

# 2024

## **ICGG 2024 - Proceedings of the 21st International Conference on Geometry and Graphics**

This three-volume book gathers peer-reviewed papers presented at the 21st International Conference on Geometry and Graphics (ICGG 2024), held in Kitakyushu, Japan, on August 5–9, 2024. The conference started in 1978 and is promoted by the International Society for Geometry and Graphics, which aims to foster international collaboration and stimulate the scientific research and teaching methodology in the fields of Geometry and Graphics. The ICGG 2024 covered the following five topics taken over from ICGG 2022: Theoretical Graphics and Geometry; Applied Geometry and Graphics; Engineering Computer Graphics; Graphics Education; Geometry and Graphics in History, to which a Related Topic section was added in response to the growing body of research on Geometry and Graphics. Volume 1 collects papers on three of these topics: Theoretical Graphics and Geometry, Graphics Education, and Related Topics. Given its breadth of coverage, the book introduces engineers, architects, and designers interested in computer applications, graphics, and geometry to the latest advances in the field, with a particular focus on science, the arts, and mathematics education.

## **Entertainment Computing – ICEC 2024**

This book constitutes the refereed proceedings of the 23rd International Conference on Entertainment Computing (IFIP-ICEC 2024) which was held in Manaus, Brazil, during September 30 – October 3, 2024. The 13 full papers, 8 short papers and 17 papers of other types presented in this volume were carefully reviewed and selected from 60 submissions. The works collected in this volume discuss latest findings in the areas of Game Experience, Player Engagement and Analysis, Serious Gameplay, Entertainment Methods and Tools, Extended Reality and Game Design.

## **Born of Blood**

Jayne Erixour believes she knows everything about the universe. As a bounty hunter and assassin, she's seen the worst dregs of humanity and every sentient species ever spat out of a hell realm. To her, there is no truth outside of her blaster's recoil and her resolve to let no one get too close. Hadrian Scalera is on the run from the same brutal assassins who slaughtered every member of his family, both birth and foster. He has no refuge and no one he dares to call friend, as it will mean the end of them. He expects no mercy from anyone, until the day one assassin hesitates to pull the trigger. An assassin's code is simple: Kill or be killed. No prey, no pay. Every life has a price. If Jayne doesn't fulfill her contract and kill Hadrian, she'll be the next target on the League's menu. But as old enemies return to hunt them both, they quickly learn that neither will survive unless they can learn to trust each other. Yet things are never so simple and survival means only one of them can be left standing . . .

## **Medical Image Computing and Computer Assisted Intervention – MICCAI 2024**

The 12-volume set LNCS 15001 - 15012 constitutes the proceedings of the 27th International Conference on Medical Image Computing and Computer Assisted Intervention, MICCAI 2024, which took place in Marrakesh, Morocco, during October 6–10, 2024. MICCAI accepted 857 full papers from 2781 submissions. They focus on neuroimaging; image registration; computational pathology; computer aided diagnosis, treatment response, and outcome prediction; image guided intervention; visualization; surgical planning, and surgical data science; image reconstruction; image segmentation; machine learning; etc.

