Channel Kindness: Stories of Kindness and Community

Channel Kindness is a collection of fifty-one stories of kindness, bravery, and resilience from young people all over the world collected by the Born This Way Foundation and introduced by Lady Gaga. For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself and others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery, and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice, just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. Individually and collectively, the stories collected here prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

What's the Story for Today? Who Loves You Best

Human life is a combination of positive and negative experiences. Although there is an infinite number of positive experiences in life, people are prone to take in negative ones in their daily lives. When people become depressed, there is a swing in their brain states and the patterns that direct attention, thinking, and behavior in specific ways, mainly with regard to losses and threats. Memories of earlier losses and threats are activated. Attention and focusing on positive events become difficult. Focusing on negative events, including the autobiographical memory, becomes easy. Moreover, depressed people markedly seek and take in negative experiences due to their negative life experiences, events, and dysfunctional cognitive appraisals.

Psychological intervention is one of the most commonly sought forms of help when the female adolescents experience depression. As the world of the adolescents alters radically, mental health professionals must be equipped with proficient strategy to address the various aspects of depression. Since the theory on taking in the good proposes a new therapy approach with effective positive neuroplasticity strategy as important ingredients, it is to be expected that a combined intervention program based on this theory and principles of bibliotherapy would be dexterous enough to address depression in all its heterogeneous nature.
