Witt, accused of murdering her husband and their eight-year-old son as well as her first husband, who had died nine years earlier from an apparent drug overdose. While preparing his case, Hardy learns that both of Jennifer's husbands had physically abused her. But Jennifer refuses to allow a defence that presumes her guilt. She is not guilty, she claims. Hardy is now driven to seek an alternative truth a jury can believe. As the trial progresses, the complex truth itself begins to change, to bend, to fade in and out of focus as the clock keeps ticking on Jennifer's fate, until there seems only one person left to convince, and she is 'the 13th juror' - the judge. *The 13th Juror* is a stunning and suspenseful novel of moral ambiguity, of good intentions, bad judgements and the tortuous path to ultimate justice. What readers are saying about *The Thirteenth Juror*: 'Intricate, multi-layered story that goes way beyond the basics' 'It was hard to put this book down!' 'Keeps you on the edge of your seat until the end'

Decisions and Orders of the National Labor Relations Board

Las Vegas Scammers, Schemers and Dreamers is a behind the scenes, inside look at life in another world: The Casino. What goes on in this world within a world? How do people really act? What does it take to get escorted out and told not to come back? What does it take to have the police or the Gaming Commission called? My very first call from Surveillance came on my second day on the job. I was informed that a customer (for lack of a printable word) pulled out hair from his arm and put it on his eggs. After I was convinced this was not a joke, I became shocked, angry, and curious all at the same time. I couldn't believe someone would do this to get out of paying for their \$1.99 Steak & Eggs special. My normal thinking for the past twenty years had been I wonder if we'll have any problems today. A very short time later, it changed to I wonder how many we'll have today. The stories you're about to read couldn't possibly be made up. They were written with a sarcastic and humorous tone. Because if I took them to heart, you would be visiting me at the home. You'll also read stories about gambling problems, including my own, which are not so funny. That's the reason I need you to buy this book. I just might be able to break even. I can almost guarantee that you too are going to be shocked and amazed at human behavior in a casino. I can also almost guarantee that if you have even the slightest sense of humor, you'll be laughing and enjoying this book. Frank Garibaldi

How to Do MLM in Massachusetts & The Rest of New England

This book investigates the Internet use and online engagement of China's elderly population, especially in relation to the formation of their social mentality and vision. The online life of the elderly is a complex issue that is important for both economic development and social progress. In a country with a rapidly aging population like China, overlooking the online needs of the elderly and the extent to which they are met can have serious consequences for society as a whole. This book examines the impact of the Internet on the lives

and social mindset of this population, specifically by analyzing their vision, i.e., their perception and concept of the world, of which the Internet is an integral part. It aims to better understand how the elderly use and adapt to the Internet, the challenges they face, and how their online experience shapes their social attitudes. The authors propose practical measures to help this significant population to benefit from the digital age and to foster positive social attitudes. The title will appeal to scholars, students, policymakers, and practitioners interested in the sociology of the Internet, especially elderly online engagement and digital inclusion.

Cyber Frauds, Scams and their Victims

This unique volume presents cutting-edge research on the nature and extent of a wide range of scams, cons, frauds, and deceptive activities, including sextortion, the use of ransomware, phishing, identity theft, Ponzi schemes, online shopping fraud, gift card scams, and health care fraud targeting elderly victims. The contributions to this book raise and attempt to answer several intriguing questions: Why have governments in each global region failed to respond more aggressively to these crimes? What can/should the private sector and social media giants be doing? Can the current responses of both governments and the private sector be linked to the public's ambivalence about how to respond to these forms of offending and victimization? Does a large segment of the public admire individuals who get involved in these activities, in large part due to the positive portrayal of scammers, fraudsters, and con artists in both literature and cinema? Or does the public's view of the harm caused by these scams and cons vary, based on our view of who is victimized (e.g., individuals or corporations) and/or why they were chosen? Will governments – as they have done in the past – attempt to influence the public's views by restricting access to books and movies that focus on the latest scams, cons, and frauds taking place on-line and in-person via book banning and other forms of censoring? And finally, should this discussion of the influence of books and cinema on the public's views of scams, frauds, cons, and deception be broadened to include the government's ongoing attempts to censure a wide range of books and films that may influence the public's view of morality—and more recently, the public's view of our government—due to their content? Timely and thought-provoking, this book will be a key resource for researchers, scholars, and practitioners in criminology and criminal justice, sociology, law, psychology, and social work, while also appealing to interdisciplinary researchers seeking insight into the relationship between positive portrayals of scammers, fraudsters, and con artists in literature and cinema, and the public's perception of individuals who get involved in these activities. It was originally published as a special issue of *Victims & Offenders*.

The Falstaff Principle

State ordained child torturer Minister prisoner represents the offices of the Lt. Gov. Dan Patrick, TDCJ Director Bryan Collier, TBCJ, and wardens throughout the prison—but the greatest piece of fantasy is how the Executive Culture of cover ups came to see this Fools' Parade as good for Texas, even “God's will” to change the world. TDCJ destroys records of violence after 7 years and has hired the lowest qualified of the applicant pool many times in the last 25 years, even ordered the cleaning of contraband at the Polunsky Prison, and all those responsible for covering up a horde were promoted! 25 years of this! Who thinks a director that allowed that can competently supervise a naïve volunteer in a systemwide program of indenturing prisoners? Why is the director sponsoring psychopaths counseling psychopaths? Answer? MONEY—selling the Fools' Parade Fantasy that buying faith from prisoners with favor turns them into saints after 4 years of Bible to naïve Evangelicals. Who thinks it JUSTICE that 400,000,000 hours of officer contact has zero definitive influence on parole when a commissioner spends

The Thirteenth Juror (Dismas Hardy series, book 4)

How craigslist champions openness, democracy, and other vanishing principles of the early web Begun by Craig Newmark as an e-mail to some friends about cool events happening around San Francisco, craigslist is now the leading classifieds service on the planet. It is also a throwback to the early internet. The website has barely seen an upgrade since it launched in 1996. There are no banner ads. The company doesn't profit off

your data. An Internet for the People explores how people use craigslist to buy and sell, find work, and find love—and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web. Drawing on interviews with craigslist insiders and ordinary users, Jessa Lingel looks at the site's history and values, showing how it has mostly stayed the same while the web around it has become more commercial and far less open. She examines craigslist's legal history, describing the company's courtroom battles over issues of freedom of expression and data privacy, and explains the importance of locality in the social relationships fostered by the site. More than an online garage sale, job board, or dating site, craigslist holds vital lessons for the rest of the web. It is a website that values user privacy over profits, ease of use over slick design, and an ethos of the early web that might just hold the key to a more open, transparent, and democratic internet.