## **Myanmar Agricultural Performance Survey (Dry Season 2024): Farm commercialization and farm services**

? The security situation in Myanmar continues to negatively impact commercialization for crop farmers. During the monsoon season interview period (July–September 2024): a) Thirty-one percent of farmers reported feeling 'very insecure' or 'insecure'. b) Twenty-three percent expressed serious security concerns to move around in their village tract or township. c) Seven percent stated that conflict prevented the cultivation of some agricultural fields in their area. d) One percent reported land confiscation as a problem in their community. e) Eleven percent indicated fear of storing produce at home due to the risk of confiscation or destruction. ? Security challenges for farming vary across states and regions, with the Delta area - the country's rice bowl - experiencing relatively better conditions. ? Limited access to fuel, crucial for irrigation and mechanization among others, poses a significant constraint to farming. Nationally, about one-fifth and 40 percent of farmers reported either no or rare availability of fuel in their communities during the dry season and monsoon season of 2024 respectively. This situation during the monsoon is exacerbated in almost all of the states and regions, especially in the conflict-affected areas of Kayah, Shan, and Chin, with around 60 percent of the farmers reporting fuel scarcity. ? Agricultural inputs were generally accessible during the 2024 dry season, indicating the resilience of the private sector in delivering these inputs. However, 5 percent of farmers reported unavailability of chemical fertilizers and seeds - a higher share than in the 2023 dry season - while 16 percent reported problems in securing agricultural labor. ? Farmers in conflict-affected areas face more obstacles in farm commercialization, with agricultural inputs being much less available. ? Input prices rose during the 2024 dry season compared to the same period in 2023. Mechanized plowing costs increased by 29 percent, while hired labor costs saw a rise of 33 percent for men and 32 percent for women. Urea prices experienced a modest increase of 3 percent. In the 2024 monsoon season, wages surged further compared to the preceding dry season, with men's wages rising by 16 percent and women's by 17 percent. These recent increases may be partly attributed to the introduction of the new Military Service Law. ? Agricultural service delivery continues to decline, with fewer farmers able to access credit and agricultural extension services compared to previous years during the dry season of 2024. ? All crop prices increased substantially compared to the previous dry season. While paddy prices increased by 14 percent, non-paddy crop prices increased significantly more.

## **Proceedings of 4th 2024 International Conference on Autonomous Unmanned Systems (4th ICAUS 2024)**

This book includes original, peer-reviewed research papers from the 4th ICAUS 2024, which provides a unique and engaging platform for scientists, engineers and practitioners from all over the world to present and share their most recent research results and innovative ideas. The 4th ICAUS 2024 aims to stimulate researchers working in areas relevant to intelligent unmanned systems. Topics covered include but are not limited to: Unmanned Aerial/Ground/Surface/Underwater Systems, Robotic, Autonomous Control/Navigation and Positioning/ Architecture, Energy and Task Planning and Effectiveness Evaluation Technologies, Artificial Intelligence Algorithm/Bionic Technology and their Application in Unmanned Systems. The papers presented here share the latest findings in unmanned systems, robotics, automation, intelligent systems, control systems, integrated networks, modelling and simulation. This makes the book a valuable resource for researchers, engineers and students alike.

## **Climate Change at the UN Security Council**

This book examines the operation of the United Nations Security Council (UNSC) to better understand the motivating factors that underpin its activation of Article 39. Arguing that climate change should be considered a threat to international peace and security, the theory of securitisation is employed to dissect the UNSC and identify the power dynamics that dictate when and why Article 39 is activated. Exploring how contemporary threats to peace and security can unite the agenda of the UNSC and shedding light on the

narratives used to reach consensus, the author considers how this knowledge might be purposed to support the transition of climate change into the realm of Article 39. How necessary and useful a UNSC resolution would be is given thought, and a possible pathway to achieving it is outlined. Aimed at academics and institutions that commentate on the UNSC, climate change, securitisation theory and undergraduate and postgraduate students of law, international relations, UN law, and those undertaking environmental studies, this book will also be of interest to practitioners and diplomats in and outside of the UN and anyone seeking to further the climate security nexus.

## **Computer Aided Systems Theory – EUROCAST 2024**

This three part LNCS volumes constitutes the refereed proceedings of the 19th International Conference on Computer-Aided Systems Theory, EUROCAST 2024, held in Las Palmas de Gran Canaria, Spain, during February 25 to March 1, 2024. The 104 full papers included in this book were carefully reviewed and selected from 150 submissions. They were organized in topical sections as follows : Part I : Systems Theory, Applications, Pioneers, and Landmarks; Theory and Applications of Metaheuristic Algorithms; Mechatronic Product Development; and Model-Based System Design, Verification and Simulation. Part II : Applications of Signal Processing Technology; Applied Data Science and Engineering for Intelligent Transportation Systems and Smart Mobility; Computer and Systems Based Methods and Electronic Tools in Clinical and Academic Medicine ; Systems in Industrial Robotics, Automation and IoT; Systems Thinking: Applications in Technology, Science and Management; and Data Science in Medical and Bio-Informatics. Part III : Modeling, Simulation, and Optimization in Production and Logistics; \"Green AI\" and SW-Tools for Sustainable Energy and Materials Consumption; Stochastic Models, Statistical Methods, and Applied Systems Simulations; and Systems Cybersecurity Technologies and Quantum Approaches Potentials.

