

Valaida

Renaissance Women

It is an honor and a pleasure to communicate directly with my growing audience. I have included in this first volume, of a number of volumes I plan to have published, five of the greatest renaissance women in the African Diaspora. These women are different and yet each of them shares a trait which I so greatly admire -- creative determinism. They discovered a purpose within themselves and continued on their march to destiny, fame, sometimes riches, sometimes ignominy, always triumphant over the ills of a world, which is, in fact, still discovering itself; but which, in its blind fury, has ground civilizations, people and ideas into the dust. The indestructible African Diasporan Woman I have chosen for this volume are Ethel Waters, Valaida Snow, Billie Holiday, Zora Neale Hurston, and Winifred Mandela.

Babylon Girls

Babylon Girls is a groundbreaking cultural history of the African American women who performed in variety shows—chorus lines, burlesque revues, cabaret acts, and the like—between 1890 and 1945. Through a consideration of the gestures, costuming, vocal techniques, and stagecraft developed by African American singers and dancers, Jayna Brown explains how these women shaped the movement and style of an emerging urban popular culture. In an era of U.S. and British imperialism, these women challenged and played with constructions of race, gender, and the body as they moved across stages and geographic space. They pioneered dance movements including the cakewalk, the shimmy, and the Charleston—black dances by which the “New Woman” defined herself. These early-twentieth-century performers brought these dances with them as they toured across the United States and around the world, becoming cosmopolitan subjects more widely traveled than many of their audiences. Investigating both well-known performers such as Ada Overton Walker and Josephine Baker and lesser-known artists such as Belle Davis and Valaida Snow, Brown weaves the histories of specific singers and dancers together with incisive theoretical insights. She describes the strange phenomenon of blackface performances by women, both black and white, and she considers how black expressive artists navigated racial segregation. Fronting the “picaninny choruses” of African American child performers who toured Britain and the Continent in the early 1900s, and singing and dancing in *The Creole Show* (1890), *Darktown Follies* (1913), and *Shuffle Along* (1921), black women variety-show performers of the early twentieth century paved the way for later generations of African American performers. Brown shows not only how these artists influenced transnational ideas of the modern woman but also how their artistry was an essential element in the development of jazz.

Black Lives Under Nazism

In a little-known chapter of World War II, Black people living in Nazi Germany and occupied Europe were subjected to ostracization, forced sterilization, and incarceration in internment and concentration camps. In the absence of public commemoration, African diaspora writers and artists have preserved the stories of these forgotten victims of the Third Reich. Their works illuminate the relationship between creative expression and wartime survival and the role of art in the formation of collective memory. This groundbreaking book explores a range of largely overlooked literary and artistic works that challenge the invisibility of Black wartime history. Emphasizing Black agency, Sarah Phillips Casteel examines both testimonial art by victims of the Nazi regime and creative works that imaginatively reconstruct the wartime period. Among these are the internment art of Caribbean painter Josef Nassy, the survivor memoir of Black German journalist Hans J. Massaquoi, the jazz fiction of African American novelist John A. Williams and Black Canadian novelist Esi Edugyan, and the photomontages of Scottish Ghanaian visual artist Maud Sulter. Bridging Black and Jewish

studies, this book identifies the significance of African diaspora experiences and artistic expression for Holocaust history, memory, and representation.

Just Remember This

I have completed this manuscript *Just Remember This*, or as *American Pop Singers 1900-1950+*, about music before the 1950s in America. It perhaps offers knowledge and insights not previously found in other musical reference books. I have moreover been working on this book very meticulously over the past twelve-plus years. It started as a bit of fun and gradually became serious as I began to listen along with the vocalists of popular music, of the era before 1950, essentially just before the dawn of rock and roll. If you can call it that! Indeed genre and labeling of American music started here, and then from everywhere. While the old adage of always starting from somewhere could be noted in every century, the 1900s had produced the technology. Understanding the necessity, more so, finds a curiosity on the part of a general public hungry for entertainment, despite 6 day work weeks, World War I, the Great Depression, and World War II.

