Intro

Two different forms of political fights against despair

Three points about new political affects and effects

An essential link between the denial of the new climatic regime and the conservative revolution

The global horizon of the Moderns

Two different meanings of globalization

The puzzling presence of a new horizon for politics

The necessity of new alliances and new enmities

Part 2: the (counter) Copernican revolution: facing Gaia

H-J Schellnhuber 'Earth system' analysis and the second

We are looking for the figure of an Earth that is not the Globe

Nature divides it does not unify, as was expected from the vision of the blue planet

The controversial epistemology of

A reassembling of the Earth thin surface by scientists

A world made of Lovelockian-Margulis agents?

Lovelock blurring the biotic/abiotic distinction

Margulis: blurring the borders and frontiers of living forms

A German success in letting agents proliferate and overlap

Part 3: the emergence of a new political subject

The unexpected return of the problem of anthropocentrism

when a subject is needed, it is being transformed beyond recognition

Conclusion: a shift in cosmology: Galilean objects vs. Lovelockian agents

What is it to live in the middle of a cosmological shift? A striking parallel

Order of the cosmos and order of society transformed

And of Course Artists Are As Important whereas Scientist Moralists and Whoever Is Making these Loops Visible and As Soon as these Loops Are Interrupted We Lose the Sensitivity To Connect So a Lot a Lot of Ecology Has Been around this Notion of Connection but Very Little Has Been Put in Actually Making the Connection and Pave a Political Price So To Speak of those Connections That's What I'm Interested in Doing So I Think I Unforthunately There I Will At Least Propose a Solution to Your Question Question from the Third Front-Row Fact to from the Same Rule

In Other Words Something Happens in the Relationship between God Humans and the Earth in the in the Incarnation of the Creator Which Which Brings into Being a New Set of Possibilities about the Unfolding of Life Being the Earth and some Paul for Example Says in Romans 8 this this Unfolding Will Be about Reducing the Suffering of Creation Producing Its Frustration I Think There Are Arguably Moments in Christian History Even Maybe Right after Francis Bacon Where We Could Say that Was the Motive for Scientific Endeavor the Discoveries To Take On the Many Technological Discoveries of the Monks for Example Windmills Clocks Deep the Plow these Were All about Reducing Pain and Suffering and Making the Creation More Fertile They Also Made the Creation

I Think of the Great Metaphor of the Last Judgement the Parable of the Sheep and the Goats in Matthew It's a Very Panto Cretak Global Kind of Christian Image for the Sort of Parliamentary Council of Being that You Are Also Working towards in this and another Text but that the Really Interesting Thing Is in that Last Judgement Parable Its Sensitivity to Suffering Which Distinguishes the Sheep in that from the Goats so the People Who Acknowledge in Your Metaphor some Sense of of Connection or Loop with those Who Suffer and Seek To Alleviate It Are those Who Are Arguing with the Direction of the Crystal Scene and I Just for

Me this that There's Something in that in Relation to Sensitivity to Climate Science in Other Words Do I Acknowledge It Do I Change My Life Do I Do Something Different than Emit

What Is Missing from All this Discussion On like the One We Just Had about the Literal of a Symbolic Nature of those Ecological Fight Is the Definition of the People I Mean What Is the Exact Definition of It What Is It All the Scientist Is this some Scientists in Non-Scientist Is the Whole Humanity Is It the Humanity of Well-Educated I Mean a Hopeful Tell Whom What Is the People with Actually Summon and Then What's the Entity Which Is Summon It if You Tell Me Its Nature so It's Not a God I Want To See the Proof of that as I Showed in Their Lectures