## **Computer Vision – ECCV 2024**

The multi-volume set of LNCS books with volume numbers 15059 upto 15147 constitutes the refereed proceedings of the 18th European Conference on Computer Vision, ECCV 2024, held in Milan, Italy, during September 29–October 4, 2024. The 2387 papers presented in these proceedings were carefully reviewed and selected from a total of 8585 submissions. They deal with topics such as Computer vision, Machine learning, Deep neural networks, Reinforcement learning, Object recognition, Image classification, Image processing, Object detection, Semantic segmentation, Human pose estimation, 3D reconstruction, Stereo vision, Computational photography, Neural networks, Image coding, Image reconstruction and Motion estimation.

## **Kurukshetra September 2024 (English)**

A monthly published in Hindi and English. The journal is devoted to all aspects of rural reconstruction and village democracy. The journal carries educative and informative articles on rural development and is useful for scholars, academicians and students preparing for civil services and other competitive examinations.

## **The Laws of Wisconsin**

Includes some separate vols. for special sessions.

## **Private and Local Acts Passed by the Legislature of Wisconsin**

Some volumes issued in two parts.

## **Examining Net Zero**

In Examining Net Zero, authors delve into seven case studies illustrating economic and political issues tied to

climate change and the transition to sustainable systems, addressing challenges and progress towards the UN Sustainable Development Goals.

## **Democracy, Politics & Governance**

Embark on a thought-provoking exploration of the dynamics of democracy, politics, and governance with A. Surya Prakash's insightful book, \"Democracy, Politics & Governance.\" Step into the complex world of governance and political systems as Prakash delves deep into the fundamental principles and practices that underpin modern democracies. Through rigorous analysis and compelling arguments, he offers readers a comprehensive understanding of the challenges and opportunities facing democratic societies around the world. Themes of accountability, transparency, and civic engagement permeate the narrative, inviting readers to reflect on the essential components of a healthy and functioning democracy. From the role of political institutions in safeguarding individual rights to the importance of citizen participation in shaping public policy, Prakash's book serves as a valuable resource for anyone interested in the workings of democratic governance. Through insightful analysis and real-world examples, Prakash explores the intricacies of political systems and the factors that contribute to their success or failure. From the complexities of coalition politics to the challenges of managing diversity in multicultural societies, \"Democracy, Politics & Governance\" offers readers a nuanced understanding of the dynamics at play in contemporary governance. The overall tone of the book is one of optimism and civic responsibility, as Prakash emphasizes the potential of democracy to foster positive change and empower citizens to shape their collective destiny. With its blend of scholarly research and accessible prose, \"Democracy, Politics & Governance\" is a compelling read for anyone interested in the future of democratic societies. \"Democracy, Politics & Governance\" has earned acclaim for its insightful analysis, rigorous scholarship, and thought-provoking insights into the workings of democratic governance. Critics and readers alike have praised Prakash's ability to tackle complex issues with clarity and precision, making this book a must-read for students, policymakers, and concerned citizens alike. Whether you're a student of political science, a practitioner of governance, or simply a concerned citizen, \"Democracy, Politics & Governance\" offers a timely and informative exploration of the challenges and opportunities facing democracies in the 21st century. Grab your copy now and join the conversation about the future of democratic governance.

## **United States District Courts Sentences Imposed Chart**

This book is the largest referral for Turkish companies.