Blacks in Blackface: A Sourcebook on Early Black Musical Shows

Published in 1980, *Blacks in Blackface* was the first and most extensive book up to that time to deal exclusively with every aspect of all-African American musical comedies performed on the stage between 1900 and 1940. An invaluable resource for scholars and historians focused on African American culture, this new edition features significantly revised, expanded, and new material. In *Blacks in Blackface: A Sourcebook on Early Black Musical Shows*, Henry T. Sampson provides an unprecedented wealth of information on legitimate musical comedies, including show synopses, casts, songs, and production credits. Sampson also recounts the struggles of African American performers and producers to overcome the racial prejudice of white show owners, music publishers, theatre managers, and booking agents to achieve adequate financial compensation for their talents and managerial expertise. Black producers and artists competed with white managers who were producing all-Black shows and also with some white entertainers who were performing Black-developed music and dances, often in blackface. The chapters in this volume include: An overview of African American musical shows from the end of the Civil War through the golden years of the 1920s and '30s; New and expanded biographical sketches of performers; Detailed information about the first producers and owners of Black minstrel and musical comedy shows; Origins and backgrounds of several famous Black theatres; Profiles of African American entrepreneurs and businessmen who provided financial resources to build and own many of the Black theatres where these shows were performed; A chronicle of booking agencies and organized Black theatrical circuits, music publishing houses, and phonograph recording businesses; Critical commentary from African American newspapers and show business publications; More than 500 hundred rare photographs. A comprehensive volume that covers all aspects of Black musical shows performed in theatres, nightclubs, circuses, and medicine shows, this edition of *Blacks in Blackface* can be used as a reference for serious scholars and researchers of Black show business in the United States before 1940. More than double the size of the previous edition, this useful resource will also appeal to the casual reader who is interested in learning more about early Black entertainment.

Hot from Harlem

From the early days of minstrelsy to Black Broadway, this book is the story of African American entertainment as seen through the eyes of some of its most famous as well as others of its practitioners. The book moves from the beginning of African American participation in show business up through the present age. Will Marion Cook and Billy McClain are discovered in action at the very dawn of black parity in the entertainment field; six chapters later, the young Sammy Davis, Jr., breaks through the invisible ceiling that has kept those before him "in their place." In between, the likes of Valaida Snow, Nora Holt, Billy Strayhorn, Hazel Scott, Dinah Washington, and others are found making contributions to the fight against racism both in and out of "the business."

Imagining Each Other

Imagining Each Other explores Black-Jewish relations by examining the complex ways they have portrayed each other in recent American literature. It illuminates their dramatic alliances and conflicts and their dilemmas of identity and assimilation, and addresses the persistent questions of ethnic division and economic inequality that have so encompassed the Black-Jewish narrative in America. Focusing primarily on the 1960s and its aftermath, the book reveals how Jewish and African Americans view each other through a complex dialectic of identification and difference, channeled by ever-shifting positions within American society. Through the works of Richard Wright, Saul Bellow, Bernard Malamud, Amiri Baraka, Paule Marshall, Grace Paley, and others, Goffman unfolds a story of two peoples with powerful biblical and mythic connections that replay themselves in contemporary circumstances. In doing so, he uncovers layers of meaning in works that dramatize this turbulent, paradoxical relationship, and reveals how this relationship is paradigmatic of multicultural American self-invention.

Marshal Royal

Marsgal Royal was a core member of the Count Basei Orchestra for twenty years during its resurgence in the 1950s and 1960s. Before that, he was a pioneer of jazz on the West Coast, playing with many bands in and around Los Angeles. A child prodigy of both the violin and saxophone, Royal was literally born on the road as his musician parents made their way West. Royal shares his experiences with Les Hite's band at Sebastian's New Cotton Club, where 's Orchestra after a wartime career in U.S. Navy bands. After leaving Hampton, Royal made countless recordings as a freelancer before joining Basie, where he was responsible for rehearsing the Orchestra. Later, he became internationally known as a soloist while continuing his prolific recording career. His brother, Ernie, who was a star trumpeter in the bands of Woody Herman and Stan Kenton, is also profiled. Claire P. Gordon is the editor of Rex Stewart's memoir, *Boy Meets Horn*, and of Stewart's other collections of writings. She lives on the West Coast and has a long-term interest in the oral history of jazz.

Strangers in the Land

The importance of blacks for Jews and Jews for blacks in conceiving of themselves as Americans, when both remained outsiders to the privileges of full citizenship, is a matter of voluminous but perplexing record. A monumental work of literary criticism and cultural history, *Strangers in the Land* draws upon politics, sociology, law, religion, and popular culture to illuminate a vital, highly conflicted interethnic partnership over the course of a century.

