Verb Constructions in German and Dutch

German and Dutch verb constructions show a rich array of syntactic phenomena that have so far been underexposed in the literature, despite the fact that they have proved to be a source of substantial problems in theoretical grammar. The cross-linguistic study of verb constructions and complementation has been dominated by views deriving from English or, for that matter, Latin. The German and Dutch complementation systems, however, feature several important properties that are missing from English but occur in many other languages. Well-known but only partially understood examples are clause-final verb clusters and the so-called Third Construction. In the present book, these and related phenomena are addressed by leading representatives of various schools of linguistic thought, in particular Head-driven Phrase Structure Grammar (HPSG), Generative Grammar, Lexical Functional Grammar (LFG), Tree Adjoining Grammar (TAG), Performance Grammar, and Semantic Syntax. By bringing together the diverse theoretical analyses into one volume, the editors hope to stimulate comparative evaluations of the formalisms.

How can students be empowered to communicate professionally – as translators, journalists and CCOs? How can professionals engaged in crucial language interactions do the same – pilots, nurses, lawyers and many others? This volume gives answers to these questions, providing insights into critical situations and good practices from many years of research and teaching in a practice-oriented, research driven School of Applied Linguistics.

Discontinuous Constituency

Schwarz guides readers through the range of opinions on the subject of the future, telling how readers' understanding of eschatology has developed and laying out the factors that must be considered when speaking meaningfully about the Christian hope in the 21st century. He surveys the teachings about the future in the Old and New Testaments and addresses the views of Christian and secular thinkers throughout history.

Schmidt's Jahrbuecher

The book is divided into three parts. In Part I, basic conceptual and theoretical issues concerning communication and metacommunication are presented. Part II continues the coverage with the issues of communication and metacommunication. Those are extended as each chapter puts forward new insights and contextualizes them within the realms of teaching– learning processes, early adaptation to nursery school contexts, and of the analysis of processes occurring at a particular dimension of human development (gender identity). Part III provides further conceptual and theoretical elaborations on the phenomena from the unique viewpoints of scholars with diverse backgrounds, which definitely furnish scientific discussion over the issue with fresh and productive ideas. Throughout the chapters, the reader is supplied with empirical projects conducted in different research laboratories, each study granting novel illustrations of methodological approaches to analyze the complexities of communication and metacommunication processes and their relevant constitutive roles in specific contexts.

Beschreibung: Mit diesem Band werden die noch fehlenden Arbeiten (Publikationen und Manuskripte) Leont'evs bis 1940 zugänglich gemacht. Sie dokumentieren mit bisher unbekannten Manuskripten über James und Spinoza die Anfänge der wissenschaftlichen Arbeit Leont'evs in der Psychologie, die Phase der an Kornilov orientierten reaktologischen Experimente unter der Leitung von Lurija, den Beginn der Zusammenarbeit mit Vygotskij und besonders breit und mit zahlreichen bisher unbekannten Manuskripten und Briefen die Auseinandersetzung mit der instrumentellen bzw. kulturellen Psychologie Vygotskijs und die Anfänge der Arbeit an der Tätigkeitstheorie in Char'kov. Vor allem für das Verständnis dieser Phase in der Entwicklung des leont'ev-schen Denkens sind die hier zum ersten Mal in deutscher Sprache vorliegenden Texte außerordentlich interessant, für das Verständnis des Verhältnisses von Leont'ev und Vygotskij sind sie unverzichtbar. Die von Leont'ev selbst publizierten sowie auch die posthum erschienenen Arbeiten sind damit vollständig in deutscher Sprache zugänglich mit Ausnahme eines mit A. Leont'ev unterzeichneten Aufsatzes aus dem Jahr 1923, dessen Autorschaft bisher von den Nachkommen noch nicht sicher geklärt werden konnte sowie eines Artikels über Psychologie aus der Großen Sowjetischen Enzyklopädie, der seiner Länge wegen nicht berücksichtigt wurde. Die bisher auch in russischer Sprache noch nicht veröffentlichten Manuskripte werden hier in ihrem größten Teil mitgeteilt. Nicht berücksichtigt wurden (nach dem derzeitigen Stand ihrer Kenntnis) lediglich Varianten bzw. kleinere Enzyklopädie-Artikel, so dass der die Frühphase der Theorieentwicklung Leont'evs abdeckende Textbestand jetzt vollständig zur Verfügung steht.