## **06 Company Book - PAPER AND STATIONERY**

This book provides a unique opportunity to explore the current and future state of accessibility, inclusivity, and diversity across higher education and beyond. Although these chapters primarily focus on the issues and resulting adaptations seen in biomedicine, the results and observations are applicable throughout education and the workplace. Section 1 focuses on what it means to create accessible environments for both education and employment. Here the pitfalls of mandatory attendance across education will be addressed and ideas for building belonging amongst students shared. In addition, ways to use play-based learning to support student revision and to make psychology accessible to medical students will be discussed. Section 2 explores inclusive practices in anatomy education and research, with a toolkit for both early-career and established academics. The pedagogy, psychology, and culture of asking and answering questions in education will also be explored to support educators aiming to create inclusive learning environments. Section 3 focuses on ways in which diversity can be embraced in the educational, medical, and public sectors. Chapters include the use of human remains as teaching aids to promote the concept of the body as a spectrum, and the use of television media to create immersive learning environments. This book is an essential guide to creating accessible, inclusive, and diverse learning environments for both the early career and experienced academic.

## **Accessibility, Inclusivity and Diversity in Education and Beyond**

Clear and concise guide to MBPLE, with industrial case studies Written in a to-the-point style, Model-Based Product Line Engineering (MBPLE) is the only theoretical and practical foundational book on MBPLE that brings together the topics of model-based systems engineering (MBSE) and feature-based product line engineering (PLE). It examines how PLE can benefit from a model-based and model-centric approach and, in turn, how MBSE combined with holistic PLE can boost model reuse and improve the MBSE business case. The book combines both management and engineering aspects to deliver comprehensive coverage of the subject. The book covers real-life challenges and implementations of MBPLE, discussing adoption obstacles faced by engineering organizations and how to overcome them to ensure a successful MBPLE deployment. Dozens of SysML v2 views, SysML v1 diagrams, SysML v2 code snippets and illustrations are included throughout to elucidate key concepts. Additional supplementary learning materials are available on a companion website. Written by a team of expert authors and contributors with significant experience in the field of applied MBPLE, Model-Based Product Line Engineering (MBPLE) discusses sample topics including: Motivation for MBPLE, covering document-based to model-based engineering, project-oriented to product-line-oriented engineering, and digital continuity and system lifecycle management Foundations of MBPLE, covering basic definitions, the history of MBPLE, recent MBPLE works and standards, and the impact of MBPLE on engineering processes Implementation of MBPLE using the next generation modeling language SysML v2 Adoption of MBPLE, covering investment interests, company processes, change management and digital transformation, and methods, guidelines, coaching Model-Based Product Line Engineering (MBPLE) delivers vision, benefits, and strategic guidance for managers, executives, and business leaders while serving as a practical guide for system engineers who are new to the MBPLE discipline or already familiar with it.

## **Model-Based Product Line Engineering (MBPLE)**

Static GK (General Knowledge) Theory + MCQ Book 2025 in English for Competitions with Latest PYQ. Radian's Static General Knowledge book is useful for: SSC CGL, CPO, CHSL, MTS, GD, UPSSSC-PET, Railways, AFCAT, CDS, CAPF, NDA, IB-ACIO, Police Exams, DSSSB, Bank Exams, State Exams & Other Competitive Exams. About the book and its content: •This book covers the complete syllabus of Static GK. •Includes In-depth theory of all the chapters and previous year questions of all one day exams. •Includes 2000+ latest PYQ's. •In this book the questions are divided chapter-wise and placed in a proper sequence for easy understanding. •Covers complete syllabus of the Static GK with relevant information and easy to understand language.

## **Static GK(General Knowledge) Theory + MCQ Book 2025 in English for Competitions with Latest PYQ**

Technology is a key driver for innovation in the medical and the health sectors at large. Data-intensive applications and services can provide better and more cost-efficient solutions with high impact for improved point-of-care solutions, integrating health data from different sources, tailored to the specific health care needs of the individual, thus helping to achieve better patient management and improved clinical outcomes. In Europe, the relatively recent proposal for a regulation to set up the European Health Data Space - aiming to unleash the full potential of health data - will open new opportunities for synergies and value co-creation as part of high-performance stakeholder-driven ecosystems, while also ensuring citizens to take control of their own health data. With regard to this special Research Topic, we consider health data spaces as cross-institutional organizational and technical solutions for safe and secure health data exchange between different stakeholders for better health care and research.