Hitler's Black Victims

Drawing on interviews with the black survivors of Nazi concentration camps and archival research in North America, Europe, and Africa, this book documents and analyzes the meaning of Nazism's racial policies towards people of African descent, specifically those born in Germany, England, France, the United States, and Africa, and the impact of that legacy on contemporary race relations in Germany, and more generally, in Europe. The book also specifically addresses the concerns of those surviving Afro-Germans who were victims of Nazism, but have not generally been included in or benefited from the compensation agreements that have been developed in recent years.

Listen to Jazz!

Listen to Jazz!: Exploring a Musical Genre explores jazz as both an American musical genre and a global creative exchange, with a focus on 50 must-hear musicians, composers, bands, groups, albums, and songs. Rather than focusing on jazz as a solely American genre with a limited set of established jazz greats, *Listen to Jazz!* explores the diversity of jazz's sounds, compositions, recordings, and styles. A background chapter concisely surveys the genre's sounds, concepts, performance practices, and interactions with the sound recording industry and technological advances in recording. The A-to-Z Must-Hear Music entries include recent jazz musicians from around the world, jazz musicians and recordings that have been marginalized or overlooked, as well as musicians, songs, and albums that have been recognized already for contributing to the defining aspects of specific jazz styles. Chapters on the impact of jazz on popular culture and its legacy, as well as a bibliography, enhance the historical and analytical content found in many jazz resources. This book stands out for its inclusive and comparative listening-centered approach, often pairing or grouping musicians and recordings in its entries. Music concepts such as improvisation, syncopation, tone color, musical structure, harmonic and rhythmic patterns, and music production techniques are introduced and explained thoroughly, making the book accessible to high school and undergraduate students without any previous musical background while still being of interest to jazz aficionados and scholars.

The Complete Book of 1930s Broadway Musicals

Despite the stock market crash of October 1929, thousands of theatregoers still flocked to the Great White Way throughout the country's darkest years. In keeping with the Depression and the events leading up to World War II, 1930s Broadway was distinguished by numerous political revues and musicals, including three by George Gershwin (*Strike Up the Band*, *Of Thee I Sing*, and *Let 'Em Eat Cake*). The decade also saw the last musicals by Gershwin, Jerome Kern, and Vincent Youmans; found Richard Rodgers and Lorenz Hart in full flower; and introduced both Kurt Weill and Harold Arlen's music to Broadway. In *The Complete Book of 1930s Broadway Musicals*, Dan Dietz examines in detail every musical that opened on Broadway from 1930 through 1939. This book discusses the era's major successes, notorious failures, and musicals that closed during their pre-Broadway tryouts. It includes such shows as *Anything Goes*, *As Thousands Cheer*, *Babes in Arms*, *The Boys from Syracuse*, *The Cradle Will Rock*, *The Green Pastures*, *Hellzapoppin*, *Hot Mikado*, *Porgy and Bess*, *Roberta*, and various editions of *Ziegfeld Follies*. Vaudeville old & new

The Harlem Renaissance is considered one of the most significant periods of creative and intellectual expression for African Americans. Beginning as early as 1914 and lasting into the 1940s, this era saw individuals reject the stereotypes of African Americans and confront the racist, social, political, and economic ideas that denied them citizenship and access to the American Dream. While the majority of recognized literary and artistic contributors to this period were black males, African American women were also key contributors. *Black Women of the Harlem Renaissance Era* profiles the most important figures of this cultural and intellectual movement. Highlighting the accomplishments of black women who sought to create positive change after the end of WWI, this reference work includes representatives not only from the literary scene but also: ActivistsActressesArtistsEducatorsEntrepreneursMusiciansPolitical leaders Scholars By acknowledging the women who played vital—if not always recognized—roles in this movement, this book shows how their participation helped set the stage for the continued transformation of the black community well into the 1960s. To fully realize the breadth of these contributions, editors Lean'tin L. Bracks and Jessie Carney Smith have assembled profiles written by a number of accomplished academics and historians from across the country. As such, *Black Women of the Harlem Renaissance Era* will be of interest to scholars of women's studies, African American studies, and cultural history, as well as students and anyone wishing to learn more about the women of this important era.

