The Citadel

Combining the rugged action of *Labyrinth* with the haunting mystery of *Sepulchre*, #1 bestselling author Kate Mosse's eagerly awaited *Citadel* is a mesmerizing World War II story of daring and courage, in which a group of determined women fighting for the French Resistance risk their lives to save their homeland . . . and protect astonishing secrets buried in time. France, 1942. In Carcassonne, a colorful historic village nestled deep in the Pyrenees, a group of courageous women are engaged in a lethal battle. Like their ancestors who fought to protect their land from Northern invaders seven hundred years before, these members of the resistance—codenamed *Citadel*—fight to liberate their home from the Nazis. But smuggling refugees over the mountains into neutral territory and sabotaging their German occupiers at every opportunity is only part of their mission. These women must also protect an ancient secret that, if discovered by their ruthless enemies, could change the course of history. A superb blend of rugged action and haunting mystery, *Citadel* is a vivid and richly atmospheric story of love, faith, heroism, and danger—and a group of extraordinary women who dare the impossible to survive.

The *Meditations* of Marcus Aurelius are treasured today--as they have been over the centuries--as an inexhaustible source of wisdom. And as one of the three most important expressions of Stoicism, this is an essential text for everyone interested in ancient religion and philosophy. Yet the clarity and ease of the work's style are deceptive. Pierre Hadot, eminent historian of ancient thought, uncovers new levels of meaning and expands our understanding of its underlying philosophy. Written by the Roman emperor for his own private guidance and self-admonition, the *Meditations* set forth principles for living a good and just life. Hadot probes Marcus Aurelius's guidelines and convictions and discerns the hitherto unperceived conceptual system that grounds them. Abundantly quoting the *Meditations* to illustrate his analysis, the author allows Marcus Aurelius to speak directly to the reader. And Hadot unfolds for us the philosophical context of the *Meditations*, commenting on the philosophers Marcus Aurelius read and giving special attention to the teachings of Epictetus, whose disciple he was. The soul, the guiding principle within us, is in Marcus Aurelius's Stoic philosophy an inviolable stronghold of freedom, the "inner citadel." This spirited and engaging study of his thought offers a fresh picture of the fascinating philosopher-emperor, a fuller understanding of the tradition and doctrines of Stoicism, and rich insight on the culture of the Roman empire in the second century. Pierre Hadot has been working on Marcus Aurelius for more than twenty years; in this book he distills his analysis and conclusions with extraordinary lucidity for the general reader.

Based on folklore, legends and myths, and backed by meticulous research, *Citadel of Love* is set in Odisha of the thirteenth-century-considered the state's golden age, when the Konark temple was being built under King Narasimha Deva's patronage. A modern-day foreigner, Charles, arrives with his fiancée to study the Konark region. As he discovers palm leaf manuscripts and records tales that were handed down generations, he begins to have strange experiences. A woman's statue, in particular, haunts him till he is transported to a time when she was alive and the Konark complex was under construction. Two mystical love stories of the past unfold, even as new romance blooms in Charles' life. Surreal, mysterious and often bordering on the magical-real, this is a tale of passion that spans centuries.

The Inner Citadel

In the heart of South Carolina, amidst the echoes of history and tradition, stands The Citadel, a military college steeped in legacy and honor. Yet, behind the imposing walls of this storied institution, a battle was fought—a battle that would reshape the Citadel's destiny and challenge the very foundations of gender equality in America. This book chronicles the Citadel's tumultuous journey from an all-male bastion to a coeducational institution, shedding light on the legal battles, societal shifts, and personal struggles that shaped its transformation. At the center of this narrative is Shannon Faulkner, a determined young woman whose unwavering resolve shattered the Citadel's male-only admissions policy and paved the way for women to pursue careers in previously male-dominated fields. Through the lens of the Citadel's transformation, this book explores the broader implications of gender equality, leadership, and the role of tradition in a changing world. It delves into the challenges faced by women in a historically male-dominated environment, the Citadel's efforts to adapt and evolve, and the impact of these changes on the institution's identity and reputation. Beyond the Citadel's walls, this book examines the broader cultural shifts that influenced its transformation. It explores the changing attitudes towards gender roles in American society, the rise of feminism, and the legal and social battles that have shaped the landscape of gender equality. The Citadel's journey serves as a microcosm of these larger societal changes, offering a unique perspective on the evolution of American values and norms. This book is not merely a chronicle of events; it is an exploration of the human spirit, the power of perseverance, and the resilience of institutions in the face of change. It is a story of courage, determination, and the unwavering belief in the power of equality. Through the Citadel's transformation, this book offers a glimpse into the ever-evolving nature of society, the enduring power of tradition, and the boundless possibilities that arise when barriers are broken and new paths are forged. The Citadel of Dreams