## **Unlocking The Potential of Health Data Spaces With The Proliferation of New Tools, Technologies and Digital Solutions**

This product covers the following: • 100% Updated with Latest CUET(UG) 2024 Exam Paper Fully Solved • Concept Clarity with Chapter-wise Revision Notes • Fill Learning Gaps with Smart Mind Maps & Concept Videos • Extensive Practice with 300 to 900+\*Practice Questions of Previous Years (\*No. of Questions varies as per Subject) • Valuable Exam Insights with Tips & Tricks to ace CUET(UG) in 1st Attempt • Exclusive Advantages of Oswaal 360 Courses and Mock Papers to Enrich Your Learning Journey

## **Oswaal NTA CUET (UG) Chapterwise Question Bank Physical Education (For 2025 Exam)**

This new edition of The Sage Handbook of Social Network Analysis builds on the success of its predecessor, offering a comprehensive overview of social network analysis produced by leading international scholars in the field. Brand new chapters provide both significant updates to topics covered in the first edition, as well as discussing cutting edge topics that have developed since, including new chapters on: • General issues such as social categories and computational social science; • Applications in contexts such as environmental policy, gender, ethnicity, cognition and social media and digital networks; • Concepts and methods such as centrality, blockmodeling, multilevel network analysis, spatial analysis, data collection, and beyond. By providing authoritative accounts of the history, theories and methodology of various disciplines and topics, the second edition of The SAGE Handbook of Social Network Analysis is designed to provide a state-of-the-art presentation of classic and contemporary views, and to lay the foundations for the further development of the area. PART 1: GENERAL ISSUES PART 2: APPLICATIONS PART 3: CONCEPTS AND METHODS

## **The Sage Handbook of Social Network Analysis**

This Handbook examines the diverse ways in which climate change impacts Indigenous Peoples and local communities and considers their response to these changes. While there is well-established evidence that the climate of the Earth is changing, the scarcity of instrumental data oftentimes challenges scientists' ability to detect such impacts in remote and marginalized areas of the world or in areas with scarce data. Bridging this gap, this Handbook draws on field research among Indigenous Peoples and local communities distributed across different climatic zones and relying on different livelihood activities, to analyse their reports of and responses to climate change impacts. It includes contributions from a range of authors from different nationalities, disciplinary backgrounds, and positionalities, thus reflecting the diversity of approaches in the field. The Handbook is organised in two parts: Part I examines the diverse ways in which climate change – alone or in interaction with other drivers of environmental change – affects Indigenous Peoples and local communities; Part II examines how Indigenous Peoples and local communities are locally adapting their responses to these impacts. Overall, this book highlights Indigenous and local knowledge systems as an untapped resource which will be vital in deepening our understanding of the effects of climate change. The Routledge Handbook of Climate Change Impacts on Indigenous Peoples and Local Communities will be an essential reference text for students and scholars of climate change, anthropology, environmental studies, ethnobiology, and Indigenous studies.

## **Routledge Handbook of Climate Change Impacts on Indigenous Peoples and Local Communities**

This book analyzes Chinese politics, particularly the rule of Chinese Communist Party (CCP) leaders from Mao Zedong to Xi Jinping, through an examination of the country's political ideology. This book succinctly covers the DNA of Chinese politics through the philosophies of sages in China's first liberalization period during the Warring States epoch, principally those of Confucius, Mencius, Lao Zi, Zhuang Zi, Shang Yang and Han Fei. With an appreciation of these traditional ideologies, this book displays how Chinese political philosophy (which incorporates elements of Confucianist and especially Legalist thinking) has influenced ideas and policies from as early as the Qin and Han dynasties through to the Qing dynasty and even to the current day. Highlighting the controversies revolving around the flowering and contention of beliefs and isms

during China's second liberalization in the Republican Period (1912-1949), this book reveals how and why this led to the repression of the CCP era under dictators ranging from Mao Zedong to Xi Jinping. Revealing how Chinese political and philosophical legacies impact the development of ideology and policies of CCP leadership, this book will be a valuable resource to students and scholars of Chinese politics, Chinese history, and international relations.