Storyville

Music, like romance, is the language of the soul. Music allows us to express ourselves, and in so doing makes us feel alive. Jazz music, the only art form created by Americans, reminds us that the genius of America is improvisation; a good beat, a contagious rhythm, an emotional ballad, creative improvisation, jazz has it all. Jazz is the story of extraordinary human beings, black and white, male and female, children of privilege and children of despair, who were able to do what most of us only dream of doing: create art on the spot. Their stories are told in *Blue Notes*. *Blue Notes* contains profiles of 365 jazz personalities, one for each day of the year. Each vignette tells a story, some heartwarming, others tragic, but all memorable. The daily entries also provide valuable information on jazz styles, jazz history, instruments and instrumentalists, and such related topics as jazz and religion, women in jazz, drug and alcohol abuse, and racism. These topics can be referenced through an extensive set of indexes. The book's appendix includes helpful background information, a concise overview of jazz music, and even a quiz on jazz biography. While *Blue Notes* is written for jazz fans in general, experts will value its comprehensive nature. So whether you are curious about jazz or simply love and appreciate music, *Blue Notes* will provide daily moments of discovery and help you recognize what the rest of the world already has, a music so compelling that it can be said to define the human being in the twentieth century.

Black Women of the Harlem Renaissance Era

The Jazz Age. The phrase conjures images of Louis Armstrong holding court at the Sunset Cafe in Chicago, Duke Ellington dazzling crowds at the Cotton Club in Harlem, and star singers like Bessie Smith and Ma Rainey. But the Jazz Age was every bit as much of a Paris phenomenon as it was a Chicago and New York scene. In *Paris Blues*, Andy Fry provides an alternative history of African American music and musicians in France, one that looks beyond familiar personalities and well-rehearsed stories. He pinpoints key issues of race and nation in France's complicated jazz history from the 1920s through the 1950s. While he deals with many of the traditional icons—such as Josephine Baker, Django Reinhardt, and Sidney Bechet, among others—what he asks is how they came to be so iconic, and what their stories hide as well as what they

preserve. Fry focuses throughout on early jazz and swing but includes its re-creation—reinvention—in the 1950s. Along the way, he pays tribute to forgotten traditions such as black musical theater, white show bands, and French wartime swing. *Paris Blues* provides a nuanced account of the French reception of African Americans and their music and contributes greatly to a growing literature on jazz, race, and nation in France.

“Is there jazz in China?” This is the question that sent author Eugene Marlow on his quest to uncover the history of jazz in China. Marlow traces China's introduction to jazz in the early 1920s, its interruption by Chinese leadership under Mao in 1949, and its rejuvenation in the early 1980s with the start of China's opening to the world under Premier Deng Xiaoping. Covering a span of almost one hundred years, Marlow focuses on a variety of subjects--the musicians who initiated jazz performances in China, the means by which jazz was incorporated into Chinese culture, and the musicians and venues that now present jazz performances. Featuring unique, face-to-face interviews with leading indigenous jazz musicians in Beijing and Shanghai, plus interviews with club owners, promoters, expatriates, and even diplomats, Marlow marks the evolution of jazz in China as it parallels China's social, economic, and political evolution through the twentieth and into the twenty-first century. Also featured is an interview with one of the extant members of the Jimmy King Big Band of the 1940s, one of the first major all-Chinese jazz big bands in Shanghai. Ultimately, *Jazz in China: From Dance Hall Music to Individual Freedom of Expression* is a cultural history that reveals the inexorable evolution of a democratic form of music in a Communist state.

Ladies Night at the Dreamland

Adam Zachary Newton couples works of prose fiction by African American and Jewish American authors from Henry Roth and Ralph Ellison to Philip Roth and David Bradley. Reading the work of such writers alongside and through one another, Newton offers an original way of juxtaposing two major traditions in American literature and rethinking their sometimes vexing relationship. Newton combines Emmanuel Levinas' ethical philosophy and Walter Benjamin's theory of allegory in shaping an innovative kind of ethical-political criticism. A final chapter addresses the Black/Jewish dimension of the O. J. Simpson trial.

