A masterpiece of boss design - A masterpiece of boss design 3 Minuten, 5 Sekunden - Playing through The Old Hunters for the first time was a profound experience, I already loved **Bloodborne**, and the DLC really put it ...

The Old Hunters DLC for Bloodborne introduced Ludwig as a boss, first appearing in a wretched bestial state.

One of his eyes remains somewhat clear, but the other is cloudy, blinded by the scourge of beasts.

His transformed state resembles a horse, but some semblance of his human features remain.

A significant number of which are found in his multiple different legs, two of which still have semi-human digits.

The other Ludwig can be found here, below the map acting as the total healthbar of the fight and the 2nd phase.

cinematic moments From Software has ever produced.

This is the moment where Ludwig's design truly shines, the reason for his human features becoming apparent.

From usually deals largely in the decline of majesty, and Bloodborne especially is focused on the fragility of humanity.

This restoration is a culmination of Bloodborne's themes, and makes Ludwig all the more technically impressive.

Despite taking on a completely different pose and demeanor, this Ludwig uses the same model skeleton as the original.

It seems like it's always the DLC bosses, doesn't it?