## **From Confucius to Xi Jinping**

Prepare to compassionately care for the aging population with *Gerontologic Nursing, Seventh Edition*, uniquely known for its comprehensive coverage of the most common medical-surgical problems associated with older adults. Organized by body system for easy retrieval of information, it delves into health promotion and both basic and complex gerontologic concepts and issues. A disorder-focused approach addresses nursing management and care coordination across health care delivery settings. This text emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care — and provides you with a solid foundation to meet the future challenges of providing nursing care for the vast and growing older adult population. - NEW! Next Generation NCLEX® (NGN)-style cases and questions are included in select clinical chapters - NEW! Aging theory and nursing theory content promotes understanding of the relationship between theory and practice - NEW! Cultural content integrated throughout the text facilitates culturally congruent care practices - UPDATED! Completely revised chapters ensure content is relevant and practice-related for the gerontologic nurse - Body system chapters include an overview of age-related changes in structure and function - Current standards and guidelines are reflected throughout to ensure you are learning the most up-to-date information - Essential nursing care guidelines are presented in each clinical chapter - Psychologic and sociocultural issues and aspects of older adult care are integrated throughout the text - Clinical judgment questions at the end of chapters challenge you to apply your knowledge and clinical judgment skills - Helpful boxes throughout the text highlight key information, including: - Nursing Care Plan - Patient/Family Teaching - Health Promotion/Illness Prevention - Nutritional Considerations - Evidence-Based Practice - Emergency Treatment - Home Care - Key points and summary sections at the end of chapters reinforce the most important concepts and information - One Next Generation NCLEX® (NGN)-style case/question added to each clinical chapter - Adding content on culturally congruent care to Socioeconomic and Environmental Influences chapter - Expanded content on Pressure Injuries - Expanded content on Infection & Inflammation

## **Gerontologic Nursing - E-Book**

This standard work is one of the leading authorities on Swiss arbitration law. The fully revised and supplemented Fifth Edition provides up-to-date information on the law and practice of international and domestic arbitration in Switzerland. The book provides a comprehensive analysis of all relevant aspects of arbitration, including the concept of arbitration, the sources of arbitration, arbitrability, and all aspects concerning the validity and scope of the arbitration agreement and its autonomy. Other topics include competence-competence, the jurisdiction of the arbitral tribunal, the arbitral procedure, the effects and limits of arbitral awards, setting aside as well as the recognition and enforcement of awards in Switzerland. Frequently referred to in the case law of the Swiss Federal Supreme Court, the book is an indispensable tool for legal scholars dealing in depth with a controversial issue. At the same time, it is an invaluable and user-friendly source of information and reference for arbitration practitioners in Switzerland and abroad. The book's appendices contain useful supplementary materials, including a detailed table of cases and an accurate translation of the arbitration provisions of the Swiss Private International Law Act and the Swiss Code of Civil Procedure.

## **International and Domestic Arbitration in Switzerland**

The Conference dealt with one of the most important problems faced in International development in Pure Mathematics and Applied mathematics development in engineering such as Cryptography, Cyber Security,

Network, Operations Research, Heat Equation and so forth. The aim of the conference was to provide a platform for researchers, engineers, academicians, as well as industrial professionals, to present their research results and development activities in Pure and Apply Mathematics, and its applied technology. It provided opportunities for the delegates to exchange new ideas and application experiences, to establish business or research relations and to find global partners for future collaboration.

## **Applications of Mathematics in Science and Technology**

The latest World Economic Outlook reports signs that policy tightening is starting to cool activity despite core inflation proving persistent. Risks are more balanced as banking sector stress has receded, but they remain tilted to the downside. Monetary policy should stay the course to bring inflation to target, while fiscal consolidation is needed to tackle soaring debts. Structural reforms are crucial to revive medium-term growth prospects amid constrained policy space.