This architectural history of the Citadel of Cairo uses indices from maps, photographs, plans of hitherto unstudied structures, and a large array of historical documents to chronologically reconstruct the Citadel's development from its foundation by Salah al-Din until it reached its most monumental form in the middle of the fourteenth century. The study analyzes the influence of Mamluk socio-political hierarchy on the conceptualization of the Citadel's spaces and forms; assesses its impact on medieval Cairo; proposes a new interpretation for the development of Mamluk royal architecture; and presents new definitions for a number of medieval architectural terms. By weaving the history of the Citadel together with the history of Cairo and the Mamluk system, this book is relevant to historians of architecture and urbanism and medieval historians.

The Citadel

From the author: When Citadel Values went to press, we began looking for an educational tool to capture the lessons and fortify our students in the greater world beyond the Lesesne Gate. Also, answering prompting calls for a longer book with more essays of comfort and wisdom, we created a publication that has accomplished more than we sought. This book is the result. It reflects my thinking and writing during tumultuous economic times and of great stress on our body politic. Stress is often the time of greatest growth. I am hopeful, as we traverse these \"bumps in the road,\" that our American Ark will come out the better. What I can assure you is that The Citadel will continue on its path of producing men and women of distinction and character to lead the next generation.

The Citadel of Cairo

Short stories about character-building experiences at the storied military academy in the 1960s From its founding in 1842 the Citadel has been steeped in tradition. There have been changes through the years, but the basics of the military code and the plebe system have remained constant. Citadel graduate Tom Worley has crafted this collection of short stories about life at the South Carolina military academy during the 1960s. While the stories are fictional, they are inspired in part by his days as a student on the college campus. With humor and dramatic clarity, Worley reveals the harshness of the plebe system, how success is achieved through perseverance, and the character-building benefits of a Citadel education. These seventeen stories are told from the perspective of two main characters—cadets Pete Creger and Sammy Graham—who are members of F Company. By turns surprising and entertaining, the collected stories range from the emotional and physical trials of being a knob in the plebe system, the brutality of hazing, and the fear and fun of company pranks, to the friendship and camaraderie the system fosters and the tremendous pride shared by those who wear the coveted Citadel ring. Best known for its Corps of Cadets, the Citadel attracts students who desire a college education within a classical military system in which leadership and character training are essential parts of the overall experience. Any romanticized notion of military bravado is quickly shattered the moment students set foot on campus and their parents drive away. Many cadets are left wondering, "What have I signed up for?" Worley's stories shed light on the pain and the pride, explaining why, he says, "most cadets at the Citadel hated the place while they were there and loved everything about it once they'd graduated. They were bonded together for life. Perhaps that's the greatest thing the Citadel did for them."

\\"Citadel to City-State serves as an excellent summarization of our present knowledge of the not-so-dark Dark Age as well as an admirable prologue to the understanding of the subsequent Archaeic and Classical

periods.\" -- David Rupp, Phoenix The Dark Age of Greece is one of the least understood periods of Greek history. A terra incognita between the Mycenaean civilization of Late Bronze Age Greece and the flowering of Classical Greece, the Dark Age was, until the last few decades, largely neglected. Now new archaeological methods and the discovery of new evidence have made it possible to develop a more comprehensive view of the entire period. Citadel to City-State explores each century from 1200 to 700 B.C.E. through an individual site -- Mycenae, Nichoria, Athens, Lefkandi, Corinth, and Ascrea -- that illustrates the major features of each period. This is a remarkable account of the historical detective work that is beginning to shed light on Dark Age Greece.

