Intro

Injector Launcher 5000

Unbolting and removing the EGR Tube, WOW, that looks awful!

Pulling the EGR valve \u0026 Cooler

Removing the CP4 injection pump and checking for glitter

This injector is just not interested in leaving. HAVE IT YOUR WAY, YOU CAN STAY

Starting to unbolt the intake manifold

I have to remove the WHAT to get this intake manifold off?

Unbolting the RH Exhaust manifold

Unbolting the LH exhaust manifold, this one is tougher

Pulling the intake manifold and looking at the intake ports. THIS IS TERRIBLE!

Peeling off the RH Valve cover. Its clean?

Removing the water pump, SCHMOO!

The stuck injector debacle. Injector 1, valve cover 0

Removing the crank pulley bolt and crank pulley, then unbolting the lower timing cover

Peeling the timing system apart, WATCHOUT!

Cramming the cam cramps loose on the RH cylinder head.

Inspecting the Cams, caps and journals for damage. Grey Oil?

Cracking the head bolts loose on the right cylinder head

First look at the right bank's bores, pistons and cylinder head

SCIENCE for the right

Cram the cam cramps loose on the Left bank, working around the injector

inspecting the left head's valvetrain, cams, caps and journals

Cracking the head bolts loose on the left cylinder head

WHAT THE HECK. Was this intentional?

SCIENCE for the left

We broke it. Now it's stuck!

unbolting the lower oil pan. Its full of... the FORBADEN GLITTER

Unbolting the removing the upper oil pan

too much

Removing the dismantling the oil pump, or should I say, bearing pump?

Unbolting the bed plate and removing it, it turns again!

THE MONEY SHOT! How does it do that on so many journals!?

Removing the first two rods and pistons

Unbolting the final two rod caps, and lifting the crank out

Complete rotating assembly inspection. Crankshaft, Rod bearings, main bearings, thrust bearing, pistons, rings, rods, bores and block. Tore up from the bore up!

Summary
