## Drive

A book that will change how you think and transform how you live Forget everything you thought you knew about how to motivate people - at work, at school, at home. It is wrong. As Daniel H. Pink explains in his paradigm-shattering book Drive, the secret to high performance and satisfaction in today's world is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and the world. Along the way, he takes us to companies that are enlisting new approaches to motivation, and introduces us to the scientists and entrepreneurs who are pointing a bold way forward.

## The Progress Principle

What really sets the best managers above the rest? It's their power to build a cadre of employees who have great inner work lives—consistently positive emotions; strong motivation; and favorable perceptions of the organization, their work, and their colleagues. The worst managers undermine inner work life, often unwittingly. As Teresa Amabile and Steven Kramer explain in The Progress Principle, seemingly mundane workday events can make or break employees' inner work lives. But it's forward momentum in meaningful work—progress—that creates the best inner work lives. Through rigorous analysis of nearly 12,000 diary entries provided by 238 employees in 7 companies, the authors explain how managers can foster progress and enhance inner work life every day. The book shows how to remove obstacles to progress, including meaningless tasks and toxic relationships. It also explains how to activate two forces that enable progress: (1) catalysts—events that directly facilitate project work, such as clear goals and autonomy—and (2) nourishers—interpersonal events that uplift workers, including encouragement and demonstrations of respect and collegiality. Brimming with honest examples from the companies studied, The Progress Principle equips aspiring and seasoned leaders alike with the insights they need to maximize their people's performance.

## Friday Forward

"Wake up. Get inspired. Change the world. Repeat. Global business leader and national bestselling author, Robert Glazer, believes we all have a responsibility to each other: to give one another the inspiration and support we need to be our best. What started as a weekly note known as Friday Forward to his team of forty has turned into a global movement reaching over 200,000 leaders across sixty countries and continually forwarded to friends and family. In FRIDAY FORWARD, Robert shares fifty-two of his favorite stories with real life examples that will motivate you to grow and push you to be your best self. He encourages you to use

this book as part of a positive and intentional Friday morning routine to get the weekend started on a forward-looking note that will carry you through the week. At once uplifting and deeply thought-provoking, these stories will challenge you to propel yourself outside your comfort zone to unlock your innate potential. By making small, intentional changes, you have the power to create lasting impact, not only in your own life, but also to inspire those around you to do the same. Today is the perfect day to start\ "--

## **Motivation + Discipline = Success**

If you want to accomplish what's important to you, discipline and willpower won't get you where you need to go. In this iconoclastic new book, Susan Fowler reveals compelling insights and actions to help you master and maintain your motivation. Motivation is at the heart of everything you do and everything you want to do but don't. Unfortunately, the ways we typically motivate ourselves don't work. Relying on sheer determination eventually becomes exhausting—it's not sustainable. And even setting goals can backfire—if you're not setting them for the right reasons. Susan Fowler says motivation is energy, and what matters is the quality, not the quantity. Traditional “motivators” such as fear, guilt, or the promise of a reward provide low-quality, short-term energy. Drawing on the latest empirical research, she proves that high-quality, optimal motivation is a skill that you can learn and apply. Science tells us that satisfying three basic needs—for choice, connection, and competence—is essential to optimal motivation. You need to feel like you've picked your path, not that you're being driven down it. Your goal should be linked to people or a purpose meaningful to you. And you want to continually learn and grow. Through practical exercises and eye-opening stories, Fowler shows you how to identify and shift the quality of your motivation. The skill to master your motivation is important—it may be your greatest opportunity to evolve, grow in wisdom, and be the light the world so desperately needs.

This volume covers the current status of research in the neurobiology of motivated behaviors in humans and other animals in healthy condition. This includes consideration of the psychological processes that drive motivated behavior and the anatomical, electrophysiological and neurochemical mechanisms which drive these processes and regulate behavioural output. The volume also includes chapters on pathological disturbances in motivation including apathy, or motivational deficit as well as addictions, the pathological misdirection of motivated behavior. As with the chapters on healthy motivational processes, the chapters on disease provide a comprehensive up to date review of the neurobiological abnormalities that underlie motivation, as determined by studies of patient populations as well as animal models of disease. The book closes with a section on recent developments in treatments for motivational disorders.

