## Bigmama Didn't Shop at Woolworth's

Sunny Nash was Bigmamma's granddaughter, and through her young eyes she saw not only the indignities and economic hardships her family and friends suffered - unpaved roads, mosquito-infested drainage ditches and outdoor toilets, back stairs to balcony seating in the movies - but also the love and warmth of everyday life in the segregated neighborhood.

## Big Mama's Little Black Jesus

Many books have been written about the Southern lifestyle during the 1930's through the 1940's, but sit back and lend your ear (eyes) to a personal account of how a young man grew up under these trying conditions. Not only were the conditions trying, but getting an education was bleak and almost impossible, not just due to the segregation, but from the internal conflicts among the families. See how the hand of God moved to help this family over-come hardships and calamities, but how He touched the life of this young man when he was determined to better himself, his sisters and brothers, mother and father and to make a life outside the Racial Southern expectations of young black men. These are issues that I experienced growing up as a black person in the South in the USA. I want my children and grandchildren to know the things I experienced and how I was able to overcome and make a better life for my family. Currently I am living in Southern California, and I have lived quite a long life. I am currently on the downside of being a septagenarian. Unfortunately, I have lost my eyesight due to a disease called diabetic retinopathy. I am dependent on my wife and my sister to assist me in getting this book completed. I have been trying to get the book finished for the past fifteen years. I hope this book gives insight to not only my family, but to all that would care to read it.

## Sparkly Green Earrings

“There is really no better indicator you’re a mother than acquiring the ability to catch throw-up in a plastic bag, disinfect your hands, and immediately ask your friend to pass the beef jerky as you put on another Taylor Swift song and act as if nothing has happened.” This is the type of insight Melanie Shankle offers in this quirky memoir of motherhood. Written in the familiar, stream-of-consciousness style of her blog, *Big Mama*, *Sparkly Green Earrings* is a heartwarming and hilarious look at motherhood from someone who is still trying to figure it all out. Filled with personal stories—from the decision to become a mother to the heartbreak of miscarriage and ultimately, to the joy of raising a baby and living to tell about it—*Sparkly Green Earrings* will make you feel like you’re sitting across the table from your best friend. A must-read for anyone who’s ever had a child or even thought about it.

## **Big Mama Thornton**

You ain't nothing but a "Hound Dog" ... with these words shouted into the microphone she will always be remembered: Big Mama Thornton. Who is this woman who sang the megahit "Hound Dog" before Elvis Presley and who wrote "Ball & Chain," the song that catapulted Janis Joplin to sudden fame? The story begins with her first musical attempts in the Hot Harlem Revue as a girl of 14. Then the book follows her journey into the Mecca of Texas Blues, Houston, where Big Mama Thornton met Johnny Otis, with whom she recorded her greatest success--"Hound Dog." With the slowdown of the blues in the early sixties this book follows Big Mama Thornton's way to California, discusses her struggle to survive and celebrates her impressive musical comeback in the course of the blues revival and the hippie movement. With the end of the sixties, facing a declining interest in the old school blues, the book shows how Big Mama Thornton found her niche in clubs and festivals in the U.S. and Europe. The book then follows Big Mama Thornton through the seventies and eighties until her untimely death.

## **Church of the Small Things**

Is my ordinary, everyday life actually significant? Is it okay to be fulfilled by the simple acts of raising kids, working in an office, and cooking chicken for dinner? It's been said, "Life is not measured by the number of breaths we take, but by the number of moments that take our breath away." The pressure of that can be staggering as we spend our days looking for that big thing that promises to take our breath away. Meanwhile, we lose sight of the small significance of fully living with every breath we take. Melanie Shankle, New York Times bestselling author and writer at The Big Mama Blog tackles these questions head on in her fourth book, Church of the Small Things. Easygoing and relatable, she speaks directly to the heart of women of all ages who are longing to find significance and meaning in the normal, sometimes mundane world of driving carpool to soccer practice, attending class on their college campus, cooking meals for their family, or taking care of a sick loved one. The million little pieces that make a life aren't necessarily glamorous or far-reaching. But God uses some of the smallest, most ordinary acts of faithfulness—and sometimes they look a whole lot like packing lunch. Through humorous stories told in her signature style, full of Frito pie, best friends, the love of her Me-Ma and Pa-Pa, the unexpected grace that comes when we quit trying to measure up, and a little of the best TV has to offer, Melanie helps women embrace what it means to live a simple, yet incredibly meaningful life and how to find all the beauty and laughter that lies right beneath the surface of every moment.