Through biographical narratives, *Claiming Home* traces how queer migrant women living in Switzerland

navigate often contradictory perspectives on sexuality, gender, and nation. Situated between heteronormative and racialized stereotypes of migrant women on the one hand, and the implicitly white figure of the lesbian on the other, queer migrant women are often rendered ›impossible subjects.‹ Claiming Home maps how they negotiate conflicting loyalties in this field and how they, in their own way, claim a sense of belonging and home.

Doing Applied Linguistics

Following the failure of the 1848 revolution a great many political refugees headed for England - the richly cosmopolitan hub of an Empire, and the commercial-industrial locus of the world. Among the German contingent of exiles were, famously, Karl Marx and Friedrich Engels. But many less luminous names, no less well-educated in their native Germany, also settled in England and made their way there, whether as teachers or tailors, journalists or musicians, polemicists or political organizers. Few of these exiles knew how long they would have to call England home: some became keen Anglophiles, while others remained resolutely wedded in spirit to 'the old country.' Rosemary Ashton's study, first published in 1986, charts the fortunes of this disparate group and illuminates Victorian England through their eyes, so making a fascinating account of a neglected area of Anglo-German relations.

The book empirically analyzes the market, drivers, trends, and building characteristics of life sciences real estate. The findings suggest significant growth potential, supported by strong market fundamentals and demographics. Investors are drawn to the sector's potential for risk-adjusted returns, capital and rental growth, and defensive characteristics. Nevertheless, the high specifications and complexity of laboratories present challenges, including high capital expenditures, maintenance costs, and the need for specialized expertise and networks. The trend towards flexible and modular laboratories and the conversion of traditional assets into lab spaces offer exciting opportunities for investments in life sciences real estate. Life sciences real estate has gained attention from investors seeking alternative options to traditional real estate sectors. This niche market has seen increased capital inflows and investor interest due to attractive returns and risk diversification. The industry encompasses various specialized subdisciplines, each with unique building and space requirements. However, the complexity and diversity of the sector pose challenges for investors in evaluating advantages, disadvantages, and risks. This textbook has been recommended and developed for university courses in Germany, Austria and Switzerland.

The volume deals with the relationship between language, dialogue, human nature and culture by focusing on an approach that considers culture to be a crucial component of dialogic interaction. Part I refers to the so-called 'language instinct debate' between nativists and empiricists and introduces a mediating position that regards language and dialogue as determined by both human nature and culture. This sets the framework for the contributions of Part II which propose varying theoretical positions on how to address the ways in which culture influences dialogue. Part III presents more empirically oriented studies which demonstrate the interaction of components in the 'mixed game' and focus, in particular, on specific action games, politeness and selected verbal means of communication.

Bulletin

ZU "HEGEL UND DER STAAT" Der erste, der das Leben Hegels schrieb, war der Königsberger Professor Karl Rosenkranz. Sein Buch erschien 1844. Der Verfasser hatte Hegel noch selber gekannt. Unter den persönlichen treuen Schülern ist er einer der freieren; ohne daß er seinen Anschauungen nach gerade der Hegelschen Linken zuzurechnen wäre, ist ihm doch manches mit ihr gemein; nicht bloß eine gewisse Selbständigkeit gegenüber der Systematik des Meisters, sondern mehr noch eine eigentümliche Zersplitterung und Beweglichkeit des Empfindens, ein unruhig stoffsüchtiges Hineingreifen in die Schätze der Zeit und Vergangenheit, ein starker Hang endlich zum geistreichen Widersinn stellen den Verfasser der "Ästhetik des Häßlichen" fast eher in die Reihe der Strauß, Bauer, Feuerbach als zu den Marheineke, Gabler und Henning. Sein Hegelbuch zeigt von diesen Eigenschaften verhältnismäßig wenig; sie sind da zurückge drängt durch die fromme Achtung des Schülers gegen den toten Meister und wohl auch durch den Ernst des Bewußtseins, sozusagen im amtlichen Auftrag der Schule zu schreiben: die Lebensgeschichte trat an die Öffentlichkeit als Ergänzungsband zu den Werken. Auch die Menge handschriftlichen Stoffes, die das Buch im Abdruck oder Auszug brachte, tat das ihre, dem Verfasser den Rat für seine eigenen Flügel einzulegen. Immerhin wird der Leser des noch heute unentbehrlichen und von seiner ausgeprägten und zeitcharakteristischen Eigenart willen wohl nie ganz überflüssig zu machenden Buchs noch genug wunderbare Einfälle darin finden.