Renaissance Solos

Cholly Atkins's career has spanned an extraordinary era of American dance. He began performing during Prohibition and continued his apprenticeship in vaudeville, in nightclubs, and in the army during World War II. With his partner, Honi Coles, Cholly toured the country, performing with such jazz masters as Louis Armstrong, Cab Calloway, and Count Basie. As tap reached a nadir in the fifties, Cholly created the new specialization of \"vocal choreography,\" teaching rhythm-and-blues singers how to perform their music by adding rhythmical dance steps drawn from twentieth-century American dance, from the Charleston to rhythm tap. For the burgeoning Motown record label, Cholly taught such artists as the Supremes, Smokey Robinson and the Miracles, the Temptations, Gladys Knight and the Pips, and Marvin Gaye to command the stage in ways that would enhance their performances and \"sell\" their songs. *Class Act* tells of Cholly's boyhood and coming of age, his entry into the dance world of New York City, his performing triumphs and personal tragedies, and the career transformations that won him gold records and a Tony for choreographing *Black and Blue* on Broadway. Chronicling the rise, near demise, and rediscovery of tap dancing, the book is both an engaging biography and a rich cultural history.

Black Women in American Bands and Orchestras

In *All Stories Are True*, Tracie Church Guzzio provides the first full-length study of John Edgar Wideman's entire oeuvre to date. Specifically, Guzzio examines the ways in which Wideman (b. 1941) engages with three crucial themes—history, myth, and trauma—throughout his career, showing how they intertwine. Guzzio argues that, for four decades, the influential African American writer has endeavored to create a version of the African American experience that runs counter to mainstream interpretations, using history and myth to confront and then heal the trauma caused by slavery and racism. Wideman's work intentionally blurs boundaries between fiction and autobiography, myth and history, particularly as that history relates to African American experience in his hometown of Pittsburgh, Pennsylvania. The fusion of fiction, national history, and Wideman's personal life is characteristic of his style, which—due to its complexity and smudging of genre distinctions—has presented analytic difficulties for literary scholars. Despite winning the PEN/Faulkner award twice, for *Sent for You Yesterday* (1984) and *Philadelphia Fire* (1990), Wideman remains under-studied. Of particular value is Guzzio's analysis of the many ways in which Wideman alludes to his previous works. This intertextuality allows Wideman to engage his books in direct, intentional dialogue with each other through repeated characters, images, folktales, and songs. In Wideman's challenging of a monolithic view of history and presenting alternative perspectives to it, and his allowing past, present, and future time to remain fluid in the narratives, Guzzio finds an author firm in his notion that all stories and all perspectives have merit.

Encyclopedia of the Harlem Renaissance

Despite the fact that most of jazz's major innovators and performers have been African American, the overwhelming majority of jazz journalists, critics, and authors have been and continue to be white men. No major mainstream jazz publication has ever had a black editor or publisher. *Ain't But a Few of Us* presents over two dozen candid dialogues with black jazz critics and journalists ranging from Greg Tate, Farah Jasmine Griffin, and Robin D. G. Kelley to Tammy Kernodle, Ron Welburn, and John Murph. They discuss the obstacles to access for black jazz journalists, outline how they contend with the world of jazz writing dominated by white men, and point out that these racial disparities are not confined to jazz but hamper their efforts at writing about other music genres as well. *Ain't But a Few of Us* also includes an anthology section, which reprints classic essays and articles from black writers and musicians such as LeRoi Jones, Archie Shepp, A. B. Spellman, and Herbie Nichols. All Stories Are True

The African-American contribution to winning World War II has never been celebrated as profoundly as in *Fighting for America*. In this inspirational and uniquely personal tribute, the essential part played by black servicemen and -women in that cataclysmic conflict is brought home. Here are letters, photographs, oral histories, and rare documents, collected by historian Christopher Moore, the son of two black WWII veterans. Weaving his family history with that of his people and nation, Moore has created an unforgettable tapestry of sacrifice, fortitude, and courage. From the 1,800 black soldiers who landed at Normandy Beach on D-Day, and the legendary Tuskegee Airmen who won ninety-five Distinguished Flying Crosses, to the 761st Tank Battalion who, under General Patton, helped liberate Nazi death camps, the invaluable effort of black Americans to defend democracy is captured in word and image. Readers will be introduced to many unheralded heroes who helped America win the war, including Dorie Miller, the messman who manned a machine gun and downed four Japanese planes; Robert Brooks, the first American to die in armored battle; Lt. Jackie Robinson, the future baseball legend who faced court-martial for refusing to sit in the back of a military bus; an until now forgotten African-American philosopher who helped save many lives at a Japanese POW camp; even the author's own parents: his mother, Kay, a WAC when she met his father, Bill, who was part of the celebrated Red Ball Express. Yet *Fighting for America* is more than a testimonial; it is also a troubling story of profound contradictions, of a country still in the throes of segregation, of a domestic

battleground where arrests and riots occurred simultaneously with foreign service—and of how the war helped spotlight this disparity and galvanize the need for civil rights. Featuring a unique perspective on black soldiers, *Fighting for America* will move any reader: all who, like the author, owe their lives to those who served.