New York Times bestselling author T.C. Boyle speaks to a brand-new audience in this anthology of his classic, richly imagined short fiction about teenagers. His many, varied novels are part of the American literary landscape—but one of the best ways to appreciate T. C. Boyle is through his richly imagined short fiction. Boyle's kaleidoscopic humor and wit, his keen, unforgiving take on American life, and his all-too-human protagonists all combine to make his a singular voice. Here is a collection of classic Boyle stories about teenagers (including the O. Henry Award-winning "The Love of My Life") that will speak directly to them, as well as to anyone who was once a teenager. Includes the previously uncollected story, "Almost Shooting an Elephant." "Boyle repeatedly demonstrates his masterful grasp of human nature, exposing his characters' foibles and eccentricities."—Publishers Weekly

As I begin to write this Preface, I feel a rush of excitement. I have now finished the book; my gestalt is coming into completion. Throughout the months that I have been writing this, I have, indeed, been intrinsically motivated. Now that it is finished I feel quite competent and self-determining (see Chapter 2). Whether or not those who read the book will perceive me that way is also a concern of mine (an extrinsic one), but it is a wholly separate issue from the intrinsic rewards I have been experiencing. This book presents a theoretical perspective. It reviews an enormous amount of research which establishes unequivocally that intrinsic motivation exists. Also considered herein are various approaches to the conceptualizing of intrinsic motivation. The book concentrates on the approach which has developed out of the work of Robert White (1959), namely, that intrinsically motivated behaviors are ones which a person engages in so that he may feel competent and self-determining in relation to his environment. The book then considers the development of intrinsic motivation, how behaviors are motivated intrinsically, how they relate to and how intrinsic motivation is extrinsically motivated behaviors, affected by extrinsic rewards and controls. It also considers

how changes in intrinsic motivation relate to changes in attitudes, how people attribute motivation to each other, how the attribution process is motivated, and how the process of perceiving motivation (and other internal states) in oneself relates to perceiving them in others.

"Warning: Your career might be in danger of going off the rails. You probably have blind spots that are leaving you closer to the edge than you realize. Fortunately, Carter Cast has the solution. In this smart, engaging book he shows you how to avoid career derailment by becoming more self-aware, more agile, and more effective. This is the book you wish you had twenty years ago, which is why you should read it now."

-- Daniel H. Pink, New York Times bestselling author of *Drive* and *To Sell Is Human*

*The Right -- and Wrong -- Stuff* is a candid, unvarnished guide to the bumpy road to success. The shocking truth is that 98 percent of us have at least one career-derailment risk factor, and half to two-thirds actually go off the rails. And the reason why people get fired, demoted, or plateau is because they let the wrong stuff act out, not because they lack talent, energy, experience, or credentials. Carter Cast himself had all the right stuff for a brilliant career, when he was called into his boss's office and berated for being obstinate, resistant, and insubordinate. That defining moment led to a years-long effort to understand why he came so close to getting fired, and what it takes to build a successful career. His wide range of experiences as a rising, falling, and then rising star again at PepsiCo, an entrepreneur, the CEO of Walmart.com, and now a professor and venture capitalist enables him to identify the five archetypes found in every workplace. You'll recognize people you work with (maybe even yourself) in Captain Fantastic, the Solo Flyer, Version 1.0, the One-Trick Pony, and the Whirling Dervish, and, thanks to Cast's insights, they won't be able to trip up your future.

The Motivation Manifesto is a poetic and powerful call to reclaim your life and find your own personal freedom from Brendon Burchard – the world's #1 high performance coach and #1 New York Times bestselling author of *High Performance Habits*. "It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho

The Motivation Manifesto is a call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Brendon says, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Brendon motivates us to free ourselves from fear and take back our lives once and for all. In this life-changing personal growth book, Brendon presents his nine declarations for personal power and motivation, drawing on insights from his own personal journey and from the lives of some of history's greatest leaders and thinkers. Each chapter focuses on one of the nine declarations, offering practical strategies and exercises to help you apply these principles to your life. Whether you're seeking to overcome self-doubt, boost your confidence, or achieve your goals, The Motivation Manifesto is an invaluable guide to unlocking your full potential. With its inspiring message and actionable advice, this bestselling book is a must-read for anyone who wants to unleash their inner greatness with the power of determination, resilience, and an empowering mindset.

Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his resume, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the *Forbes* magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, *On Purpose*, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, *Think Like a Monk* reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Los Angeles transportation's epic scale--its iconic freeways, Union Station, Los Angeles International Airport and the giant ports of its shores--has obscured many offbeat transit stories of moxie and eccentricity. Triumphs such as the Vincent Thomas Bridge and Mac Barnes's Ground Link buspool have existed alongside such flops as the Santa Monica Freeway Diamond Lane and the Oxnard-Los Angeles Caltrain commuter rail. The City of Angels lacks a propeller-driven monorail and a freeway in the paved bed of the Los Angeles River, but not for a lack of public promoters. Horace Dobbins built the elevated California Cycleway in Pasadena, and Mike Kadletz deployed the Pink Buses for Orange County kids hitchhiking to the beach. Join Charles P. From Inc.com's most popular columnist, a counterintuitive--but highly practical--guide to finding and maintaining the motivation to achieve great things. It's comforting to imagine that superstars in their fields were just born better equipped than the rest of us. When a co-worker loses 20 pounds, or a friend runs a