NOW OPTIONED BY Sony Pictures TV FOR A LIVE-ACTION SERIES ADAPTATION: produced by

Freida Pinto and Gabrielle Union \"A perfect time to look at the ethos of black hair in America — and the perfect person to do it is Tanisha Ford\" —Changing America \"Everyone from the shopaholic to the clearance rack queen will see themselves in [Ford's] pages.\" —Essence \"Takes you not only into the closet, but the inner sanctum of an ordinary extraordinary Black girl who discovered herself through clothes.\" —Michaela Angela Davis, Image Activist and Writer \"[A] delightful style story.\" —The Philadelphia Inquirer From sneakers to leather jackets, a bold, witty, and deeply personal dive into Black America's closet In this highly engaging book, fashionista and pop culture expert Tanisha C. Ford investigates Afros and dashikis, go-go boots and hotpants of the sixties, hip hop's baggy jeans and bamboo earrings, and the #BlackLivesMatter-inspired hoodies of today. The history of these garments is deeply intertwined with Ford's story as a black girl coming of age in a Midwestern rust belt city. She experimented with the Jheri curl; discovered how wearing the wrong color tennis shoes at the roller rink during the drug and gang wars of the 1980s could get you beaten; and rocked oversized, brightly colored jeans and Timberlands at an elite boarding school where the white upper crust wore conservative wool shift dresses. *Dressed in Dreams* is a story of desire, access, conformity, and black innovation that explains things like the importance of knockoff culture; the role of “ghetto fabulous” full-length furs and colorful leather in the 1990s; how black girls make magic out of a dollar store t-shirt, rhinestones, and airbrushed paint; and black parents' emphasis on dressing nice. Ford talks about the pain of seeing black style appropriated by the mainstream fashion industry and fashion's power, especially in middle America. In this richly evocative narrative, she shares her lifelong fashion revolution—from figuring out her own personal style to discovering what makes Midwestern fashion a real thing too.

## **Big Mama's Storm Cellar**

Examines the latest applications of photochemistry to generate important intermediates Presenting the latest breakthroughs in the field of organic photochemistry, this book offers tested and proven photochemical approaches to synthesis, creating promising new possibilities and applications for photochemical reactions. It focuses on photoreactions involving an intermediate where mechanistic aspects control the course of the reaction and its synthetic value. Readers will discover new insights into the mechanisms and nature of photo-produced reactive intermediates for organic synthesis as well as the methods to generate them. Moreover, by focusing on highly efficient techniques for producing such species, the authors enable researchers to design and perform photoreactions within the framework of green, sustainable chemistry. Photochemically-Generated Intermediates in Synthesis begins with a discussion of the principles and practice of photo-generated intermediates. Next, the book explores: Photogeneration of carbon-centered radicals Photogeneration of heteroatom-centered radicals Photogeneration of biradicals and radical pairs Photochemical generation of radical ions Photogeneration of carbocations and carbanions Photogeneration of carbenes and nitrenes The book's final chapter is dedicated to the photochemical manipulation of intermediates. Each chapter includes key kinetic data for typical intermediates as well as detailed case examples, giving readers all the tools needed to perform their own photochemical reactions. Comparisons to non-photochemical methods are offered whenever possible. Photochemically-Generated Intermediates in Synthesis sets the stage for greater collaboration among photochemists and synthetic organic chemists, enabling these two research communities to fully leverage photochemistry in order to generate key intermediates needed for a broad range of synthetic reactions in organic chemistry.
