Reborn

An old flame. A magical sorority. An uncontrollable power... Siobhan Elliot's World Myths and Legends class was supposed to be an easy way to get elective credit. Instead, she gets an unexpected—and unwanted—blast from the past in the form of the course's handsome teaching assistant, Jasper Hart. He puts

the cliché tall, dark and handsome to shame, but that's the least of Siobhan's worries. Because she's met him before. And he's definitely not human. Back then, their brief encounter left her with a unique but uncontrollable power, forever altering her young adult life. Now, the only person who can tell her the truth about who—and what—she really is doesn't seem to remember her. Even so, Jasper's return opens a whole new world to Siobhan, one straight from the pages of her World Myths and Legends textbook. Her already bizarre life is about to be turned upside down, and nothing—not even her sorority, Gamma Lambda Phi—is left untouched. A world where Greek mythology meets Greek life, legendary lovers reunite, and nothing is what it seems.

WATERMELON JUICE Happy New Year 2024! Happy to meet again, loyal friends of Armory Reborn! Hope you are all healthy, happy and enthusiastic. Entering the new year 2024, the international community is still concerned about the ongoing war in Europe and the Middle East. In Europe, the Ukraine vs Russia war has not yet shown a clear solution. In the Middle East, the Hamas (Palestine) vs Israel war is still not over. Israel's attacks on civilians in the Gaza Strip are very severe and concerning. Israel's plan to "expel" Palestinian civilians from Gaza has become a new problem. Meanwhile, the number of civilian casualties in Gaza has reached more than 21,000. So, Armory Reborn presents a special article highlighting world conditions in 2024. Apart from geopolitical conflicts, 2024 is an important year because several countries will hold general elections this year. Taiwan's presidential and parliamentary elections are scheduled to take place on January 13, 2024. Competition between presidential candidates is quite tight, amidst Taiwan's economic decline and tensions in Taipei's relations with Beijing. Although the issue of relations with China is still significant, socio-economic issues are likely to influence the results of this election. Apart from that, there is a book review that reviews Sovereign Wealth Funds (SWF). The role of SWF has been recognized as increasingly important in recent years. SWF can play a role in supporting infrastructure development in developing countries. Unfortunately, Indonesia does not seem to have built its own SWF base. Indonesia is still lagging behind neighboring countries such as Singapore and Malaysia. For those of you who like military technology, we present an article about the EMB-314 Super Tucano attack aircraft. This aircraft, produced by Embraer Brazil, is quite popular in the global market. Unfortunately, two Super Tucano aircraft belonging to the Indonesian Air Force crashed due to an accident while carrying out flight training last year. We hope that Armory Reborn friends can enjoy all these articles. Satrio Arismunandar Editor in chief

Soursop Juice Welcome back, friends and loyal supporters of Armory Reborn! Hope you are all healthy, happy and enthusiastic. President Joko Widodo's visit to meet US President Joe Biden in Washington on November 13, 2023, has resulted in several new agreements. Marking a historic new phase in bilateral relations between the two countries, the two leaders upgraded US-Indonesia relations to a Comprehensive Strategic Partnership. Biden thanked Jokowi for Indonesia's leadership in ASEAN and underscored the US commitment to deepen cooperation in Southeast Asia and with Indonesia. Armory Reborn reviews various important aspects of Jokowi's visit, which also carries a message from the Organization of Islamic Cooperation regarding the Palestinian issue. When this foreword was written, a ceasefire between Hamas and Israel was already in effect in the Gaza Strip, Palestine. The ceasefire was realized after a military confrontation between the Islamist Hamas faction and the Israeli military, which claimed the lives of more than 14,000 civilians in Gaza. In this regard, Armory Reborn presents several scenarios about the future of the Gaza Strip, after the military confrontation (temporarily) ends. The Gaza issue certainly cannot be separated from the peace negotiation process between Palestine and Israel. Many complex issues relate to the future of Gaza and Palestine. The existence of the Islamist Hamas faction and the nationalist Fatah faction, which have difficulty uniting within the Palestinian Authority, has made the peace process stall. Israel is taking advantage of the split Palestinian leadership to continue its territorial expansion agenda in the West Bank, which according to international law is the territory of the Palestinian Authority. For those of you who are interested in aerospace technology, we provide an article about the failed launch of Starship, a spacecraft made by SpaceX. This failure occurred in the second test flight, in mid-November 2023. Starship is part of SpaceX's ambitious program, founded by Elon Musk, to send people and goods to the moon, and then to the planet Mars. We hope that Armory Reborn friends can enjoy all these articles. Satrio Arismunandar Editor in