The Citadel of Fear (Sci-Fi Classic)

One nation taking a desperate gamble of war. Another fighting for survival. Two armies locked in a bloody cataclysm that will decide history. . . David L. Robbins has won widespread acclaim for his powerful and splendidly researched novels of World War II. Now he casts his brilliant vision on one of the most terrifying--and most crucial--battles of the war: the Battle of Kursk, Hitler's desperate gamble to defeat Russia, in the final German offensive on the eastern front. Last Citadel Spring 1943. In the west, Germany strengthens its choke hold on France. To the south, an Allied invasion looms imminent. But the greatest threat to Hitler's dream of a Thousand Year Reich lies east, where his forces are pitted in a death match with a Russian enemy willing to pay any price to defend the motherland. Hitler rolls the dice, hurling his best SS forces and his fearsome new weapon, the Mark VI Tiger tank, in a last-ditch summer offensive, code-named Citadel. The Red Army around Kursk is a sprawling array of infantry, armor, fighter planes, and bombers. Among them is an intrepid group of women flying antiquated biplanes; they swoop over the Germans in the dark, earning their nickname, "Night Witches." On the ground, Private Dimitri Berko gallops his tank, the Red Army's lithe little T-34, like a Cossack steed. In the turret above Dimitri rides his son, Valya, a Communist sergeant who issues his father orders while the war widens the gulf between them. In the skies, Dimitri's daughter, Katya, flies with the Night Witches, until she joins a ferocious band of partisans in the forests around Kursk. Like Russia itself, the Berko family is suffering the fury and devastation of history's most titanic tank battle while fighting to preserve what is sacred--their land, their lives, and each other--as Hitler flings against them his most potent armed force. Inexorable and devastating, a company of Mark VI Tiger tanks is commanded by one extraordinary SS officer, a Spaniard known as la Daga, the Dagger. He'd suffered a terrible wound at the hands of the Russians: now he has returned with a cold fury to exact his revenge. And above it all, one quiet man makes his own plan to bring Citadel crashing down and reshape the fate of the world. A remarkable story of men and arms, loyalty and betrayal, Last Citadel propels us into the claustrophobic confines of a tank in combat, into the tension of guerrilla tactics, and across the smoking charnel of one of history's greatest battlefields. Panoramic, authentic, and unforgettable, it reverberates long after the last cannon sounds.

Sword & Citadel

"The Lords of Discipline is, simply, an American classic." -- Larry King The Lords of Discipline is a novel about coming of age, brotherhood, betrayal, and a man's forging of his own personal code of honor. Will McLean, a senior on the cadets' honor court, is an outsider by nature: a basketball star at a school that prizes military prowess above athletics, a military man in training who dares to question the escalating Vietnam war. And yet his greatest struggle will be with the corrupt institution of which he is a part. Rich in humor and suspense, abounding in a rare honesty and generosity of feeling, this novel established Pat Conroy as one of the strongest fictional voices in a generation. "A work of enormous power, passion, humor, and wisdom." -- Washington Star "God preserve Pat Conroy." -- Boston Globe

Citadel: First Colony

The return of the Heartbearers continues in this three book omnibus featuring the provinces of Bastion, Fjord

& Tunise. Each heartbearer has a vital role to play as they seek to free their people from Emperor Madrid's fierce hold. Heart of Bastion: Kara, heart bearer of Bastion, returns to Gaia to begin her mission. Aided by her djinn Dragonmerger, Chryso and a feisty dragon named Beryl, she embarks on a journey into the core of the emperor's dangerous stronghold. Her quest to bring down the barrier is overshadowed by her mother's urgent plea to free a man imprisoned within the citadel's stone walls. It does not take long before Kara is confronted by her brother Jasper, a wizard who has sworn allegiance to the Emperor. Convinced of his loyalty to her family, she places her life in his hands, enlisting his help to free the captive. Lines blur as loyalties are tested, for the emperor sees all. They are pawns in a larger scheme, orchestrated by Madrid, and their plans are doomed to fail. Heart of Fjord: The Wildmen of Wydra cross the spine of the world and enter the realm of the Klippe Av Nattmara, the invasion triggering the elusive Huldras to brutally defend their home. The Fjordan rebels gather their scattered members into a newly formed army. Trapped between the advancing invaders, and their sworn mission of freeing of their people from the cruel grip of the emperor, the rebels are one step away from slaughter. Dropped into this expanding warzone is Heartbearer Beatrix and triad-bond mates Goshen and Zircon, who's mission it is, to destroy the barrier node buried deep under Emperor Madrid's main factory. The all-seeing emperor lays a clever trap for his sworn enemy, the witch. Will Beatrix discover Madrid's plan in time? Or is she fated to sacrifice her life to the greater good? Heart of Tunise: Plantations in the province of Tunise, famed for fertile soils and temperate climate, were an idyllic place to live...until the ascent of Emperor Madrid. One by one, the farms have fallen to the Citadel, the production of food now controlled by a cartel of merchants who answer to Madrid. The Emperor's eye has settled on the family of Parisa, the Heartbearer of Tunise. Past failures and future plans have given Madrid a burning desire for revenge – intent on making her pay for rebelling against his rule, for resistance to his will is futile and often deadly. Citadel armies descend and flames rise as Tunise is put to the torch, including the beloved Oakwood forest, makeshift home to the child refugees of the salt mines of Shadra. A fruit farmer with past grudges against Madrid joins forces with Parisa to break the Citadel's hold on her home province. Madrid has his eye on two specific prizes and he will do anything to obtain them. Even if it means a visit to the underworld. Grab all three books for less than the price of two, and continue the quest to save Gaia!