## **World Economic Outlook, October 2023**

Distributed Denial of Service (DDoS) attacks are frequently taking down websites and are making headlines. But how exactly do these attacks work? How is it possible to defend against them? Is it even possible? DDoS mitigation providers often take lengths to publicly explain how dangerous new types of attacks are, but hardly ever describe typical mitigation steps except: \"just use our services\". This book will help readers better understand the technical details of DDoS attacks and give step-by-step guidance in how to defend against them. Key topics are: Introduction to DDoS and its history, Network basics needed to understand DDoS, Datacenter technologies and their relevance, Attack origins of DDoS, Deep-dive into attacks and their mitigation, Designing DDoS mitigation systems, Active network self-defense and Internet hygiene, Introduction to the economical side of DDoS attacks The book features an appendix with DDoS risk and mitigation readiness assessments and several labs you can configure to gain first-hand experience on attack and defense.

## **DDoS: Understanding Real-Life Attacks and Mitigation Strategies**

This book comprehensively explores the intersection between traditional herbal medicine and cutting-edge nanotechnology. The chapters introduce modern techniques used in herbal extraction and analysis. The principles of drug discovery from plants are discussed, with a focus on the identification and development of bioactive compounds that have therapeutic potential. It discusses the pharmacological properties, biotechnological approaches in drug development, and challenges in the formulation and standardization of herbal medicines. Emerging trends and applications of nanotechnology in herbal pharmacotherapy, such as nanoparticle synthesis, enhanced bioavailability using nanocarriers, safety assessments, novel and targeted delivery systems, and regulatory considerations, are thoroughly discussed. Additionally, it includes a comparative analysis of traditional and nano-formulated approaches and their implementation in clinical settings. Towards the end, the book reviews the regulatory considerations for herbal products and future perspectives in herbal pharmacopeia. This book is intended for researchers, clinicians, and professionals in herbal medicine, pharmacology, and nanotechnology.

## **Annual Report of the Controller of the City of Detroit, of the Receipts and Expenditures of the Corporation, for the Fiscal Year Ending June 30 ...**

Dear Students, this Book contains 60 Super Important Questions for CA Inter Income Tax applicable for May 2025 Exam. Make the best use of it. Major Features # Very Important Questions for Practice & Last Day Revision. # Questions are arranged Topic-wise.

## **Herbal Pharmacopeia**

The five-volume set LNCS 15572, 15573, 15574, 15575 and 15576 constitutes the refereed conference proceedings of the 47th European Conference on Information Retrieval, ECIR 2025, held in Lucca, Italy, during April 6–10, 2025. The 52 full papers, 11 findings, 42 short papers and 76 papers of other types presented in these proceedings were carefully reviewed and selected from 530 submissions. The accepted papers cover the state-of-the-art in information retrieval and recommender systems: user aspects, system and foundational aspects, artificial intelligence and machine learning, applications, evaluation, new social and technical challenges, and other topics of direct or indirect relevance to search and recommendation.

## **PPI Detailed Report**

Graphene Quantum Dots and their Derived Nanocomposites: Fundamentals and Applications presents the latest advances, with emphasis placed on the structure, design, properties, processing, and technical relevance of graphene quantum dots in thermosets, thermoplastics, conducting, rubbery, and inorganic matrix nanocomposites. Applications of graphene quantum dot reinforced nanocomposites are discussed in applications in energy storage and conversion (supercapacitors, Li ion batteries, solar cells), in coatings, radiation protection, for environmental sustainability, and for biomedical (biosensing, imaging, drug therapy) systems. The book will be a valuable reference resource for academic and industrial researchers, materials scientists and engineers, physicists, chemists, biologists, and nanotechnologists working on the research and development of high-performance graphene quantum dots-based nanomaterials. - Addresses major processing, properties, and production challenges and their probable solutions - Discusses future prospects and commercial aspects - Emphasizes their structure, design, and the technical relevance of graphene quantum dots

## **CA Inter Income Tax 60 Super Important Questions for May 25**

This LNCS conference set constitutes the proceedings of the First Medical Image Segmentation Challenge, MedSAM on Laptop 2024, Held in Conjunction with CVPR 2024, in Seattle, WA, USA, held in June 2024. The 16 full papers presented were thoroughly reviewed and selected from the 200 submissions. This challenge aims to prompt the development of universal promotable medical image segmentation foundation models that are deployable on laptops or other edge devices without reliance on GPUs.