marathon while completing a huge project at work, we assume they have more grit, more willpower, more innate talent, and above all, more motivation to see their goals through. But that's not actually true, as popular Inc.com columnist Jeff Haden proves. "Motivation" as we know it is a myth. Motivation isn't the special sauce that we require at the beginning of any major change. In fact, motivation is a result of process, not a cause. Understanding this will change the way you approach any obstacle or big goal. Haden shows us how to reframe our thinking about the relationship of motivation to success. He meets us at our level--at the beginning of any big goal we have for our lives, a little anxious and unsure about our way forward, a little burned by self help books and strategies that have failed us in the past—and offers practical advice that anyone can use to stop stalling and start working on those dreams. Haden takes the mystery out of accomplishment, proving that success isn't about spiritual awakening or a lightning bolt of inspiration --as Tony Robbins and adherents of The Secret believe--but instead, about clear and repeatable processes. Using his own advice, Haden has consistently drawn 2 million readers a month to his posts, completed a 107-mile long mountain bike race, and lost 10 pounds in a month. Success isn't for the uniquely-qualified; it's possible for any person who understands the true nature of motivation. Jeff Haden can help you transcend average and make lasting positive change in your life.

"The best parts of you are hidden where you're most afraid to look." --Michael Benner, Fearless Intelligence  
 "Fear is a doorway to understanding yourself better. The secret is to plumb the depth and breadth of your anxiety and confusion in relaxed levels of expanded awareness. Becoming more self-aware of your anxious feelings reveals the personal wisdom hidden within heartache and upset. "As we understand our self better, we become less alienated and more content -- calmer, happier, and more self-confident. Fewer random thoughts demand our attention. This or that occurs as this and that, and behavior becomes less reflexive -- more appropriate, even-tempered and well reasoned. Soon, defensiveness yields to acceptance, competition surrenders to cooperation -- lines fade, borders dissolve, and your perspective expands to include the 'Wholeness' of life."

Part fairy-tale, part magic, yet always savagely realistic Claire Fuller's haunting and powerful debut *Our Endless Numbered Days* will appeal to fans of Eowyn Ivey's *The Snow Child* and Christian Baker Kline's *Orphan Train*. Peggy Hillcoat is eight years old when her survivalist father, James, takes her from their home in London to a remote hut in the woods and tells her that the rest of the world has been destroyed. Deep in the wilderness, Peggy and James make a life for themselves. They repair the hut, bathe in water from the river, hunt and gather food in the summers and almost starve in the harsh winters. They mark their days only by the sun and the seasons. When Peggy finds a pair of boots in the forest and begins a search for their owner, she unwittingly begins to unravel the series of events that brought her to the woods and, in doing so, discovers the strength she needs to go back to the home and mother she thought she'd lost. After Peggy's return to civilization, her mother learns the truth of her escape, of what happened to James on the last night out in the woods, and of the secret that Peggy has carried with her ever since.

Frustrating, nerve-wracking, job-winning or job-losing, flawed yet necessary - auditioning is a maddening business for everyone involved. The people behind the audition desk are looking for a killer audition (often under tremendous pressure), but most of the auditionees walk into the room feeling nervous, unprepared, and unable to control their own performance. Although the idea of creating 'winning performance strategies' is common in business and sports studies, no one has ever really attempted to bring the psychology of creating a winning performance to a book on auditioning. Drawing on some fascinating, cutting-edge research into how the brain copes and responds in high-stress situations, Mastering the Audition looks closely at the effects of fear, at our flawed ability to assess or really know ourselves, at what really drives us, and at what it really takes to master the audition experience. Applicable to all areas of performing, including reality television, musicals, stage, film and commercials, this book helps you hone your performing skills and develop the mental toughness that can keep you going through the inevitable ups and downs of the audition process. Where other books advise you to 'be confident' and 'be prepared', Mastering the Audition tells you exactly HOW.

Harry H. Corbett rose from the slums of Manchester to become one of the best-known television stars of the 20th century. Having left home as a 17-year-old Royal Marine during the Second World War, he fought in the North Atlantic and the jungles of the Pacific and witnessed first-hand the devastation wrought by the Hiroshima bomb. On his return home he wandered into the local theatre company and landed a starring role – *The Front Legs of the Cow*. Soon becoming a leading light in Joan Littlewood's Theatre Workshop and a widely-respected classical stage actor, his life was changed forever by the television comedy *Steptoe and Son*. Overnight he became a household name as the series drew unparalleled viewing figures of over 28 million, with fans ranging from the working classes to the Royal Family. Naturally shy and a committed socialist, fame and fortune didn't sit easily on his shoulders, and for the next twenty years, until his untimely death at the age of only 57, he had to learn how to be 'Arold'. Written by his daughter, Susannah Corbett, an

actor herself, this is the first biography of Harry H. Corbett, the man who was once described as being 'the English Marlon Brando'.