Last Citadel

Shortlisted for Costa Poetry Award 2020 Shortlisted for Forward Prize for Best First Collection 2020 Shortlisted for John Pollard Foundation International Poetry Prize 2021 Poetry Book of the Month - The Telegraph May 2020 Included in Books of the Year 2020 - The TLS November 2020 Juana of Castile (commonly referred to as Juana la Loca – Joanna the Mad) was a sixteenth-century Queen of Spain, daughter of the instigators of the Inquisition. Conspired against, betrayed, imprisoned and usurped by her father, husband and son in turn, she lived much of her life confined at Tordesillas, and left almost nothing by way of a written record. The poems in Citadel are written by a composite 'I' – part Reformation-era monarch, part twenty-first century poet – brought together by a rupture in time as the result of ambiguous, traumatic events in the lives of two women separated by almost five hundred years. Across the distance between central Spain and the northwest coast of England these powerful, unsettling poems echo and double back, threading together the remembered places of childhood, the touchstones of pain, and the dreamscapes of an anxious, interior world. Symbolic objects – the cord, the telephone, eggs, a flashing blue light – make obsessive return, communication becoming increasingly difficult as the storm moves in over the sea. Citadel is a daring and luminous debut.

The Lords of Discipline

Weapon of the Dark Queen Against a darkened cloud it comes, framed by thunder and lightning, soaring over the ravaged land: the flying citadel, mightiest power in the arsenal of the dragon highlords. In an age of

war, an evil wizard learned the secret of creating these castles in the air and sought to use them to gain power over all Kryn timer. Against him were ranged a red-robed magic-user, a cleric, an ancient warrior, and -- naturally -- a kender. Their battle shook the skies of Kryn timer.

Heart Of The Citadel Omnibus Books 4-6

"Citadel" evokes a rich mixture of associations—from images of urban centers of commerce and culture to war and the need to defend what is fortified within. Preserving its layered meanings, O. K. Werckmeister plucks the word from its usual moorings and employs it as a compelling metaphor in a brilliant retrospective of contemporary Western culture.

Citadel

An interplanetary battle is renewed in an epic novel of a warring solar system by the author of Ballistic. The war should have been over. But it's not for a group of nationalists grabbing for control. It's been two weeks since a missile with a nuclear warhead tore through the planetary defenses in the most blistering large-scale attack ever committed in the history of the Gaia system. Commander Dunstan Park of the Rhodian navy has been handpicked to command an experimental cruiser that could dictate the course of the escalating conflict. All he has to do is keep the ship from falling into the wrong hands. On Gretia, the powder keg is beyond control. A terrorist attack against civilians draws Idina Chaudhary into a costly battle. It also forces a cautious Aden Jansen back into the fray. Now dedicated to a just cause, he's still keeping his past hidden. The risk of exposing his former alliance could twist not only his fate but also that of his sister, Solveig, heir to the family empire. With no time to waste, Dunstan hits the ground running. But as insurgents threaten the unstable peace, what's ahead for both sides could change the destiny of the Gaia system forever.