Arabic Tea Welcome back, friends and loyal supporters of Armory Reborn! May you all always be healthy, happy and enthusiastic. The world geopolitical situation, which was already hot with the Ukraine vs Russia war, is now getting hotter with the outbreak of the Hamas vs Israel military confrontation. At the time this article was written, around 8,000 people had died in this conflict, most of whom were civilians in Gaza. Israel imposed “collective punishment” by dropping thousands of bombs on the narrow, densely populated area to destroy Hamas bases. In this asymmetric war, the biggest victims are not Hamas fighters, but Palestinian civilians. The Israeli-Palestinian conflict is not a simple conflict. Apart from the territorial dispute between the two nations being quite complicated, the involvement of many other countries makes this conflict in the Middle East not easy to resolve. In addition to military confrontations such as Ukraine vs Russia and Hamas vs Israel, there is secretly other battle going on. This is not a battle with military force but a technological and trade war between the United States and China. This conflict is popularly referred to as the “chip war.” This small chip turns out to have very strategic value. Now you could say that all electronic devices produced throughout the world involve the use of chips or semiconductor technology. In fact, the application of future technology, such as artificial intelligence (AI), really requires various sophisticated chips. So, this “chip war” is not just an ordinary US vs China conflict but a conflict with global dimensions. This “chip war” will affect various aspects of life in other countries. For those of you who are interested in defense technology, we provide articles about various weapons used by Israel and Hamas in their recent military confrontations. When this article was written, fighting was continuing so it is possible that there are still other types of weapons that will be used by both parties. We hope that Armory Reborn friends can enjoy all these articles.

Thai Tea Armory Reborn! May you all always be healthy, happy and enthusiastic. On October 5, 2023, our Indonesian National Army (TNI) will be exactly 78 years old. Times have changed a lot, the geopolitical constellation has changed, the strategic environment has changed. So, the threats and challenges faced by the TNI have also changed. In this regard, all Armory Reborn editors wish the TNI a happy birthday. Hopefully the TNI can continue to develop, become more advanced and able to overcome all these challenges. In relation to changes in geopolitics and the strategic environment, the G20 Summit in New Delhi, India, has an important meaning. India, led by Prime Minister Narendra Modi, is considered successful in taking advantage of the G20 Summit moment to raise India's image as a voice for the interests of developing countries, which are usually called the Global South. As was the case at last year's G20 Summit in Bali, Vladimir Putin, the leader of Russia, was not present in person at the big event of the New Delhi G20 Summit. Russia is being targeted by the United States and its allies because of Russia's “special military operation” in Ukraine, which led to a protracted war on mainland Europe. This war drastically reduced Russia's weapons reserves. So, Putin's meeting with North Korea's supreme leader Kim Jong-un has attracted the attention of observers. Russia and North Korea are both being ostracized by the West. It is not surprising that Putin and Kim Jong-un help each other, including with arms and military technology transactions. For those of you who are interested in defense technology, we provide an article about submarine crew rescue vehicles. The Indonesian Navy had a bitter and sad experience with the sinking of the KRI Nanggala-402 submarine two years ago in the Bali Strait. At that time, the entire crew of the submarine died. In 2021, Indonesia did not have adequate equipment to carry out emergency rescue operations for submarine crews. So now Indonesia will buy a sophisticated submarine rescue vehicle made by U.K. We hope that Armory Reborn friends can enjoy all these articles. Satrio Arismunandar Editor in chief