## **Advances in Information Retrieval**

Contains the Commission's annual reports and recommendations (originally published in separate pamphlets).

## **Graphene Quantum Dots and their Derived Nanocomposites**

COVID-19 continues to cause severe morbidity and ongoing mortality. Covid's Chronicities documents the shifts that have occurred in the face of the pandemic, the state and community responses to it, its continuing toll on health services, economies and communities, and its compounding effects on people's health, lives and livelihoods. This volume draws on research from across Europe, North and Latin America, Asia and Africa, providing surprising contrasts and consistencies of experience. As the pandemic has shifted from urgency to chronic unpredictability, everywhere people have struggled to make sense of state actions in infection control, testing strategies and the roll out of vaccines, and to remake social life. The contributing authors illustrate with poignancy how chronic social problems and pandemic effects have worked bidirectionally, compounding multiple inequalities and exacerbating, for some, despair and disassociation. They also demonstrate the ingenuity of communities – of Indigenous ways of knowing and providing care in some settings, and elsewhere, the power of robust local community networks and informal innovations. While this book exposes the pandemic's exploitation of deep structures of state and societal neglect, and

describes the resultant morass, it also illustrates the determination and imaginations of caring communities to withstand Covid's harms.

## **Medical Image Segmentation Foundation Models. CVPR 2024 Challenge: Segment Anything in Medical Images on Laptop**

Far too many of us have no idea how our bodies really work. The good news? This comprehensive guide provides a regenerative, energy-boosting approach to wellness that will empower you to live the life you want. Holistic dentist and wellness provider Dr. Michelle Jorgensen has seen patient after patient come to her overwhelmed by a deluge of options, misinformation, and conflicting opinions. In today's sea of often confusing advice on how to make healthy choices, it can be challenging to weed out the valuable tips from all the rest. She's here to change that. With more than 30 recipes, from healthy smoothies to slow cooker staples, *Living Well with Dr. Michelle* simplifies the quest for better health based on the best practices from time-tested natural wisdom and evidence-based modern science to: Promote total body wellness starting with the tiny, living building blocks that make up your body Tap into nature's five elements—fire, earth, plants, water, and air—for better health in everyday life Harness the power of electrons to deliver the energy your body needs to repair and recharge Jumpstart your journey to better health by knowing what questions to ask and taking an active role in your wellness Packed with self-assessment tools and other resources to help you enact these principles in your own life, *Living Well with Dr. Michelle* will ensure that you can not only stay healthy, but learn to live well.

## **Reports, Recommendations and Studies**

A composite sandwich panel is a hybrid material made up of constituents such as a face sheet, a core, and adhesive film for bonding the face sheet and core together. Advances in materials have provided designers with several choices for developing sandwich structures with advanced functionalities. The selection of a material in the sandwich construction is based on the cost, availability, strength requirements, ease of manufacturing, machinability, and post-manufacturing process requirements. *Sandwich Composites: Fabrication and Characterization* provides insights into composite sandwich panels based on the material aspects, mechanical properties, defect characterization, and secondary processes after the fabrication, such as drilling and repair. *FEATURES* Outlines existing fabrication methods and various materials aspects Examines composite sandwich panels made of different face sheets and core materials Covers the response of composite sandwich panels to static and dynamic loads Describes parameters governing the drilling process and repair procedures Discusses the applications of composite sandwich panels in various fields Explores the role of 3D printing in the fabrication of composite sandwich panels Due to the wide scope of the topics covered, this book is suitable for researchers and scholars in the research and development of composite sandwich panels. This book can also be used as a reference by professionals and engineers interested in understanding the factors governing the material properties, material response, and the failure behavior under various mechanical loads.