Vaudeville Times

In the first major book devoted to the trumpet in more than two decades, John Wallace and Alexander McGrattan trace the surprising evolution and colorful performance history of one of the world's oldest instruments. They chart the introduction of the trumpet and its family into art music, and its rise to prominence as a solo instrument, from the Baroque "golden age," through the advent of valved brass instruments in the nineteenth century, and the trumpet's renaissance in the jazz age. The authors offer abundant insights into the trumpet's repertoire, with detailed analyses of works by Haydn, Handel, and Bach, and fresh material on the importance of jazz and influential jazz trumpeters for the reemergence of the trumpet as a solo instrument in classical music today. Wallace and McGrattan draw on deep research, lifetimes of experience in performing and teaching the trumpet in its various forms, and numerous interviews to illuminate the trumpet's history, music, and players. Copiously illustrated with photographs, facsimiles, and music examples throughout, *The Trumpet* will enlighten and fascinate all performers and enthusiasts [Publisher description].

The Trumpet

Tells the fascinating story of African American women who traveled to France to seek freedom of expression. During the Jazz Age, France became a place where an African American woman could realize personal freedom and creativity, in narrative or in performance, in clay or on canvas, in life and in love. These women were participants in the life of the American expatriate colony, which included F. Scott Fitzgerald, Gertrude Stein, and Cole Porter, and they commingled with bohemian avant-garde writers and artists like Picasso, Breton, Colette, and Matisse. Bricktop's Paris introduces the reader to twenty-five of these women and the city they encountered. Following this nonfiction account, T. Denean Sharpley-Whiting provides a fictionalized autobiography of Ada 'Bricktop' Smith, which brings the players from the world of nonfiction into a Paris whose elegance masks a thriving underworld. 'Bricktop's Paris vibrantly recreates and reimagines the fascinating world of Jazz Age Paris by placing black women at the center of the story. T. Denean Sharpley-Whiting gives us a valuable new perspective on Ada 'Bricktop' Smith, giving her the prominence usually attributed to Josephine Baker. She also provides detailed portraits of other singers, musicians, writers, and artists who left America for the French capital. Written with enthusiasm and insight, Bricktop's Paris underscores the importance of women to transatlantic black modernity. Tyler Stovall, author of Paris Noir: African Americans in the City of Light 'Bricktop's Paris is a remarkable feat. Sharpley-Whiting's book is a woman's story about dreaming and making dreams happen. It is a political story, a story about migration, and re-creation. It is a dazzling account of bold women reshaping their lives as New Women/Modern Women and black women in Europe. A woman's place is not only viewed in the sphere of domesticity through Sharpley-Whiting's writing, she also reimagines the complexity of life far away from home and on stage, in the studio, and in the nightclub. She captures their spirit and desires and walks us through this history arm and arm, singing, writing, dancing, and making art. I fell in love with these women as I empathized with their struggles, some of them I knew through other writings but through Sharpley-Whiting I felt as if I knew them intimately as they made their lives count some fifty years after Reconstruction. She restores their voices and their bodies and makes them present for the contemporary reader. Brilliant! 'Deborah Willis, author of Posing Beauty: African American Images from the 1890s to the Present 'Bricktop's Paris is a marvelous book that further consolidates Sharpley-Whiting's record of pioneering research, a meticulous archeological excavation of the artistic, cultural, political, and social contributions made by African American women in Paris during the interwar years. This was a period that increasingly linked racial advocacy with colonial emancipation and during which African American women achieved unprecedented levels of creative and personal freedom while shaping broader conversations on identity and race. Bricktop's Paris promises to inspire a new generation of researchers and will become an incontrovertible point of reference in assessing the intellectual history of the era.
